

When strike of street car and bus operators in Washington lef when strike of street car and bus operators in Washington left 500,000 persons without public transportation, A. L. Wade showed unusual enterprise by riding his horse to work. Unheralded transportation walkout started when members of Local 689 of Amalgamated Association of Street, Electric Railway and Motor Coach Employees (AFL) voted to stay in continuous meeting until Capital Transit Co. acted on their demand for a 30-cent increase in hourly nav.

### ARMY HAS SELF-LIGHTING CAMERA

Many a wounded or ill soldier owes his recovery to the newlyreverled Army "secret weapon" pictured above. It is a revolutionary surgical camera, with a built-in light source-a quartz vapor tube flash unit that produces up to 50,000 flashes more brilliant than sunlight at 1/25,00th of a second duration. Developed by the Signal Corps, the camera uses 35-mm. film, weighs  $5\frac{1}{2}$ pounds and is operated from a 27-pound portable pack that may be plugged into any ordinary current line.

### PALESTINE-MID-EAST'S PRIME PROBLEM

High on the list of tough problems to be tackled by President Truman and Britain's Prime Minister Clement Attlee in Washington is the Palestine question. Map shows geographic distribution of Jews in Palestine. Inset chart shows relative numbers of Jews and Arabs.

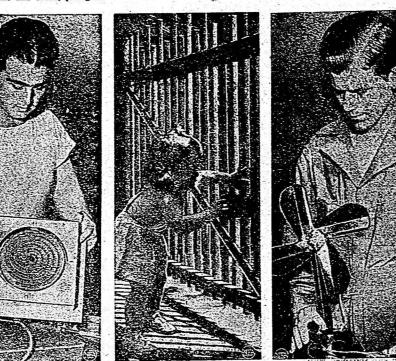

### Here's the New 'Reconverted' B-29!

Obsolete materials and parts, once used in making B-29 Superfortresses at the Bell Aircraft Corporation's Marietta, Ga, plant, had been sold to salvage firms in carload lots. But, believing that Bell employees could make good use of the discarded materials, the firm recently opened a retail Salvage Sales Store. Now workers flock in to buy the "junk." Photos below show some of the many practical uses to which they put it. Their ingenity and skill produced scores of scarce bousehold items. The Occupational Therapy section of Atlanta's Lawson General Hospital uses a good deal of B-29 salvage. Convalescing veterans find relaxation and learn new skills in designing and making useful objects which they can send home.

A transparent "blister" canopy from a B-29 makes a fine bathtub for little Jean Clair Bretherick, pictured with her mother, Mrs. Homer I. Bretherick, in their Atlanta, Ga., home. Inset shows a weather-proof davenport built from salvaged B-29 parts, by William Davis, Bell Aircraft worker. It has duraltimin frame and broad. plexiclase arms

# DARK LIGHTNING By HELEN TOPPING MILLER

CHAPTER VII At least, Gary told himself in the At least, Gary told himself in the morning, he had this day. The sun was golden; the prairie blazed with bloom. Adelaide sang softly as she drove, and scolded every vagrant dog and jalopy driver that slowed down her skimming speed. Gary sat back and held his hap-

piness close, keeping silence lest it burst before his eyes like the rainbow bubble that it was. No mat-ter what came—he had this day. They had lunch at a little road-

side place before they reached the city. Gary had some money. He insisted on paying for the lunch.
"You hunt the map, Gary. I'm going to buy some hats," Adelaide announced, when they had left the

"Remember, you haven't struck oil yet," warned Gary.
"Oh, but we will." She was cool-by confident. "I'll wait in the car it I finish first." Adelaide hurried away. She felt

exhilarated and made over new.

Adelaide was feeling sober when
she went back to the car and found Gary sitting there, studying the map that was spread across his knees.

"Put that away," she said abrup-tly. "Somehow I don't enthuse about oil, this minute." "What happened? Did you an extortion note?" "Gary, there will be things like that-if we strike oil, won

rich. Are all these things yours?' he asked as a boy, stumbled up with an armful of bundles. "Have him put them in the rum-ble. I didn't buy so very much. Just a few things I needed—three hats and a couple of dresses.

She saw Gary's face close up in a queer, withdrawn way. Men, she thought wearily, were so touchy hats was no reason why Gary fifty miles. She grew a little snap-

ing, are you? I could have brough a wooden Indian along—after all, it's spring and all the little flowers

are blooming."

"I know it's spring," said Gary, not looking at her. "And in Mexico it's summer."

"I think," she said, grimly, "that you are being very obstinate to keep talking about Mexico, Gary Tallman. You know what a big innocent Dad is. If he sets his head about this oil business he's going to meed, somebody." going to need-somebody."

"He can hire oil men. bushes are full of them."
"Do you have to be nasty?" demanded Adelaide, red spots riding up into her cheeks. "You could have talked all day and not said a

have talked all day and not said a thing like that."
"I'm sorry. I'm not being nasty. I'm simply facing things—as they are, Adelaide. If I have any influence with your father at all, I'll use it to try to persuade him not to wildcat a well down, if it turns out that there is oil under his land. He can lease and keep his royalties—and let somebody else take all the grief."

"He won't do it. He'll be excited and want to go after the oil himself—and then just anything can happen. Don't you like us, Gary? Don't you want to stay?"

"Great Scott, Adelaide—don't you know I like you— too much? And do you know how much money I've got at this moment?"

"I can't see what difference that makes."

"It makes a difference to me. I have exactly forty-one dollars. If I paid even a tenth of what I owe your family now—"

"Oh, my heavens, are you still

thinking about that?" Adelaide demanded.

"Certainly, I'm thinking about it. I'd be a heel if I didn't think about It. And as for thinking about-any-"What for instance?"
"What for instance?"
"A lot of things." He looked straight ahead, with his face set and a little pale. "Things I can't

talk about-and can't even dream The geophysic crew arrived on Friday, and Mona Lee thought-them a particularly grim and un-

friendly lot. They said nothing except polite evasions; they treated Gary Tallman with condescenion and Harvey they ignored till he took to stamping around the bed-room at night and barking. "I can't get a thing out of 'em.
I don't count. They go out there and monkey around and get into their car and drive off, and never even look back. I'm just the guy who owns the land. I'm the fel-low who pays their bills. I've got a notion to hire some riggers and notion to hire some riggers and put me a well down anyway. Those guys can't see through the ground. They've got to guess—same as I have."

CHINESE RARITY

Eggs, which have been scarce in most war areas, come into their own in outdoor market of Tsingtao, a port of North China. The Chinese have been without this type of food for so long, it is considered a delicacy.

Acts 15: 22-29.—Here we have the first mention of writing in the

history of the Church. The letter contains (1) kindly greetings to

Gentile brethern; (2) a strong repu-diation of the Pharisaical Jews who

liberties there, and the statement

that a deputation who really repre-

sent the views of the Jerusalem Church are sent; (3) a full recogni-tion of the authority of Barnabas

and Paul by the apostles of the circumcision; (4) a declaration that

circumcision is not necessary to sal-vation; and (5) prohibitions which

enjoin abstinence from certain practices in which heathens indulg-

ed. These prohibitions were con-cessions demanded from the Gen-

tile Christians for the purpose of preserving peace, unity, and so-cial intercourse between Jews and Gentiles, and also of protecting

converts from the results of hea-

by Levitical law, therefore in churches composed of both Jews and Gentiles social and brotherly

intercourse would be impossible, unless the latter abstained from it

How Can I?

By Anne Ashley

Q. How can I remove perspir-

ation stains from garments?

A. By mixing one part of oxalic

acid to twenty parts of water and

applying with a small brush.

Q. How can I clean light furs?

A. Rub thoroughly into the furs a mixture of 1 pint of flour, 1 tablespoonful of fullers' earth, and

I pint of bran. Shake well and rub again with the bran alone.

Then shake and brush with a soft

Q. How can I prevent ices and jellies from sticking to the mold?

A. Wrap a hot cloth around the

jelly mold to make the ices and

jellies come out without sticking.

Q. How can I easily clean white

A Water in which onions have

been boiled is said to make an

excellent cleaner for white paint.

Q. How can I loosen the dirt in clothes, and also make them

A. Pour a few drops of turpen-tine into the wash boiler and it will

help loosen the dirt. A spoonfui of borax in hot water and then

added to the last rinse water tends to whiten clothes. Also remember that clothes dried slowly will be

whiter than those dried quickly.

of GINGER FARM been reduced to three again. With Partner able to get around once more to help with the chores and milking it was hardly necessary to

CHRONICLES

have three men at home to run a hundred acres. There is still a

nundred acres. There is still a dearth of farm help so it was cer-tainly no trouble for young John to get another job — and right in our own neighborhood too, which suited him fine. Son Bob has also

been working - that is from nine until five each day - tractorploughing for one of our neigh-bours. And Partner and I have been right into the chicken busi-

ness, killing and dressing a few each day so as not to make it too

tiring for Partner. Even at that it was tiring enough. Personally, I don't mind being tired just so long

as we get those noisy strutting roosters off the farm. "The fe-male of the species" may be "more deadly than the male" but at least

she is not so insufferably preten-tious and vain. To hear the cock-

sure crowing that emagates from our rooster pen you would think

the crazy things were telling the world they were our main source of income. They help, of course,

but I'm telling you we earn every cent we get for our dressed chick-

And that, by the way, is the only time I like roosters — when their feathers are off and in place of

birds we have dollar bills. And I am also pleased when they tip the

scales at anywhere from six to eight pounds with firm, white flesh one knows will make good

eating. You know, it is possible to get a lot of satisfaction from the

mowledge that one has turned out

Rather a funny thing happened on one of our chicken picking days. We had just finished weighing and

pricing five birds for a private sale when in came a truck with our

order of potatoes. There were five bags of the murphies and the price for the five bags was a little less than our price for our five chickens. I said to Partner — "Now, which

line of produce do you suppose brings in the best returns?"

Well, sir, we thought and we talked, but we haven't got the an-

swer yet. Partner thinks there are

too many angles to consider for a definite conclusion to be possible. There are so many "ifs". If it is a

poor season then potato crops are light; if disease attacks young chickens then losses are heavy. If

But I do know one thing - at

least potatoes can't crow, and they don't scratch in the flower beds or

sneak around to roost on the fron

loorstep to the embarrassment

But then potatoes have bugs -

and they have to be hoed and hilled

the potatoes I mean, not the bugs. They must be "dropped" in the spring, "picked" in the fall, sprayed or dusted, sorted and bagged and looked over carefully

for signs of dry rot, ring rot, wet

rot and scab.
Figures can't supply the answer

to my question. Figures can only go so far. You can't estimate in dollars and cents the value of carry-ing water to your chickens, or the difference in hoeing potatoes in

wet or dry seasons. So there you are, friends, and if you would like to

start an argument in your family circle, or among your neighbours, try that one. And I would just love

"W. G." - thank you very much for your kind letter - it was

encouraging comments were cer-

me much pleasure to answer your

letter personally in the very near future. I shall also be happy to

send you the information you re

o know the result.

.. if ... so many ifs!

the owner.

good product.

Here is a thought that is worth considering. I was listening to an address by Mr. Walter S. Woods given to the Canadian Club, Toronto. His subject was "Rehabilitation". He spoke of the idea that seems to be pretty general these days of the need for readjustment to living by returned men. "But" he said, "it may be that readjustments are necessary on our side." he said, "it may be that readjust-ments are necessary on our side."
There is something in that, isn't there? There is surely room for readjustment when our sons who went away as boys come back to us grown men, with a knowledge and experience of life — and death — far beyond their years and of a nature that we in our time, will nature that we, in our time, will
