

Simplified Spelling

Too many wurds in the Inglish angwige are spelled diffruntly from the way they are pronowns-ed. There hav bin sum faintharted attemps to improov the situayshun but thay don't get very far. It isn't only the spelling, it's also the way wurds are uzed. If you say freez and froz, why shuldn't you say skweez and skwoz? And if it's mowse and mise why not say hows and hise A wurd such as "cough" reely ort to be spelled koff, and if ther's enything to the ideer that usage gives athoraty, then "government" munt. Speeking in genral turms, tem that mache; the ufontistic-elements of our muther tung.-Wall Street Journal.

THE -SPORTING THING

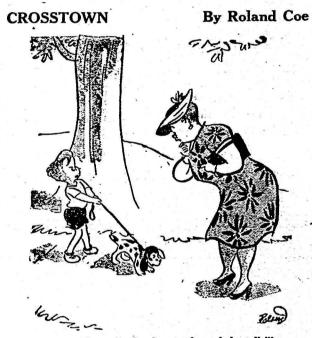

just have to get used to

SIDE GLANCES

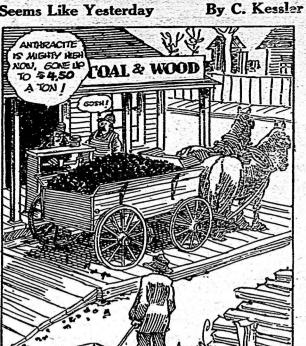

"Something's about to happen, I'm sure—that last maid I had has phoned from her war plant job twice recently just to inquire about my health?"

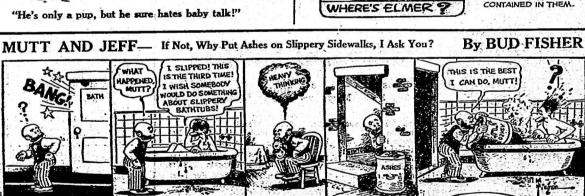

"He's only a pup, but he sure hates baby talk!"

WHAT SCIENCE

is deing

Arms Into Fingers

A rare surgical operation which

converts the stump of a forearm into two large fingers is being used at Mare Island Naval Hospi-tal, Cal. to rehabilitate men who

The surgeon splits the arm lengthwise nearly to the elbow by

evering the . h between the two long bones. Some of the long rouscle tissue is removed and the lesser muscles are rearranged, to

give space between the separated

members and to permit the skir to cover the surgical wounds.

The patient then has two out-

sipe fingers which, unlike those of an artificial hand, retain the sense

of touch and move under the stim-ulus of nerve impulses. In artifi-cial hands the fingers are moved

by mechanical de .ces. Capt. Henry H. Kessler, Navy

surgeon, of Newark, N.J., who has performed three such opera-tions in the Pacific area, permitted

reporters to see his newest patient, Marine Sgt. Robert Moore, 28, of Richmond, Calif., who underwent the operation a month ago.

Sergeant Moore demonstrated that he could use the fingers like forceps, grasping and releasing bits of cloth, and that he could feel with them. The rearrange-

ment of the muscles plus the nat-

ural twisting power of the forearm causes the opening and clos-
