### THE MIXING BOWL

By ANNE ALLAN  
Hydra Home Economist

Hello Homemakers! Since the children have settled down to scheduled school hours, we have been thinking more about turning on the oven to pop in something that may be fresh and varied from the standard supper dishes of the past month. We can dream a-bout rich pastry cases filled with creamed shrimp and mushrooms, or for desert fruit and whipped cream. There are very suitable substitutes. We can still get along without them. Pop-overs and plain pastry puff shells. The food that is put into these cases may be hot or cold, plain or sweet.

But no matter what you use as fillings, you need to make sure that the shells are not tough and heavy. The secret of successful pop-overs and puffs is two-fold—proper beating to incorporate plenty of air and careful baking to hold the shape of the pop-over and puff made by expanding the steam inside. The expanding steam causes the mixture to rise and the combination of gluten in the bread flour and the intense, even heat of the oven does the "puffing". Then reduced heat for the rest of the baking allows the puff to cook inside.

We give you the recipe for pop-overs and cream puffs (war-time versions) together in The Mixing Bowl column because they are similar in principal and use. Pop-overs are sometimes served piping hot with butter in the same manner as tea biscuits—to accompany salads or simple fruit deserts. But they are also good split and filled with cream chicken, creamed green beans and carrots. Use as a main course accompanied with browned potatoes and a generous serving of salad. The puffs, if made large, are perfect for a company dessert if filled with cream custard, fruit sauce or chocolate mixture. You will find these sweet puffs easy on the sugar and yet a satisfactory substitute for rich cakes.

#### POP-OVERS

1/2 teaspoon salt, 1 cup sifted bread flour, 3/4 cup milk, 2 eggs, 1/2 tablespoon melted shortening.

Sift salt and flour together. Add milk gradually, beating until mixture is smooth. Beat eggs until light and add to first mixture. Add shortening and beat well. Pour into hot greased muffin pan and bake in electric oven 30 minutes at 475 degrees F., reducing the temperature to 350 degrees F. for 15 minutes. Yield: Nine pop-overs.

#### CREAM PUFF SHELLS

1/2 cup butter, 1/2 cup water, 1/2 teaspoon salt, 1/2 cup bread flour, 2 eggs, unbeaten.

Combine the butter, water and salt in saucepan and bring to boiling point. Sift in flour and cook, stirring constantly until smooth mixture forms. Stir vigorously until mixture forms a ball in the centre of the pan.

Remove from electric element and let stand five minutes. Add eggs, one at a time, beating vigorously after adding each egg. Mixture should be very stiff. Drop by spoonfuls on buttered cookie sheet. Make eight large puffs or 18 small ones or 24 afternoon-tea size. Bake in very hot oven (450 degrees F.) for 15 minutes. Reduce heat to 350 degrees and bake for 20 to 25 minutes longer. Small puffs will not take quite as long to finish baking. When cool, cut slit in side of puff and fill with cream custard filling, salad mixture.

### CREAM FILLING FOR PUFFS

1 1/2 cup sugar, 2 1/2 tablespoons flour, 1/2 teaspoon salt, 1 cup milk, 1 egg, 1/2 teaspoon vanilla, 2 teaspoons butter.

Mix the sugar, flour and salt in a double boiler. Add the milk gradually and cook, stirring constantly until the mixture is thick (3 to 5 minutes). Cover and cook for 10 minutes longer. Add a little of this mixture to the turn to the double boiler. Cook for a minute longer, stirring constantly. Slightly beaten egg, mix well and remove from stove.

#### TAKE A TIP

1. Use sweet cider to flavour gelatin moulds for variation.

2. If cocoa is to be substituted for one ounce of chocolate in a sauce recipe, use one quarter cup cocoa and mix with cornstarch and sugar.

3. Bake beets occasionally. Wash, trim and roast as you do potatoes.

4. Increase the amount of salt in a recipe when you substitute shortening for butter.
