LEARNING TO WELD

ONTARIO'S future prosperity depends directly on a sufficient volume of production to satisfy domestic needs and assure for Canada a pre-eminent place in the markets of the world. Take the metal trades for example... never before has the demand, both here and abroad, for the products of Ontario's metal industries been so great. Production must be increased... but to meet new production goals, skilled hands are needed. For them great opportunities lie ahead. Higher wages, job security, better working conditions are within easier reach of those who have mastered a skilled

Today, through the plan sponsored by the Department of Veterans' Affairs and other agencies, hundreds of young workers are being trained to meet the needs of the metal trades. Graduates of these rehabilitation courses are now ready to take their places in Ontario's industry. Available to you are veterans, well started on the road to skilled metal working trades such are vereraus, wen started on the road to skilled metal working trades such as tool making, blacksmithing, machine operation, iron working, pattern making, welding and forging. Seek them out with confidence. They are your future craftsmen.
