## Hope of Millions

MILLIONS of starving people in war-ravaged countries are looking with desperate hopefulness towards Canadian farmers, during this period of world-wide emergency. The need is so great that the utmost yield from every foot of cultivated soil is a matter of vital importance.

Now is the time to supplement your own practical experience with that of your experimental farm or agricultural college. This service is yours for the asking, and can be of great help in getting more from your land.

Another service, that of money, is offered by The Bank of Toronto. Our friendly branch managers are ready and willing to make loans to responsible

### THE BANK TORONTO

Markdale Branch A. E. Munt, Manager

There are now 120,000 more telephones and as a result Long Distance calling has steadily increased even though the war is over. Actually the volume of calling is now about 100% higher than when the war began.

That's why it is so helpful when you observe the proper sequence, as shown below, in making Long Distance calls. We are building new lines and new switchboards but it we are building new lines and new switchboards but it will take some time to get them into use. In the meantime we'll appreciate your help and understanding, especially if your call is delayed.

FIRST, give the operator the name of the distant number of your party... THEN, when the oper-

MR.BROWN?

A SICKLE might do well enough on a very small experimental plot, but for real farming efficiency you want something more adequate to do the job. And that way, and avoid costly and irritating delays.

you will soon want to add some of the labor-saving, money-saving electric devices for barn, tool house, home, dairy, and almost everywhere else. You will want these things not just because they make living more attractive, but because they really make money for you. Of course you will have to have enough

time you wire.

Ask any experienced electrical contractor or your Hydro rural superintendent for advice as to the best way to wire your farm.

FOLDER "HYDRO GOES TO WORK ON THE FARM"

That's one of the many good things Bray Chicks are noted for.

MARCHES

TAKE a quick look at your calendar! If you're going to gather eggs this fall, you should be starting your chicks!

Early chicks can take their time about

growing and maturing. But June chicks

haven't much leeway. If you're going to get them into production by top-price
