## FDR AND HAILE SELASSIE CONFER

President Roosevelt chats with Emperor Haile Selassie of Ethiopia aboard warship anchored in Great Bitter Lake near Cairo, Egypt. This is in accordance with the President's desire that government heads throughout the world meet frequently for friendly exchange of views. FDR saw three monarchs on way back to United States from Yalta.

## 'AN ARMY TRAVELS ON ITS ...'

Napoleon's wisecrack about an army traveling on its stomach was all right, but foot-slogging soldiers would give him an argument on that. In photo above, soldiers about to cross the Soer River into Germany sit on a jeep while medics examine their feet and give them clean socks.

## HEROINE'S SON

Anthony Everitt here displays the Albert medal, received from King George at a Buckingham Palace investiture. The award was made to Anthony's mother who took part in the rescue of U.S. airmen from a bomber which crashed on her farm. She died from injuries received when the plane exploded and the boy has been adopted by a U.S. bomber squadron.

## NAZI KILLED

Jacques Doriot, chief of the pro-Nazi French Popular party and notorious collaborator, was killed during a recent low-level Allied air attack on southwest Germany, the Berlin radio has announced. Doriot fled to Germany with members of the Marshal Petain's Vichy government when Allied armies overran France last fall.

## WHEN BOMBS FALL

3000 BOMBERS

30,000 AMERICANS

5 OR 6 THOUSAND TONS

When, as occurs some days, 3000 American bombers at once are blasting enemy territory at the same time from English, Italian and other bases, it means that at least 30,000 American airmen are aloft, taking with them five or six thousand tons of bombs.

## Development

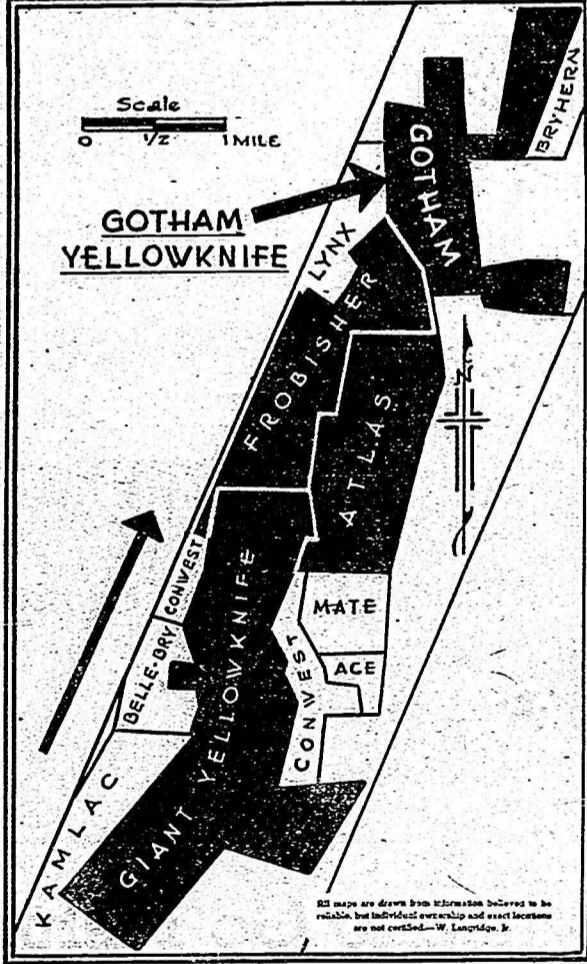

Drilling will be started soon on Gotham under the supervision of Carl Carlson, B.Sc., formerly with Negus. Already gold values of \$12.00 per ton have been found over an approximate width of one foot.

## WHAT OF THE FUTURE?

Many believe the Giant stock will sell up to \$40.00 or \$50.00 per share within the next two years. Frobisher owns over a million shares of Giant stock, which would influence the price of its stock to a considerable extent. Gotham is tied on to Frobisher and one could expect the value of the Gotham stock to rise to several dollars per share and with favorable results found on the property to much higher prices. If Giant goes to \$50.00, what will be the price of Gotham?
