#### HONOUR FOR BRITISH WAR LEADERS

The Viceroy of India, Field Marshal Lord Wavell, and the C-in-C India, General Claude Auckinleck, have received the highest American honour that can be awarded to non-Americans—the Legion of Merit, Degree of Chief Commander. The honour was conferred by the President of the United States and was presented in Delhi on his behalf by U.S. Lieutenant-General R. A. Wheeler. Picture shows the Viceroy of India, Field Marshal Lord Wavel, receiving the decoration from Lieut-General Wheeler.

#### Canada's War Gratuities Top List

When it comes to paying gratuities to war veterans, Canada is right up at the top of the list. Here is the scale of grants for a private with three years in the forces, two of which have been served overseas:

Population of U.S.

Over 140,000,000

The Census Bureau has an-

nounced that the population of the United States passed the 140,000,-000 mark about Oct. 1.

J. C. Capp, Bureau Director, said that on this basis, the population

increased by about 8,330,725 in the 5½ years following the 1940 cen-

sus. This compares with an in-crease of 8,894,229 during the 10

years between 1930 and 1940.

Britain Rebuilding

A merchant navy of fast, up-to-date ships is shaping up in Brit-ain's many shipyards and by early

next year many new cargo liners

will be ready to carry goods abroad in the greatest export drive of

this country's history.

At Sept. 30 Llyod's register re-

ported 387 ships of 1,496,243 tons were under construction in the

United Kingdom. Almost 100 of the craft are coastal vessels under 500 tons but 87 are of more than

The High Barbaree by Charles Nordhoff and James Norman Hall

A Catalina Flying Boat lies ditched in the Pacific after its death struggle with a Jap sub-marine. Its radio has been destroyed, its water tanks punctured and three of its crew killed. But the Cat still floats, and in it the two survivors, Alec Brooke, the navigator, Gene Mauriac of Cali-fornia, sweat out the hours as they wait for rescue.

Days of overcast-on which they see a plane that does not spot them-are succeeded by an endless stretch of brassy heat. They know they have drifted far out of range of Henderson Field, and as the hours pile up and the water runs low, Alec begins to reminisce about his home town in lowa, about his sea-faring uncle, and about his boyhood dream of a tiny Pacific Island, an island marked "Existence Doubtful" on the old maps, an island toward drifting .

### Proposed Loan To Great Britain

"Deal" of Vital Importance to all United Nations

The loan of \$4,400,000,000 arranged last week by British representatives with the United States government has two features-ar dvance of \$3,750,000,000 to Britain, to be used to re-est domestic economy, and \$650,000, 000 by way of a Lend-Lease bal once. The essential aspect of the can do the two Countries (and the in setting up th new trade agreements which will permit a free flow of world-trade

made by Great Britain will work to the advantage of the United States, by opening up new markets to American industry and agriculture. It is not inconceivable that these renewed markets will add more billions to the national income of the United States in one year than the amount of the loan.

In fighting the war, says the New York Sun, Great Britain en-tirely exhausted its working capi-tal. The British still are in a strong position as business men all over the world. They have the shops and an established reputation for sound business dealings, but they stock their shops.

It is now proposed that we help them by supplying working capital. If we do so we can hope that the channels of world trade once mere will be open to ourselves as well as to Great Britain and other nations.

If world trade cannot be established in an orderly manner, the alternative for Great Britain will be inability to buy goods from us which would mean that she would have to confine her trade to the

EARLY CHICKS BRING THE greatest returns. Canada needs early chicks next year and always. She needs them not only to supply her own requirements but to sustain her export market at the time it needs eggs most. Any product is better appreciated at home or abroad when it is supplied at the time it is most needed. Early chicks have two advantages. Ist. — they lay early when prices are the highest; 2nd. — they lay longest spreading the returns over the whole year. Fally chicks last spring resulted ashortage of eggs this Fall. Any surplus that may occur in the Fall of 1946 is protected by the export contract with Great Britain which insures a price of 45c. for a Large Seaboard.
