YESTERDAY
He went forth to meet the challenge of war. Canada's fate was in his hands.
TODAY
With a service badge—and the same confident grin—he turns to meet a new challenge—that of the Peace he won for us.
A badge of honour — yes. But it marks also the beginning of a new life and new opportunities.
The Ninth Victory Loan proposes to make good the rehabilitation pledges we have made — to enable him to take advantage of those opportunities. He did not fail us. Let us show that we are not going to fail him.
BUY VICTORY BONDS. Provide the needed funds. Every bond you buy will be the basis for a brighter future, a more enduring peace for him — for all of us.

Don't put your Coat on yet...
THE JOB'S NOT FINISHED
Fighting has ended... but having laid down the tools of war we can't fold our arms and consider the job done.
A lot of things have to be attended to. There's still a lot of things we're having many Victory Loans.
And it's just as necessary that we buy 9th Victory Bonds as the bonds we bought while the war was on.
A lot of war expenses remain to be paid. Other expenses connected with our war effort are still going on. SO—CANADA NEEDS MONEY TO MEET THESE BILLS.

FARM MACHINERY OFF RATION LIST
All rationing controls have been removed from sales of farm machinery, and restrictions on the production or importation of such machinery have been lifted.
Price controls remain. Generally, maximum price for farm implements is the price at which such items sold during the basic period, August 15—September 11, 1941. Quoted prices do not include cost of delivery to the purchaser.
Under Consumers' Credit Order No. 225, section 10, terms of sale for farm machinery are: 1/3 of quoted price paid in cash, the balance of the price to be paid in installments over the term of the contract in stated amounts at specified dates. Any allowance for a trade-in is to be deducted from the unpaid balance.
Despite the lifting of production restrictions, it is expected that the shortage of components such as malleable castings and sheet steel will limit the maximum output of farm implements during the year July 1, 1945, to June 30, 1946, to a 24% increase (on tonnage basis) over the output in the preceding 12 months.

Farmers' Poultry Prices
Farmers selling all types of poultry, except turkeys, direct to consumers are permitted a 25% markup over the wholesale ceiling prices established for the zone in which they are located. Turkey producers are allowed a 20% markup over the wholesale level.

FARMERS' RATION COUPONS
Coupons covering farmer sales or farm household consumption of meat and butter, and sales of preserves must be forwarded to Local Ration Boards in primary producers' envelopes (RB-61). Reports for November should reach the Local Ration Boards not later than December 10.
Following are the valid coupon dates for November:
MEAT BUTTER SUGAR PRESERVES
November 1..... M 9 128
" 8..... M 10
" 15..... M 11 129 66, 67 P 20, 21
" 22..... M 12 130
" 29..... M 13 131

FARM SLAUGHTERERS
Farmers who slaughter for their own household consumption or for the consumption of their farmer neighbours, are not required to hold a slaughter permit. Any excess of farm slaughtered meat over the farmer's or his neighbour's needs may be sold only to the holder of a regular slaughter permit in quantities not less than a quarter of beef or a side of pork. Sheep, lamb or calves slaughtered by the farmer for his own or his neighbours' use may not be sold into the meat trade.
Licensed slaughterer's quotas for cattle have been temporarily suspended and until further notice a licensed slaughterer may slaughter all the cattle needed for his requirements.

Rationing is your assurance of a fair share.
That is why farmers are asked to continue to collect and turn in coupons to their Local Ration Boards—once a month—in the RB-61 envelope.
For further information apply to the nearest Office of the Wartime Prices and Trade Board.
