THE CANADIAN WAY OF LIFE . . .

Down to Earth . . .

GARDENING for the fun of it—week-end trips in the old family jalopy—lazy days fishing by the river—these things still stand for a pleasant way of life—a way of life our men overseas have been fighting for! They won't be able to come back to these simple things, unless we get "down to earth" in our thinking, and make sure when they do come back, their dollar will be worth a dollar!

To protect that dollar, we must realize now, the dangers of careless, unnecessary buying! We must buy only what we need—never buy two where one will do! We must not evade rationing or price control, or deal in black markets. If we break these rules, our country—the country our soldiers fought for—will start on that spiral of prices known as inflation. And inflation affects everyone . . .

wage-earner, pensioner, small-business owner, returned soldier! That's why it's important to take a stand against it now. If inflation starts in this country, this is what will happen. Prices will rise. Wages will try to follow along—and will never quite catch up! Soon your dollar—your soldier's dollar—may buy only 25% of the things it used to! That is what has happened in many of the countries of the world today, and that is why normal living for anyone is impossible in those countries!

So let's make sure our soldier's dollar, when he gets back, will be worth a full dollar. We cannot give back to him his lost years or lost youth. But if we keep up the fight against inflation, the man who is overseas can look forward to pleasant, satisfying living . . . to the Canadian way of life!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

- By observing rationing and avoiding black markets in any shape or form.
- By respecting price controls and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.
- By buying Victory Bonds and War Savings Stamps, supporting taxation, and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.

High School Entrance Scholarship

The Markdale Rotary Club has set up an Entrance to High School Scholarship of fifty-five dollars to be competed for this year. The scholarship is divided as follows: 1st, \$25.00; 2nd, \$15.00; 3rd, \$10.00; 4th, \$5.00.

These prizes are available to all bona fide entrance class pupils writing Entrance to High School Examinations this year and attending the Public and Separate Schools in the district. All schools receiving this letter are invited to compete.

The Rules and Regulations are very simple and are given below.

- The pupil must write in the Markdale High School at the Entrance to High School Examinations.
- Only one cash award can be secured by a school each year.
- The papers written will be examined by the sitting Entrance Board and in case of a tie will be re-examined by a neutral examiner.
- The papers written will be those of the Department of Education as set for Entrance to High School pupils. Teachers are urged to prepare their students for these generous cash awards; the success of this first year will inspire the Markdale Rotary Club to continue the awards in succeeding years.

BE PATIENT! SOME GOODS ARE STILL SCARCE . . .

DON'T CONFUSE THE SIGNALS

War came. Most civilian goods had to be diverted to war needs. That caused shortages of civilian goods—that was the **RED LIGHT**

don't jump the **YELLOW** light

Some restrictions have been lifted, but war demands are still great. We must help our Allies and the liberated countries. We can't neglect them.

(This is the **YELLOW LIGHT ONLY**).

It does not mean the end of shortages. Getting back to peacetime production will be piecemeal and gradual.

Goodwill, patience and energy now will assure a prosperous Canada tomorrow.

it's **NOT** the green light yet

Only after Victory over Japan can the Green Light be switched on, and the road cleared for enough production to meet all our civilian needs.
