#### The Government Must Have Money

If everything in Canada were to be handled by the co-operatives, as some are suggesting, there wouldn't be many taxes coming from private business, comments. The Lethbridge Herald. The Govrnment would then have to do what the Russian Government does. There a turnover tax on the business of co-operatives brought in \$00,000,000 rubles last year, and co-operative farms had to pay besides eight percent, on product soid and on revenues distributed to their members. After all, the State must have cash on which to oper

### How Sun's Rays Affect Steel Mast

Studies made of a 125-foot tubu er stainless steel mast atop a New lar staniess steel mist ato a stanies by York Skyseraper indicate that al-though mounted and designed to stand vertically it actually does so only on heavily clouded days and

When the sun's rays strike the r-ast, the metal on the sunny side becomes heated and expands more than the shaded cooler opposite side, causing the mast to bend away from Old Sol. In the course of a bright sunny day, the top of the mast swings through a 12-inch arc. bending

six inches to the west before noon and six inches to the east in the afternoon. The mast would stand erect in the sunshine only if the sun were directly overhead, an unlikely cir-cumstance in New York, for that

city is far north of the Earth's

## Berliners Dread

Berlin people fear the artillery barrage they figure the Russians will by on the city once they are within range of the German capital says the Windsor Star. So, as many Berliners as possible are making tracks for somewhere else. Once the guns open up on Ber-lin, it will be just too bad for the people and the city. Artillery can do what bombs cannot accomply While airplanes soar overhead, drop their bombs and fly away,

the artillery simply sets up the guns and keeps on firing until de-molition piles on demolition. An artillery battery can train it shifted and the battery can go t work on another target.

The Amazon river drains an area
