"Now I want everyone to write see a short description of the fundest thing they ever saw," the eather said to the class. After five minutes she saw that one of her pupils had put down his pencil and had apparently completed his composition. "Surely you haven't finished already?" she asked.
"Oh, yes, I have miss," was the answer. "The funniest thing I ere saw was too funny for words."

"You have such strange names for your towns," an Englishman remarked to an American soldier. "Weehaw-ken, Hoboken, Pough-keepsie, and others."

"I suppose they do sound queer to English ears," said the American, thoughtfully. "Do you live in London all the time?"

"Oh, no!" said the unsuspicious Briton. "I soend part of my time. Briton. "I spend part of my time at Chipping Norton, and then I've a place at Pokestogg-on-the-Hike."

Put On the Pressure

Dr. J. M. Buckley, a Methodist divine, was once asked to conduct an experience meeting at a church in the South.

A woman arose and bore witness to the preciousness of her religion as a light-bringer and a comfort-

giver.

"That's good; sister," commented Dr. Buckley, "But how about
the practical side. Does your religion make you strive to prepare your husband a good dinner? Does it make you look after him in ev-

Ty way?"

Just then Dr. Buckley sensed the preacher yanking his coattails and whispering ardently: "Press dem questions; press dem questions."

LIFE'S LIKE THAT

WILL-YUM

Thrifty A young Scotsman went to the telegraph office one morning and wired a proposal of marriage to his sweetheart. After spending the entire day and part of the night waiting, he was finally rewarded by an affirmative reply.

"If I were you," suggested the operator, "I'd think twice before I'd marry a girl who kept me waiting all day for my answer."

ing all day for my answer."
"Na, Na," replied the young Scot. "The lass who waits for the

night rate is the lass for me." The "Gentle" Sex Noticing that fully-fashioned

stockings were on sale in a large city store, a digninfied, middle-ag-ed man decided to get his wife a ed man decided to get his wife a pair, but he soon found himself buffeted about by frantic women. He stood it as long as he could, then, with head lowered and arms outstretched, he barged through the crowd.

"You there," yelled a shrill voice, "can't you act like a gentleman?"

"I've been acting like a gentleman for an hour," replied the man, still charging forward, "but from

still charging forward, "but from now on I'm going to act like a

Try Again Two Irishmen were trying to remove a piece of rock lying in the roadway when an old lady passing stopped and watched them. Then she said: "Men, why not try blast-

ing it?"
One of the men looked up and said: "Lady, we have tried every swear word we know, and yet we cannot move it." Of Course It's Nonsense

Son: "Pa, what is the difference between a cat and a comma?" Pa: "I don't know; what is it?" Son: "A cat has claws at the end of its paws, and a comma is a pause at the end of a clause."

Worth It Naturally, the sweet girl's father was annoyed. It was after mid-night and she'd just come home. "You're late again!" he stormed. "This won't do You must tell that

boy friend of yours that late hours are bad for one."
"Yes, dad—I know," she replied.
Ther she added, with a sigh "But

LOWLY SUGAR BEETS BECOME BIG BUSINESS

Farmers will fear frost no longer, Michigan State College Agricultural engineers believe, if this odd contraption they created gets to be stindard farm equipment. An oil flame generates infra-red heat and the discs radiate enough to bring temperatures up eight degrees over an acre or more. Costs 75 cents an hour to run. This experiment model is billed at \$250, but it is believed that a similar machine large enough to protect an acre can be made for half that or less.

5,000,000 Japanese Have Beer Moved Home from Countries Overrim By Japan The controversies over "dis-placed persons" in Europe have fended to obscure an even vaster movement of people which has been going on in the Far East. This been going on in the Far East. This is the evacuation of Japanese soldiers and civilians from the territories which Japan overran in her effort to conquer the Orient.

When the war ended, nearly 7,000,000 Japanese were scattered through China, Manchuria, Korea, Formosa, Indo-China, East Indies, and various islands of the Pacific. and various islands of the Pacific. About half of them were soldiers, the rest civilians — colonists, merchants, technicians, and officials, sent out to govern and develop the "Greater East Asia Co-prosperity Sphere". The sur-render terms called for them to be removed from all these territories and shipped back to Japan. The same This has proved a colossal tas:,

SPOTS OF SPORTS By FRANK MANN HARRIS

to prevent its so doing, a hectic scene, of indescribable confusion and excitement ensuing.

It is not very often that we hand out advice but, after a look at a few National Hockey League games, here is a bit right from the heart addressed to young hockey players just starting on their professional careers. Make the toughest bargain you can, lads, and hold out for every possible dollar; because, the way they play it nowadays, you're not going to last very long, so you might as well get it while the getting is good. heart addressed to young hockey players just starting on their professional careers. Make the toughest bargain you can, lads, and hold out for every possible dollar, because, the way they, play it nowadays, you're not going to last very long, so you might as well get it while the getting is good.

The situation is somewhat akin to what exists in one branch of the field of transportation. It used to be that owners of trucks would nurse and coddle them along, trying to make them last as long as possible. But now fleet-owners figure that a truck is good for just so many hundred thousand milesand that the quicker they get that mileage out of it, and replace it with a new one, the better business it is.

Probably it is grossly unfair to So it seems to be in modern Probably it is grossly unfair to draw such a crude parallel with the great and educational institution of hockey. Still, in hockey as well as several other sports, one cannot help noticing a steadily-increasing injection of the atmosphere of the circus. Showmanship, we believe they call it. Well, even at circuses, while we can thrill at the Slide for Life, the Loop the Loop, and other hair-raisers, we also en-So it seems to be in modern hockey, "Step on the gas and skate till your tongue is hanging out" appears to be the only order present day coaches use, with the result that most of the time a game has the appearance of an unending series of mad dashes up and down the ice-surface, with the puck performing much the same function as does the little mechanical rabbit that while around the track in and other hair-raisers, we also enjoy a certain amount of tight-rope
walking, trapeze,work, acrobatics
and the like. In other words, while
sheer speed has its place, a certain amount of skill, is enjoyable
as well.

This dizzy, unending, wide-openthrottle pace is beginning to take its foll, make no mistake about it. We need mention no names but there are several players, who just last. Spring, were outstanding stars—lads who looked to have years of top-rank hockey still left in them—and who now, not much more than six months later, appear only ordinary. They simply cannot keep up; in the race from dasher to dasher they're half a step behind, instead of half a step in front; and instead of half a step in front; and the guys that owe me write checks as easily as the guys I owe write bills, they'd really have something the crowds, a large percentage of whom seem to confuse hockey with speed-skating, holler "Take those

speed is an improvement, and destined to continue as the main feature of the sport. But somehow, as we look at, we cannot help recalling what hanced to ing what happened to six-day bike ding. In the great days of that pastime jams, as they were called, occurred when one team tried to

ls Liquidated

yet it has been carried out with remarkable efficiency, notes the Edmonton Journal. The large

share of the work was done by the United States Navy, but Britain,

Australia and China have also con-tributed. Even Japan itself helped

out, providing the crews for many of the ships the Americans made

available.

By the end of last month, 5,000,-

000 had been moved back home, and General MacArthur indicated

that shipping was available to evacuate the rest by the end of

signed an agreement with the British Board of Trade under British Board of Trade under which Britain will take the entire exportable surplus of all grades of Canadian flar fibre and most of the exportable surplus of flax tow during the year ending Sept. 13, 1947, it was learned.

Government sources noted that the new agreement provides for lower prices than those paid during the war years but stressed that the war-time rates resulted from abnormal conditions and that the other Dominions which laws smolled Britain with the products

back, their, prisoners, as, soon as possible, but the attitude of the Russians is ambiguous. They have delayed in repatriating their cap-tives—most of them soldiers in Japan's Manchuria and Korea — and reports are current that they have been using them to relieve the labor shortage in Siberia. The most astonishing feature of the whole repatriation is the smoothness with which it has proceeded, comments the Edmonton paper. Despite the fact that millions of Japanese soldiers were involved-many of them still armed, and most of them still organized in military units—no resistance to the program has been reported.

Despite the misery inevitable in such a mass migration, the evacua out with far more humanity and decency than has been displayed in the European deportations.

Seldom has so great an "empire" been liquidated so quietly.
