TIRE RATIONING LIFTED JAN. 1

A STATEMENT BY THE HON. C. D. HOWE...

In his official statement, Mr. Howe stresses that lifting of tire rationing does not mean that present stocks are such that all demands can be met immediately. "Production is picking up steadily, and if the tire-buying public will continue to co-operate during the first stages, by ordering tires only when really needed, I am confident that normal conditions will be rapidly restored," the minister said.

Remember . . . when you buy tires you are making a long-time investment in mileage, safety and dependability . . . make sure of the best . . .
