

**ON VISIT TO CANADIANS**

Prime Minister Winston Churchill believes in seeing the allied fighting troops as often as possible and when possible right in their own lines. Here he is shown, bending before a Maple Leaf insignia, signing his name in the visitors book after lunching at the 2nd Canadian Corps during a recent visit to the Western Front. Watching the Premier signing is Lieut.-Gen. G. G. Simmonds, C.B., D.S.O., General Commanding, 2nd Canadian Corps.

**Synthetic Tires Withstand Speed**

Synthetic tires made by the Firestone Tire & Rubber Company of Canada Limited have successfully completed a most gruelling speed test made to ascertain just how such tires stand up under high speeds.

Wilbur Shaw, famous three-time winner of the Indianapolis Race, volunteered to make the test. Driving a racing car equipped with regular tires taken from stock, Shaw

**Nazis Can't Even Believe Their Eyes**

A front reporter said Prime Minister Churchill and Field Marshal Montgomery halted at one point on their trip to the east side of the Rhine last week to watch a group of German prisoners being ferried back over the Rhine.

A British guard turned to the German captives and shouted raucously: "Have a good look. There's Winnie and Monty crossing your Rhine. How about it?" Even seeing is not believing for German paratroopers taken prisoner. Asked what they thought when they saw the great airborne arm-da flying over them these German paratroopers shook their heads and said: "It was just British propaganda."

**MAD BEES**

Ain't radio wonderful! One of the commentators last night swung away from the war and got onto the subject of bees. And among other points he mentioned was that bees sometimes shed their hair, and get bald. It must make a bee mad to have a comb in the hive and not be able to use it.

**Women In Aerial Transport Service**

The fact is not so well known as it should be that there are hundreds of women pilots serving in Britain, comments the Stratford Beacon-Herald. Most of them are British girls, but there are also quite a few Americans. Their job is to relieve the combat pilots by transporting bombers from factories to airfields, or from airfield to airfield, and generally flying planes in messenger service, or carrying small-package goods. A British official who visited an airport recently and wanted to get to another in a hurry was greatly surprised when he was assigned a seat in a Lancaster bomber which was piloted by a young woman. Before starting off the checked up the mechanism with all the skill of an engineer, and handled the controls of the powerful machine as if it were an ordinary, routine job to her—which it was.
