

The Quality Tea

"SALINA"

ORANGE PEKOE

TREASURE OF THE SEA

By George E. Walsh

CHAPTER XVII Captain Bedford rose from his seat and looked at the girl who sat next to him. "What is it, Rose?"

"I'm a little sick, Father, and—"
"But I ain't any more!" he blurted out vigorously. "If I had that moustache crew or that Captain Tom Bam, I'd be a millionaire!"

Rose suddenly came out of the cabin, and approached him in great alarm. Her eyes were glistening, and her whole face seemed aflame with some powerful emotion that transformed her into a radiant creature.

"Dick," she called eagerly before reaching his side. "Dick, it's happened—the miracle! I can hardly believe it, but—"
She stopped, trembling all over, her hands clasped in the attitude of prayer. It was by her side instantly, more startled by her happiness than by any fear that he had seen there before.

"What is it, Rose?" she asked anxiously, catching one of her fluttering hands in both of his.
"It's Father," she breathed softly. "He—he is—dead!"

The question came out before she had time to think—abruptly, and without premeditation.
"Dead?" she repeated, and then laughed softly. "Dead! Not! He's just come to life. He's sane again, Dick. He knows me—remember everything! He's—he's—"

The tears bubbled from her eyes and rolled down her cheeks; but they were the tears of joy and relief and not of fear or desperation. Dick held one hand and supported her trembling form with an arm.

"I'm silly," she laughed hysterically, smiling through the tears. "But I can't help it! And I don't care! I can cry for happiness, can't I?"

He barely resisted the temptation to sweep her into his arms and kiss the position of his lips. "Come," she added a moment later, clutching his arms. "Come and see the miracle."

In the cabin Dick found a much changed man lying on the bed where he had helped put him the night before. The feverish red had died out of the face, and the eyes, inspecting him critically, were the same as any man's. The blow of the Carib's bludgeon had restored to Captain Bedford his reason. Rose had nearly prepared him for seeing Dick by explaining briefly the series of events that had taken place while his mind was under a cloud. He extended a hand suddenly, and said:

"You've saved my little girl's life, I understand. Then—then you can count on me as an everlasting friend."

"I don't know what Rose's been telling you, Captain, but I'll bet the next word you hear she saved my life. Let me tell you."

The girl placed a hand before her lips, but he removed it, and went into details of their adventures that she had either omitted or skirted over. At the end, Captain Bedford sat up.

"I reckon now," he said, "I'm all cured. That little girl o' mine's just like—just like her mother. "There, her mother must have been a wonder," smiled Dick. "She was!" was the solemn remark.

The captain struggled to his feet despite Rose's protestations. "No, I ain't goin' to lie here any more," he added. "I got to get on deck. It's led enough on yer hands, daughter. Now it's my turn. Reckon I'm well enough to take a watch."

Potatoes are Not A Fattening Food

Less Calories in a Medium-sized Potato Than in A Slice of Bread

Many people, especially women, deny themselves the enjoyment of potatoes because of the belief and fear that potatoes are a very fattening food. According to the magazine Good Health, published by the Battle Creek Sanitarium, that is not so. A potato contains from 10 to 20 per cent starch; at least 75 per cent of it is water, and medium-sized potato contains less calories than one slice of bread.

Reckoned per ounce, the number of calories in a boiled potato is 26.8; in one ounce of butter 217.9, in an ounce of bacon 177.1, in peanut butter, 169, peanuts 153.4, sugar 113.4, and in an ounce of shredded wheat 103.8. The chief danger in the potato appears to be in the high gravities people pour over them.

Potatoes help maintain the alkalinity of the blood. The ash in the potato is ten times as much as that of fine flour bread, and is more alkaline than the ash of most of our common foods. Bread, on the other hand, is rich in phosphoric acid and when used too freely tends to lessen the normal alkalinity of the blood and tissue fluids—a condition not conducive to buoyant health. An excellent way to conserve the excellent water in potatoes is to mix potato flour with wheat flour.

The potato is rich in vitamins A and B, besides some other minerals. The hard working peasants of Ireland are the greatest potato eaters in the world, and Ireland has the largest percentage of centenarians.

He clenched them to emphasize his words. Despite his nose, now, and his little unsteady on his feet, and walked like a man under the influence of liquor. He clutched at the rail and stared across the sea.

"Where's that lugger?" he demanded truculently.
"Over there," replied Rose, pointing.
"Until then none of them had glanced in the direction of the puzzling object that had caused them so much debate, but when their eyes focussed on it now they gave a little start. Captain Bedford grunted and recovered his voice first."

"Over there," replied Rose, pointing.
"Until then none of them had glanced in the direction of the puzzling object that had caused them so much debate, but when their eyes focussed on it now they gave a little start. Captain Bedford grunted and recovered his voice first."

"It's all that ship!" he snorted.
"Great Jehosophat, ain't ye got eyes! That's land! An island!"

He glanced with eyes of scorn at the others, but they were so absorbed in their discovery they never heeded it. During their absence below, the freshening wind had driven the derrick so close to the object that naked eyes could make it out plainly.

It was an island rising abruptly from the sea—not one of your coral-fragments, palm-fringed islands of the tropics, but of rock-battered headland that caught the breaking surf and hurled it back shattered into foam. Perhaps a mile or two in width, and fifty feet high, it offered a safe asylum for ship-wrecked sailors in the stormiest weather, could a safe landing be effected.

"We're drifting straight toward the island," Dick remarked. "In a couple of hours we'll reach it. Any danger of being wrecked on those rocks?"

"We could work around to the west side of the island," muttered the skipper, "we'd be safer."
After much awkward and difficult manoeuvring, they brought the ship to safety in a sheltered cove.

Q. How can I prevent the cracking of an egg when boiling?
A. An egg will seldom crack during boiling if the large end is first pricked with a pin.

Q. How can I prevent the shoulders of a sweater from sagging?
A. This can be prevented by taking a piece of ribbon, the length of the sweater, and passing it from neck to armpole, and attaching this ribbon at each end to the inside of the sweater.

Q. How can I remove a paper label and an plaster the same?
A. By pouring a teaspoonful of sweet oil around the roots occasionally.

Q. How can I prevent the leaves of a tree from falling?
A. By putting a teaspoonful of sweet oil around the roots occasionally.

NO HOME TO GO TO

For the past three months, Mrs. Constance Moser and her children, Philip, three, and Grah, five, have been sleeping in their car (above). Mrs. Moser is because they have been unable to find a home. Mrs. Moser is the widow of an ex-Marine private.

Modern Etiquette

By Roberta Lee

1. Should the relatives of a widow or divorced woman use "Mrs." before her name when sending out invitations or announcements for her second wedding?
2. If a hotel employee, or taxi driver, demands a larger tip than the one offered, should one comply?
3. How many courses should the menu for a formal dinner contain?
4. When one has been invited to a wedding, is it obligatory to call on the bride and bridegroom as soon as they return from their honeymoon?
5. Is it necessary for a woman to remove her glove in order to shake hands?

Answers:
1. No. 2. No; the amount of the tip is entirely optional. 3. Five or six courses, with coffee. 4. Yes, soon after the date given on their announcement as the time when they will be "at home." 5. No. 6. The full name should be used.

No Rice Pudding

Due to generally favorable weather and replanting of acreage abandoned during the war, the world rice output this year is greater than last year. However, because crops in former exporting countries are still small, the quantity of rice available for world trade in 1947 is expected to continue at current low levels.

Sunday School Lesson

Christian Love Builds Brotherhood—Philom 4-9.
Golden Text—Now the Lord is the spirit; and where the spirit of the Lord is, there is liberty.—2 Corinthians 3: 17.

Pardon by Paul
Philom was a very prominent man of lofty and exemplary character. Though a slave-owner he was a man of lofty and exemplary Christian character.

Onesimus was a slave of Philom and apparently had fled to Rome. Hearing that Paul was there he went to hear him preach. He was converted by Paul's preaching as his master had been to Rome. Hearing that Paul was there he went to hear him preach.

Q. How can I prevent the cracking of an egg when boiling?
A. An egg will seldom crack during boiling if the large end is first pricked with a pin.

Q. How can I prevent the shoulders of a sweater from sagging?
A. This can be prevented by taking a piece of ribbon, the length of the sweater, and passing it from neck to armpole, and attaching this ribbon at each end to the inside of the sweater.

Q. How can I remove a paper label and an plaster the same?
A. By pouring a teaspoonful of sweet oil around the roots occasionally.

Q. How can I prevent the leaves of a tree from falling?
A. By putting a teaspoonful of sweet oil around the roots occasionally.

Q. How can I prevent the shoulders of a sweater from sagging?
A. This can be prevented by taking a piece of ribbon, the length of the sweater, and passing it from neck to armpole, and attaching this ribbon at each end to the inside of the sweater.

PRODUCTION, NOT PURCHASING POWER, KEY TO PROSPERITY, B OF M PRESIDENT ASSERTS

Deposits At Peak, Near 1 1/2 Billion Dollars—100,000 New Accounts To Total 1 1/2 Million

INCREASE IN LOANS REFLECTS WAR-TO-PEACE TRANSITION

Montreal, Dec. 3.—One of the "immediate and urgent tasks" confronting Canadians is to put a sound foundation of production under the present high level of purchasing power, asserted George W. Spiny, C.M.G., president of the Bank of Montreal, said at the recent 129th annual meeting of the bank.

At the same meeting, the bank's general manager, H. G. Gardner, reviewed the progress of the bank during the year and revealed that deposits at the bank had reached unprecedented levels. Deposits at the bank had increased 1,500,000 during the year to reach 1,500,000 or 40 per cent more than in 1946.

Mr. Spiny expressed guarded confidence in the ability of Canada to meet the conditions of the future, but added that he noted a number of popular beliefs about such conditions which were "an absolute hindrance to a clear-sighted appreciation of the fundamentals of progress and welfare." He gave as one such belief "the still prevalent idea that purchasing power rather than production is the main spring of employment, income and material well-being."

"Money is, after all, a claim on the goods and services of the community," he said. "We cannot, as a people, become wealthier simply by increasing the amount of money in circulation. The only way to increase the amount of goods and services available is to increase production."

Speaking of taxes, Mr. Spiny said "I suggest that the concept of a tax is not a new one. It is a measure in peacetime may be far more important than in wartime." He said that the concept of a tax is not a new one. It is a measure in peacetime may be far more important than in wartime.

Another good thing about separating is that it is just grand to have a little cream for special occasions. Last week when Second Nice was here we had fruit and whipped cream for dessert. And what is ever a treat! Now please, dear friends, don't write and tell me we should be ashamed to be so extravagant that there are people starving in Europe and that the cream we used should properly have gone into butter. The fact is, we don't intend to live on whipped cream.

And of course we are not the only ones to benefit in this change from milk to cream. The pullets are daily increasing their output of eggs as a result, and the cockerels, shut up as they are, are rapidly becoming of having their mash mixed with milk instead of cream.

GET OUT OF THERE!

Angered by hounding newsmen, John L. Lewis jabs his cane through the window of his home and damages the camera of free lance photographer Raymond McFarland (not shown). Action came when the United Mine Workers union head was leaving federal court in Washington during a recess in his contempt of court trial.

CHRONICLES OF GINGER FARM

By Gwendoline P. Clarke

Well, there should be a little more butter on the market now. But definitely! You see, we at Ginger Farm have gone out of the milk business and into the cream. That is something I have been wanting Farmer to do for some time but—well, shipping milk when one is short of help looks the easier, also the financial returns appear to be better.

I say "appear" because that really is a debatable question. In hard cash the weekly cream cheque at present prices cannot compare with the weekly milk cheque at all. But then there are so many angles to consider. Personally I find a little skim milk around the house is quite an asset. So often I have wanted to make things in the past and didn't because they took too much milk. Of course I could have used whole milk but—many of you will know how it is—a milk-shipping farmer's wife doesn't use any more milk than she has to, especially if the cans are down a bit. Most shippers are on a quota basis and those cans must be filled no matter what.

Another good thing about separating is that it is just grand to have a little cream for special occasions. Last week when Second Nice was here we had fruit and whipped cream for dessert. And what is ever a treat! Now please, dear friends, don't write and tell me we should be ashamed to be so extravagant that there are people starving in Europe and that the cream we used should properly have gone into butter. The fact is, we don't intend to live on whipped cream.

TABLE-TALKS

CHRISTMAS DINNER

Appetizer
(Tomato Juice; Grape-Ale or Fruit Cup)
Roast Turkey, Chicken or Goose
Cakes-Cake Dressing
Mashed Potatoes Brown Gravy
Mashed Turnips and Peas
Cranberry Sauce or Currant Jelly
Lettuce with Russian Dressing
Plum Pudding with Fluffy Sauce or Mince Tarts
Coffee

Steamed Carrot Pudding
1/2 cup milk-falvoured fat
1 cup brown sugar
1 egg
1 cup grated potato
1 cup grated carrot
1/2 cup raisins
1/2 cup currants
B cup mixed peel, chopped
1/4 cups all-purpose Or 1/4 cups
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon cloves
1/2 teaspoon nutmeg

Cream fat and sugar thoroughly. Add beaten egg, then potatoes, carrots and fruit. Mix and fill flour, salt and spices and add to first mixture alternately with water in which soda has been dissolved. Blend well. Turn into greased mould, filling them two-thirds full, and steam steadily for 3 hours. 12 servings.

NOTE—If currants are not available, increase the amount of raisins used.
Fluffy Sauce
2 tablespoons sugar
1 tablespoon flour
1/2 cup water
2 tablespoons orange juice
1 teaspoon orange rind
1 egg white
Combine sugar and flour. Add water slowly. Cook over boiling water until smooth and thickened, stirring constantly. Just before serving (while still hot), add orange juice and rind and pour egg white. Blend well and serve immediately. Makes about 1/4 cups sauce.

Grape-Ale Cocktail
1/2 cups grape juice
1/2 cups grape ale
Chill ingredients thoroughly, mix and serve. Ice may be added if desired. Makes 2 cups.
Giblet Stuffing
1/2 cup milk-falvoured fat
2 tablespoons chopped onions
1/4 cup chopped celery
1 cup lightly toasted 1/2-inch bread cubes
1 teaspoon chopped parsley
1/2 teaspoons salt
1/2 teaspoon pepper
1/2 teaspoon poultry seasoning
1/2 cup giblet broth (about)
Simmer giblets for eighty-two years. You can place yourself in our hands with the assurance of receiving the most careful and conscientious attention by means of the most modern methods of mechanical assistance.

Fewer Hogs Produced
Livestock officials are concerned that Canada may not be able to hold the British bacon market the present downward trend in hog production continues.

82 YEARS
We have been making and filling Trusses for eighty-two years. You can place yourself in our hands with the assurance of receiving the most careful and conscientious attention by means of the most modern methods of mechanical assistance.

Highlights of the News

Grain Kings Crowded

Two Canadian "grain kings" and a Canadian "grain queen"—first of her sex ever crowned at the 47-year-old hay and grain show run in conjunction with the International Livestock Exposition were named in week-end judging.

The woman who won top honors was Mrs. Amy Kelsey of Erickson, B.C., whose exhibit of hard red spring wheat—weighing 66.5 pounds a bushel—won for her the anomalous title of "wheat king of North America."

She was not present at the judging and officials said her entry was listed simply as that of "A. Kelsey."

Other top Canadian winners were:
Rye King—W. S. Simpson of Dawson Creek, B.C., whose "Hi-rain Cane"—weighed 56.6 pounds a bushel.
Oats King—Gordon McArthur of Stayner, Ont., whose Beaver variety oats weighed 43.6 pound a bushel.

British Debt Greater
Britain's national debt this year averaged 4,482 (£582) for each British subject, compared with 1,919 (\$586) in 1939, £14 (\$56) in 1913, and £15 (\$59) in 1900, Hugh Dalton, chancellor of the exchequer, said in a written parliamentary reply.

Russia Speeds Demobilization
In need of manpower for her new five-year plan of post-war reconstruction, Russia is pushing demobilization in an emergency since the war's end.
Enlisted and non-commissioned land troops in the older-age group are to be mustered out by the end of 1946 under a decree of the Supreme Soviet (parliament) President, to go to work in industry or farming or back to school.

British Evacuate Navy Base
All British naval personnel have been evacuated from the Royal Navy's base at Alexandria in Egypt with the exception of three or four men, the British Admiralty announced.
The Admiralty statement said the remaining men were staying to man the wireless telegraph station.

Labor Scarce in Britain
Herbert Morrison, Lord President of the Council and government leader in the House of Commons, surveyed British production bottlenecks, naming a manpower shortage as Britain's main problem, but declared "we are not going to have in this country compulsory direction of labor."

Control Over Wages Ends
Wartime controls over wages and salaries are removed, Prime Minister King announced, last week. The mandatory control of wages had been in effect since October, 1941.

Chiang May Retire
Generalissimo Chiang Kai-shek presented his National Assembly a draft constitution for representative self-government and in an emotion-packed speech told his countrymen he considered his political career at an end.
The full impact of his words was not immediately clear, but some observers felt Gen. Chiang, now 60, was ready to retire altogether as president of the National Government, a position which carries with it command of China's ground, sea and air forces.
