

CANADA'S NEW GOVERNOR-GENERAL

Above is a new portrait of Field Marshal Viscount Alexander of Tunis, Canada's new Governor-General. With Viscountess Alexander he will arrive at Halifax on April 10. A special train will bring the new Governor direct to Ottawa where he will be sworn in on April 12.

SPOTS OF SPORTS

By FRANK MANN HARRIS
("A Six Bit Critic")

All this news about ball-players hopping down Mexico-way, lured—as somebody has probably already put it—by the charms of Senor Dolores rather than those of Senora Dolores, puts us in mind of the old one about the baseball magnate who had a well-earned reputation of being a very sluggish man with a buck. He could produce winning teams, and do so on about half what it cost his rivals. And his favorite method was to grab promising recruits and, by filling them full of visions of honor and glory, sign them up for only a fraction of what they were really worth.

But one day he ran up against a young rookie who appeared to have everything. He was fast; his fielding was sensational; and he could wham the everlasting daylights out of the ball. And he was also a very tough young egg.

Mr. Magnate went to work on the kid, and talked himself hoarse about what a wonderful thing it was even to be asked to join the Team of Teams—how it would make him famous throughout the baseball world—in fact what a highly fortunate lad he was to have even the chance of signing up. The kid listened in silence. Then he stretched himself, spat, and spoke. "Mister," he said, "all dis bulloney you been spillin' simply adds up to dis—which would I sooner have, 'tree cheers or 'tree bucks?"

Perhaps the question most often asked of a sports writer—except, of course, "Can you get me a couple of passes?"—is "What's the greatest of all sports?" And it's mighty hard to answer because, each in its own particular place, season and hour, any one of several seems to top them all and yet, just a few weeks later, can have about as much thrill as the average Parliamentary oration.

Take hockey, for instance. From November to March nothing on earth appears to come close to it for excitement; and the thought of having to miss a single game between your own favorite team and its deadliest rival can loom as a painful calamity. Yet, if in-

vented to watch exactly the same two outfits battle in July—something quite possible with modern ice-making equipment—which of us would walk halfway around the block to attend?

Similarly, football. We personally have watched that sport—even paid good money to do so—from unprotected bleachers in zero temperatures, in Arctic-like blizzards, to mention just a few. And thoroughly enjoyed doing so, at that. Yet even top-notch football, played under much pleasanter April or May conditions, would exert little drawing-power on us, or on any football fan we know.

Horse-racing has long been ballyed as "The King of Sports" and we've most likely wasted more of our personal time, and had more fun, attending the races than anything you could mention. And there are countless thousands more who would say the same. Yet, if we'd all break down and be strictly honest about it, just how much appeal has horse-racing to us, just as a sport and nothing else? Much as we hate to admit it, the answer is—surprisingly little. And if you doubt it, just figure this one out. If the next Woodbine and Thorncliffe meetings were to be absolutely and strictly betless—if we had to go just to see the horses run, just to see The Sport of Kings in its purity and simplicity, how many of us would attend, and how often?

The mongoose, killer of slow-moving cobras in India, cannot cope with the faster poisonous snakes in the new world.

IT'S REMARKABLE how fully the flavor of Maxwell House Coffee is developed by the special Maxwell House "Radiant-Roast". It captures all the goodness of every bean in the blend.

YOU know it if you have PILES!

you'll know it QUICKLY when pile miseries are RELIEVED
If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any rectal itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.
For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it secures the highest relief for any one to risk a painful and chronic pile condition when so fine a remedy may be had at such a small cost! Money back if you are not entirely pleased.
NOTE - The sponsor of this notice is an old, reliable firm doing business in Canada for over 20 years. Hem-Roid must help you anyway and painful pile condition - must do it quickly, easily and pleasantly - or your own test of this remarkably successful formula costs you nothing. Try it today.

Shortage of Farm Implements Serious

Surprisingly little space has been given in most newspapers to the farm implement shortage due to strikes, presumably because most editors believe their readers prefer news of radios, myths and washing machines rather than of plows, says "Tide." But the situation appears extremely serious. Unless the farmers' difficulties are relieved, and soon, one of the largest industries, farm production, will suffer. The effects will be far-reaching. Canning, cereal packaging, all food processing, dairying and all live stock raising will seriously feel the pinch.

The Bahamas consist of about 20 inhabited islands and more than 3,000 islets, keys or rocks.

YOU MEAN THESE FENCE POSTS WERE CUT ON YOUR OWN FARM, BILL?
MAKE 'EM LAST LONGER!
SURE, EVEN POPLAR. TREATED WITH OSMOSE WILL LAST 10 YEARS OR MORE!
Yes... any post, even Pine, Spruce, Poplar and Willow off your own property can be preserved with "Osmose Special Fence Post Mixture." Treat the ground line only and make the whole post last 3 to 5 times longer for 3¢ to 4¢ per post. The savings in time and material are tremendous. "Osmose" is time tested and used extensively, under all soil conditions, by large power and telegraph companies. It really works to stop rot, even on green posts. Your dealer can supply you.
