North Grey

ANNUAL MEETING

Saturday, Nov. 25, at 2 p.m.

Town Hall - Meaford, Ont.

W. GARFIELD CASE

Farm Forum met at the home of Mr. Alf. O'Nell on Monday night with a good crowd present. Miss Leola Graham was convener and arranged three groups for the discussion on "Review Night" Miss Pearl Bunstead was chosen as convener for the next night with Miss O'Nell as recreation leader. Next meeting will be held at the home of Mr. and Mrs. Bert McLoughry.

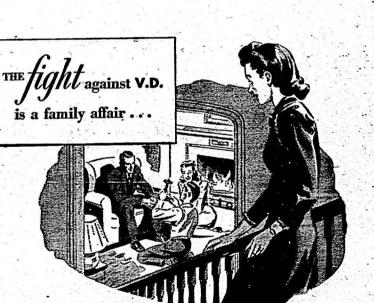

Mrs. John Coulter, the former Miss Beulah Olttewell and a former school teacher of this section, passed away in Owen Sound hospital recently. The burial took place to Wiarton Cemetery on Monday. Our sympathy is extended to her husband and daughter.

Mrs. Chas. Gilchrist attended the funeral of the late Mrs. Coulter.

Mrs. Gordon Hill visited in Toronto last week.

60 YEARS AGO—November 6th, 1834

Alex. Kay was turning our coarse and public beachers for Markdale Public School engaged for 1835 were: Frank School engaged for 1835 were: Prank School engaged for 1835 were:

A laughing couple, dodging showers of rice... fireside... garden... chubby babies...

These are scenes we know and like, because they're part of our lives . . . because they spell happiness . . . contentment. But we know that these things don't "just happen." They have to be worked for, lived for. Protected, too, because of ever-present

dangers which may spoil them. Venereal Disease is a spoiler. In a cold, relentless way it can kill infants, rob the home of its breadwinner, cripple, destroy. These are not mere possibilities. THEY HAPPEN...RIGHT HERE IN CANADA! But, these things should never happen.

Young men and women can safeguard their future happiness together by making sure before marriage that V.D. will not blight their plans. A medical examination, including a blood test for syphilis, is a protection no couple can afford to pass up.

The expectant mother, too, may know for sure that her baby will be all she dreamed of. Sphilis in the expectant mother rarely shows outward signs, and it is no respecter of persons. An early check-up by her doctor, including a blood test, is a most essential, yet simple, first step in protecting her baby's

Nor must the breadwinner neglect his part. The security of the home depends upon his ability to work regularly and efficiently. Unsuspected syphilis, striking in middle life, may make the head of the home unable to provide for his family. It is wise to KNOW FOR SURE in time. Industrial medical examinations should include a routine confidential blood test.

A blood test should not be looked upon as something unusual. It should be regarded for what it is . . . a normal safeguard of health, security and happiness.

Live Beaton Mrs. Chas. Thompson the visit of the deal and being sorry for yourself is just as far off the mark as beaking out and having a good time." Both these attitudes she explained were frustrating and offered no solution. The only really satisfying answer was to get into a parallel fight here on the home front to preserve and maintain the things that her husband was risking his life for overeas. She pointed out that there were many opportunities to fight local government.

Enlistment in such a programme as this had something worthwhile and intriguing to offer her husband. Picking up the threads again with united determination and objectives, as out-

## lined by this fighter pilot's wife, sure offer a real basis for rehabilitation : the post-war world. CHERRY GROVE

Mr. and Mrs. V. Heathers and family of Markdale and Mr. and Mrs. Ernie Harvey and family of Proton were Sunday visitors with Mr. and Mrs. T. Wood and family. Wood and family.

about the things you buy in wartime

1.300.000 MORE PAIRS OF CHILDREN'S SHOES LAST YEAR

facturers made for Canadian children about 25% more shoes than in 1939-a direction of production by this Board's Footwear Administration and the cooperation of manufacturers. And this was accomplished while they were making more essential type shoes for war workers, who wear out their shoes faster than they do in their normal employment.

25 Through its Standards and its Supply Dirasions, the Board watches the production of divilion goods to ensure that everything possible is done to provide the necessary quantities and to mointain the quality. The limitations imposed by the shortage of lobour and mate iois, however, mean that you can't get all you want in war-time. Bions,

LEATHER GOES TO WAR

Now you see it ..

You've got to have good strong leather for children's shoes, but the soldiers are taking most of ours for their boots. For these leathers, a substantial portion of the hidse came from South America and other countries. War cut down these imports and there have been difficulties in getting enough of these and our own hides tanned into leather due to shortage of workers. The production of high grade leather shoes has, however, been main-

Now you dont!

1

TURNING HIDES INTO SHOES

There are very large war uses of leather —for instance, in footwear. A soldier requires four pairs of shoes in the first year of his service and about three pairs per year thereafter. But, what is more important, he needs to have his shoes re-soled four or five times a year. His —the best leathers—has gone to war.
