"Prince" Ships In Two Invasions

Two veteran skippers, Commander T. Douglas Kelly, Royal Canadian Naval Reserve, of Victoria, B.C., (left), and Captain V. S. Godfrey, R.C.N., of Ottawa, Ont. (right), have played an important part in the successful invasions of Normandy and on the south of France. They were the commanding officers of the Canadian auxiliary cruisers, the Prince David (top) and the Prince, Henry, former Pacific Coast cruise ships of the Canadian National Steamships. In both invasions, these two cruisers put thousands of troops ashore in asscult Ianding craft.

Commander Kelly has a wealth of sea experience, starting his career in 1920 as a cadet at the Royal Canadian Naval College. Two years later, he signed on as an able seaman on an oil tanker and, by 1929, was in command of the same company's tankers. Commander Kelly joined the Navy in 1940, and the following year was appointed to the HMCS Prince
David as executive officer. He became commanding officer of the Canadia's senior hospital ship.

of change in Spirits Ration

Announcement

EFFECTIVE OCTOBER 2nd, 1944

OMMENCING October 2nd, 1944, and until further onotice, every individual permit holder will be permitted to purchase monthly one bottle of spirits (25 or 26 ounces) or two half bottles as available.

As a result of the restrictions imposed by the Dominion Government under the Wartime Alcoholic Beverages Order P.C.11374, it was necessary to reduce the monthly ration of spirits to 13 ounces to assure adequate supplies of spirits until the end of the year. In increasing the ration it should be explained to the public that unless the restrictions imposed by the Dominion Government are removed a similar restriction will be necessary again next year, although the Board, except for the Dominion Restriction, would be able to make available for distribution stocks of spirits in excess of the present ration.

In any event, however, the ration becoming effective on October 2nd can be maintained throughout the winter months, so it is hoped that the public will co-operate by not buying in excess of actual requirements.
