

How Would You Have Sent the Draftees, Mr. Case?

While General McNaughton was getting those 8,300 Draftees across the high seas . . . and had to remain silent . . . you were desk-thumping at your press conferences and accusing him of "Drawing a red herring across the reinforcement issue."

You were calling Canada's great soldier, who built the Canadian Army Overseas "the newest and most discredited yes-man" in your ads.

You, Mr. Case, were doing a lot of talking, while McNaughton was working—and had to stay on the job. Now, Mr. Case, isn't it about time to admit you don't know what it's all about? That you never built an army overseas, like McNaughton?

Also the electors would like to know how YOU would have sent those Draftees, seeing you say "I'm still Opposed to Conscription." (Rocklyn, January 16).

Come on Mr. Case, how would you have sent those Draftees? Do tell us. If not, move over and give a soldier a chance. He knows how.

VANDELEUR

This community extends sympathy to the family of the late A. E. Colgan, Editor of the Markdale Standard. Mr. and Mrs. Lloyd Boland entertained the Farm Forum for their 22nd meeting on Monday evening, Jan. 22. The topic was "We All Have Something to Learn". Mr. Chas. Boland was chairman and two discussion groups were formed with Miss Maxine Connell and Mrs. Will Burrell as secretaries. The Forum commended the work of the Agricultural Representative, the W.I., the O.A.C. Farm Radio Forum, National Film Board, Bulletin, etc. and urged that a greater interest in these facilities should be taken by farmers. They also felt that rural people, especially young people should take every advantage of farmers' week and field days at the O.A.C. also Short Courses, etc. It was also felt that bulletins could be made more attractive and readable and soil analysis more general. Ethel Hutchison, convenor, put on a splendid quiz contest in which each had to pay a forfeit by making some contribution to the program. Readings were also given by Miss Connell, Myrtle Fawcett and Howard Graham. Luncheon was served by the hostess. The next meeting will be held at the home of Mr. and Mrs. Andy Fawcett with Extra Boland and E. I. Graham in charge. It will be a "Bobbie Burns" program.

Under the auspices of the local Farm Forum a splendid program of sound moving pictures was put on in Vandeleur Community Hall on Wednesday afternoon, January 17th, by Mr. Ed Lang of Desboro, fieldman for the Grey Federation of Agriculture. This was the fifth monthly program that has been put on here by Mr. Lang. The custom has been to have a program for the school children in the afternoon and for the adults at night, but because the roads here are now blocked with snow the Forum decided to have both programs in the afternoon. The Forum secretary met Mr. Lang at the highway with sleighs and team and Andy Fawcett took him back. The result was so successful that it was decided to do the same thing for the February program. Pictures shown were "Our Canadian Heritage", "Preserving Our National Resources", "It's Your Pigeon", "Atom Power", "Volcanism", "First Aid in Burns and Fractures", etc. and a sing-song. It was an instructive and interesting program.

Hilliard Fitzsimmons was a week-end visitor with his parents, Mr. and Mrs. Sam Fitzsimmons.

Miss Glenora McGee returned to Toronto with Mrs. J. J. McGee and spent a week's holidays recently.

HAVE YOU RENEWED?

APPLIANCES SHOWN IN 1944, PRODUCTS BY THE NATIONAL BUREAU OF STANDARDS

"Say, how about telephones?"

Here's the situation: Makers of telephone equipment have been busy on orders of all kinds for the armed services. For them, the time to start retooling all lines ahead. Even after war needs have been met, these manufacturers must make a major change-over before they can resume normal production of supplies for civilian use . . . Which means that we must continue to defer many requests for telephone service, awaiting the day (we hope it may not be too long delayed) when materials in adequate volume and skilled manpower again become available. The applications on our waiting list will be filled as promptly and fairly as possible, on a first-come-first-served basis.

On Active Service Going Wings to Words

Dog Kills Groundhog Jan. 15

Spring signs are already in evidence in this district, sub-zero weather notwithstanding. Last week a Venice resident reported sighting a robin. Monday, a dog owned by Mrs. John Inglis of Badjeros, northeast of here, killed a groundhog, and proudly brought it up to the house. Groundhogs are not supposed to poke out their noses till Candlemas Day, Feb. 2.

We have been forced to hold considerable news over until next week because of the extra demands made by advertisers.

NOW IT CAN BE TOLD!

This is why General McNaughton had to stay on the job and break his dates here . . .

8300 DRAFT TROOPS WERE AT SEA ON WAY TO FIGHTING FRONTS--Also a full quota of volunteers. Another 6300 Draftees were in the bush, and they are going to be rounded up and sent overseas.

While Mr. Case babbled about General McNaughton drawing red herrings across the trail . . . and roared his desk-thumping challenge to the General to tell the electors "If one so-called Zombie had been sent overseas" . . . the General was at work, getting reinforcements overseas.

The General could not answer while the reinforcements were on the high seas. He could not risk-exposing the men to enemy torpedoes. So Mr. Case continued to bellow his challenge.

Remember, men and women of North Grey—"It is the ungenerous people who make the most noise!"

AND SPEAKING OF "RED HERRINGS"

Garfield Case says in his advertisement that he is "the one candidate in this election who insists that your wishes should be carried out. This is the only Party (the Pro-Cons.) with a clear and emphatic policy on reinforcements." So says Garfield Case, Jan. 20.

And the same Garfield Case told you at Rocklyn, Jan. 16 "I'm still opposed to conscription as such but am for total mobilization of manpower and resources."

Men and women of North Grey, do you find this kind of double-talk reassuring—when your men overseas want reinforcements? WHERE IS THAT "CLEAR AND EMPHATIC POLICY OF REINFORCEMENTS" HE TALKS ABOUT?

CASE SAYS PLAINLY HE IS OPPOSED TO CONSCRIPTION, THAT MEANS THAT IF CASE HAD THE SAY—THOSE 8,300 DRAFTEES WOULD NOT BE OVERSEAS NOW.

Let's Have a Man of Action — Not Words and Wind

You want reinforcements, for your men overseas. McNaughton is getting you reinforcements. This is proven fact—not double-talk. You want a man who knows the needs of the Canadian Army—not a politician. And you have got both in McNaughton. He built the Army Overseas. His heart and sympathy are with it. Let's not expose our great Canadian Soldier to any more abuse, such as "Opportunists", "Political skullduggery", "most discredited yes-man." Has Mr. Case no sense of decency or shame? Does he think such mud appeals to loyal men and women of North Grey?

Let's vote for our soldier Minister of National Defence on Feb. 5th —and strengthen his hand in the House of Commons NOW.

CANADA NEEDS McNAUGHTON AND SO DO YOUR MEN OVERSEAS

Published by authority of the North Grey Liberal Association.

MATCHES HAVE CAUSED SERIOUS FIRES IN OVERSEAS MAIL . . .

WARNING!

NEVER PACK ANY INFLAMMABLE MATERIALS IN PARCELS . . .

MATCHES AND LIGHTER FLUID in overseas parcels have started serious fires. Think what this means. Thousands of bags containing letters and parcels lie deep down in a ship's hold, lurching in a rough sea. If matches or lighter fluid take fire—AND THEY DO—that means that brave seamen must go into the smoke-filled hold and risk their lives. Thousands of parcels may be destroyed—thousands of men disappointed.

WON'T YOU HELP?

We know that you would not knowingly endanger lives and mail. So think—and then don't put matches or lighter fluid in Overseas Mail.

WHERE ARE THE HYDRO LINES?

ARE YOU TOO, WAITING FOR HYDRO RURAL SERVICE? If so, you can be sure that Hydro is working in your direction as fast as possible. Actually, in 1944, The Hydro-Electric Power Commission of Ontario constructed 10 times as many miles of rural lines as in 1943.

In 1943, there were approximately 40 miles of rural lines constructed.

In 1944, there were approximately 400 miles of rural lines constructed.

Consumers added in 1943 numbered 2025.

Consumers added in 1944 numbered 9776.

Warlike shortages of manpower and materials prevented even greater expansion in 1944; as an example, some 1200 Hydro employees are in the armed forces or on loan to the Government for special technical work . . . many materials needed in the construction of Hydro lines are also required in the production of war weapons . . . your Hydro is doing its part under the existing conditions to provide electricity to essential services.

There are now about 8000 applications for new rural services which have been approved that will be connected as soon as possible. However, there will probably be further delays because of the acute shortage of manpower and materials as a result of warlike conditions. If the Hydro lines seem unduly long in getting to your farm, please understand that the Commission's white handi-capped is none the less doing its utmost to serve you.
