That Canada May Be Called On To Ship Wheat To India And The Middle East

women is largely biological, com-ments Time Magazine. The more scientists study the question, the more fundamental differences they find between men and women. Prospects of short wheat supplies due to drought in Australia may result in Canada being called on to make shipments to India and the Middle East and to other five to nine days sooner than boys; they teethe and talk earlier; their bones harden sooner; they have fewer red corpuscles and a countries accustomed to import from Australia, a survey of the world wheat situation made at Otfaster pulse; they are more emo-tional (more active thyroid glands); they mature more rapidtawa indicates. Australia is faced with the prospect of the smallest wheat crop since 1919. Argentina, also a large wheat-producing ly. A girl sleeps more than a boy, needs less food, has a lower metacounty, has lowered wheat pros-pects too from lack of rain, and it bolism rate, is warmer in Winter (because of better insulation) and stimated that there may not be more than enough to provide for domestic needs in that country Though her muscular strength is only half that of a man, she is a from this year's harvest.

The present system of rationing The present system of rationing new farm machinery and equipment will be continued until supplies are more nearly in line with demands. H. H Bloom, administrator of farm machinery, says that although the supply for Canada in 1945 will equal in tonnage about 202% of the 1940 available works it is not sufficient to meet supply, it is not sufficient to meet he apparent consumer demand. To help keep present equipment in operation there is no limit on the duction of repair parts.

This year's tobacco crop is estimated at 100,000,000 pounds, the second largest ever grown in Cannearly 148 pounds of tobacco for every 100 pounds grown in 1943.
