The Standard's Services Acknowledged

Wm. D. Halliwell, the newly appointed minister of Cooke's Presbyterian Church, has made a suggestion which we do appreciate, and we think the idea is worthy of other church officials co-operating to make it a regular feature of this newspaper. The cost of this service will be borne by the church. In return for the space donated by the publishers of The Standard each week, Mr. Halliwell has proposed that their church run a weekly single column advertisement to acquaint readers of the church's doings, special services, meetings, etc. The church's heading will remain the same and will not be charged for. The cost of this service will not burden anyone, and might well be sponsored by some organization of the church. Too much stress cannot be laid on the great work which falls on the churches, and we commend the idea, keeping in mind the informed of their happenings. The services of your newspaper in this respect should be appreciated even more with a small charge for weekly notices.

Canadian farmers deserve the utmost credit for quadrupling this country's wartime hog production. A goodly export market should be held—in the face of post-war competition from Denmark where hog numbers are believed to be almost normal again.

The test, say the experts, will be on quality. The normal British taste for fat hogs, Lean Yorkshires are sure to get preference. Rotation of the farrow pen will become increasingly important. And the successful hog raiser will make greater use of his pig for 1945. A more thorough up-to-date, practical advice can be had for the asking.

Another valuable service, that of money, is offered by The Bank of Toronto. Our branch managers, as during the past 90 years, are both attentive listeners and experienced advisers—genuinely anxious to aid responsible farmers who want to make real progress during post-war years.

The highest Authorities on Tire Performance

...THE MOTORISTS THEMSELVES **Note GOOD YEARS**

311 OVER ANY OTHER TIRE

Motorists across Canada recently were asked by an independent fact-finding agency, "What make of synthetic rubber tire would you buy today, if available?" Goodyear was first choice with 43%. The highest competitive brand was named by only 14%. Goodyear led by better than three to one!

Among eligible users, Goodyear synthetics have re-affirmed Goodyear leadership by their sterling performance under all conditions. Technical reasons for this performance are many, but all have their roots in Goodyear's experience in building millions more tires than any other manufacturer, and in more than 20 years of developing and improving synthetics.

While every effort is being made to bring new tires to all motorists at the earliest possible date, it is likely to be some time before everyone is eligible. Conservation of your tires is still important. Keep in touch with your Goodyear dealer whose experience and regular attention will help keep your present tires in service. Also, be well advised you promptly when you become eligible for new tires.

Now, for 30 years, "More People Ride on Goodyear Tires Than On Any Other Kind."

According to a Recent Survey by a Reputable Independent Canadian Fact-Finding Organization

"Hey, When will I get the telephone I ordered?"

With the lifting of restrictions on the manufacture of many consumer and commercial telephones, Minister of Finance Illey said, "Consumers must not expect an immediate increase in the availability of these commodities." And he added, "Consumers must expect to wait for the necessary increase in civilian goods production and the necessary skilled labor and materials without interfering with continuing war requirements."

Our ability to install telephones depends not on instruments alone, but also in many cases on obtaining wire, cable and exchange equipment. Even when we can secure necessary manpower and materials, it will take time—it might be months—to install all the apparatus necessary to serve our waiting applicants.

We shall lose no time, you may be sure. We are grateful for the patience and understanding of so many who have had to wait so long for telephone service.
