If you haven't, then let me warn you that you are quite likely to have overnight in any of these old farm houses with big chimneys. It is a weird sound but really nothing to be alarmed about. The swifts are most persistent tenants and nothing less than a cap on top of the chimney will discourage them from setting up house in any chimney they take a fancy to. You can't smoke them out - we've tried it.

The First Church of Christ, Scientist, Boston

Lasting world peace has its roots in the premanency of divine laws and cannot be expected to rise from the foundations of selfish desires and aims. The Christian Science Board of Directors told the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, June 4.

Highlighting the meeting was the election of Mrs. Myrtle Holm Smith of Weban, Massachusetts, as president of The Mother Church for the ensuing year, succeeding Paul Stark Seeley, and the re-elections of Roy Garret Watson, treasurer, and Mary G. Ewing, clerk.

clerk.

Christian Scientists heartily concur in the purpose of peace conference representatives in California to find ways and means to prevent war, Directors stated. They saw these efforts as making practical the Sermon on the Mount.

Turbulent Waters

Turbulent Waters

"The manifestation of God's law can never fail to quiet the turbulent waters, but we must assiduously strive to rule out of our thoughts any qualities which would work against, rather than for the peace of the individual, and therefore of the world." In this way, the Directors indicated that world peace stems from the individual overcoming of human faults.

"In order to keep one's spiritual understanding clear there must be deep consecration in thought and deed to the government of divine Principle. There can be no lasting peace where selfishness reigns. Therefore, it is by those who base their thoughts upon God's laws that the present global problems can be solved and a lasting peace attained."

Membership Increases

The directors stated that membership in The Mother Church was now four times greater than it was 35 years ago. There is a growing awareness, they said, of the need for unselfish service to God and His law. Without frankness and honesty in the world they added," we have a whirlpool in which there is no steadiness

and no rest."

Demands for Christian Science literature continue to increase, according to the trustees under the will of Mary Baker Eddy. Mrs. according to the trustees under the will of mary baser Eddy's writings, for instance, were figured to have risen in sale 23 percent from 1941 to 1942, 57 percent in 1943, and 78 percent in 1944. The total sales for last year were said to be more than twice those of the last full prewar year, 1940.

His officer said if it rained he too would take

cognac, listened attentively. "You have the kindest, most spoke to madame, though his black eyes were intent on Rudolph. "This is one of the noblest gestures that has been made, one which all Can-ada, all America, will appreciate and applaud."

How Can I? dolph looked timidly at madame "In these times—"
"Pouf!" Gabriel Follet grinned By Anne Ashley into his brandy glass. "What is money in a time like this? Only a Q. How can I wash a feather money in a time like tims? Only a lot of silly green paper and dirty metal. Now, if you will permit, I shall go back to the city and set the wheels i motion."

MOST DELICIOUS OF ALL CORN FLAKES!

Any poisonous waste materials, which the liver has failed to eliminate from the digested food before it is taken up by the blood stream, must be looked after by the kidneys if the blood is to be rid of dangerous poisons.

When the kidneys fail there comes a poisoning of the system with headaches, tired feelings, loss of sleep and such painful ailments as backsache, rheumatic pains, lumbago and other ills.

The use of Dr. Chase's Kidney Liver Pills is suggested because they help in three ways to get rid of this condition.
