ON MONDAY YOU HAVE AN EXTRA JOB TO DO

Monday has long been known as wash day, and no doubt it shall continue to be. But Monday is also the day that The Standard Editor is looking for news. And it's lucky it comes after the week-end for perhaps you've been visiting or entertaining, been operating on leaves, but whatever it was there is no doubt it would interest people of other communities. And that's what your weekly paper would like to do. We know very well that all the interesting things don't happen on Main Street, and because we sometimes give them prominence it because very often we "haven't heard" about that bit of news that happened in "that important part of Ontario that lies outside the town." Doesn't have to be breath-taking to be interesting. But one thing we would like to stress—that NEWS is all appreciated, and it is doubly appreciated if it is phoned in on Monday. Drop in the office Saturday night, or use the phone but help to make your community represented in The Standard columns each week. It takes you and me both to make this paper interesting and your part is of vital importance. Help your local paper by sending in the news from your district. The Standard is always pleased to publish items of local interest. The phone number is 113.

FIVE FOOD FORMS

Each of five main food groups is essential to physical well-being. For real health, authorities say that it is necessary to consume daily from each of five main food groups: a citrus fruit and one other fruit, some potatoes and some other kinds of vegetable, whole grain cereals, as well as a meat or fish dish, and, at least three times a week, some eggs or cheese.

TWO PLATES IN 1948

Next year, for the first time since 1922, Ontario motor vehicles will have license plates front and rear. It was announced recently by the Ontario Highway Department in connection with awarding of the contract for the plates to the Ontario Reformatory, Guelph.

LANDLORDS ARE ALL SOMETHING

(The Pictorial Word) Everybody, or nearly everybody, who advocates the ending of controls says "exotic rents." In control of rents, they probably include eviction control. Eviction control is a device concocted by Ottawa whereby the owner of a piece of property has no rights at all. His property has been confiscated for the benefit of tenants. The landlord may continue to pay taxes and interest on the mortgage, if any. But that's all. The tenant may, and often does, sublet and receive from subtenants more cash per month than he pays the landlord. The clause in the normal lease which says that the tenant may sublet only with the landlord's permission is null and void. In theory, the landlord may evict a tenant who is unsatisfactory. But not in the ordinary court. He must go before a Donald Gordon court and it is rumored that a judge who doesn't side with the tenant often isn't asked to hear later cases. It's the old Irish idea that all landlords are fair game. Actually there are few professional or stage landlords. Most of them are incidentally landlords, or ladies. It's the old family home, or where the landlord, the young sap who thought he was buying a home, lived before he was transferred by his company to Montreal. From 1922 the landlord lost money, license and all motor vehicle permits registered in your name will be suspended if you fail to satisfy a judgment secured against you for damages on account of injury to or death of any person or on account of damage to property. Such judgment must be satisfied at least up to the limits of \$5,000.00 for personal injuries to one person, \$10,000.00 for two or more persons and \$1,000.00 for property damage arising out of any one accident.

Among the local buyers at the Herford Sale in the local arena last month was Edward Quinn of Berkeley who bought a fine bull consigned by Jas. Sibbald of Leitch for the sum of \$185. Above is seen Eugene Poy, also of Berkeley district who was an interested spectator, the new owner, Ed. Quinn (center) and Mr. Sibbald, Herford breeder, on the right.

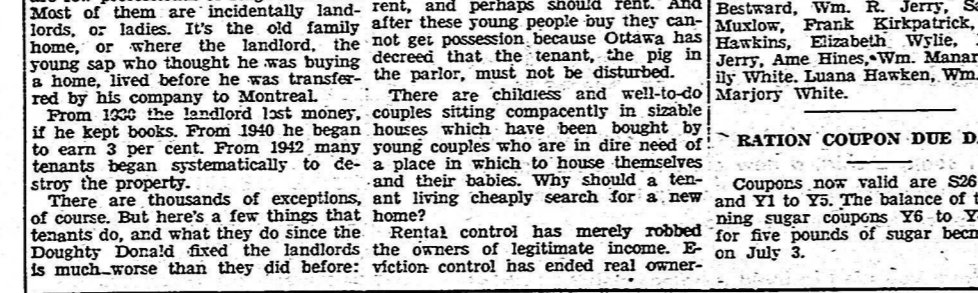

They break wash basins from walls; their children write on walls; they never wax floors; they never remove ashes; they put insoluble objects down drains; they smash windows; they use wooden cellar partitions as kindling; they scratch matches on fireplaces brick; they drive nails in oak wood-work; they burn holes in kitchen linoleum; they dig lawns for dew-worms; they break toilet bowls; they chip porcelain; they tip window blinds from rollers; they hang heavy coats on electric wall brackets; they don't own garbage cans; they never clean the verandah; they nourish weeds in the garden and dead mice in the back porch; they tear inside doors from hinges; they never shovel snow; they walk for the extra-occupant next door to clear the driver; they lower property values in the whole neighborhood and tell everybody that the landlord is a skunk. If this situation made more homes, or at least more living quarters, it might be tolerated for a time, even though now, in '47, V-J Day is fading in memory. But there is strong reason for change. First, the landlord, although he may never cease to be a skunk, can stop being a landlord. And he has, by the thousands. So young people have had to buy when they would prefer to rent, and perhaps should rent. And after these young people buy they can't get possession because Ottawa has decreed that the tenant, the pig in the parlor, must not be disturbed. There are children and well-to-do couples sitting compactly in stable houses which have been bought by young couples who are in dire need of a place in which to house themselves and their babies. Why should a tenant be disturbed? Rental control has merely robbed the owners of legitimate income. Eviction control has ended real ownership.

In Days of Yore

Dr. Sprules's expenses in the recent contest for the representation of Grey in the House of Commons amounted to \$2370. A very admirable moonlight excursion took place on Bell's Lake per student's steam yacht by a company of 200 "Young People." M. & W. Armstrong were running their dinner box factory night and day to keep up with the demand for boxes. Andrew Pogany was pushing his fine brick residence forward rapidly. Something novel was the making of mortar by horse power. Moffat Bros. of Markdale Foundry were going into the stove manufacturing quite extensively. The 15th annual picnic was held at Irish Lake on Tuesday with Rev. Father Pecky supervising the gathering. Geo. C. Boves headed his class at Oreev Sound in the report of the Provincial School of Art Examinations and received a teachers' certificate for primary drawing. Why the Editor Left Town A country editor, just about to go to press, "read" a couple of articles, one concerning a public sale and the other a write-up on a wedding. He asked the printer to get the two articles together—and he did—but here is how he put it together. "Billie Smith and Terrie Brownhill were disposed of at public auction at Reburn farm, east of a beautiful cluster of roses on her breast before a background of farm implements too numerous to mention in the presence of about 70 guests, including two milk cows, six milks and a 984 sled. Rev. Mr. Baker tied the nuptial knot with 300 yards of hay wire and the bridal couple left on John Deere gang plow for an extended trip, with terms to suit purchasers. They will be at home to friends with one good baggy and a few kitchen utensils after ten months from date of sale to responsible parties and some 50 chickens." —The Weekly Editor.

Loneliness Prompts Rotary Club's Origin

(The War Cry) Recently many a girl in Chicago whose name is familiar to hundreds of thousands of folk in many parts of the world—Paul F. Harris, founder of Rotary International and its president emeritus. He was seventy-eight years of age at the time of his death. It was loneliness and a desire for friends as well as a desire to help others that prompted the origin of the Rotary Club in Chicago on February 23, 1905. Mr. Harris was a member of the law firm, after a period of wandering about the United States and western Europe. He was hindered by his strange surroundings. He longed for neighbors, for friends, for business men, but the group soon grew in numbers and the club was born. A friendship spread. Now, it is estimated that there are 5,688 clubs operating in all over the world. The beginning of the purpose behind the club was to help others and foster the ideal of service as a basis of worthy enterprise.

Farmers Should Advertise Themselves

(The Orangeville Banner) Farmers should do a little self-advertising. We believe such advertising is profitable. They should advertise themselves by placing their names and the names of their farms on their mail boxes. If mail boxes are not used, or not placed suitably for the purpose, then the advertising should be done on neat metal signs fastened to the front gate or one of the ends of the fence. These signs would serve a double purpose. They would advertise the farm and its owner, or tenant as the case might be, and they would enable passers-by to learn who lived on the farm or farms in which they might be interested without going to the house or some neighbor's house to make enquiries. It is unsatisfactory to drive through the countryside and pass the farm homesteads without being able to learn the name of the owner, unless one stops to make enquiries. The writer enjoyed a drive through a section of East Garafraxa. Always fond of the countryside we enjoyed looking at the really fine farmsteads that we passed, but we would have enjoyed ourselves much better had we had any means of learning who lived on these farms at the present time. What would be thought of an Orangeville, a Shelburne or a Grand Valley business man, who set up in business in Canada? Why not in front of his place of business? These signs are put out for the convenience of farm folk and other people who come to do business. They are placed there for their convenience, so that they will not have to run up and down the streets enquiring where to buy the farmer too is in business, in what is probably the biggest business in Canada. Why not put out his sign in the same way that the business man does? Why not put out his sign in every farming community in the year to buy or sell. Why should the farmer not tell the town and city who drive on country roads for the mere pleasure of getting away from the crowd of getting away from the crowd of getting away from the crowd. They would be interested in and in some cases contact might be made which would be to the benefit of both farmer and advertiser. This is a matter in which the Federation of Agriculture could very well give leadership. May we suggest too that if some farmers had their names where all passers-by could read them they might be more particular about the appearance of their farm buildings and surroundings.

Insure

A recent amendment to the Highway Traffic Act provides severe penalties for anyone involved in a traffic accident and not adequately protected by liability insurance. If your car is not insured we suggest you telephone, write or call at the Office and have it insured now. Don't take chances. A. J. NORRIS Office on Main Street, Markdale, Telephone 11

THE TORTURE TEST Tells THE TRUTH ABOUT TIRES PROVE THAT Goodyear gives you most for your money

WHAT is the Torture Test? Two tires... a Goodyear... and another make... are clamped in running position against a motor-driven drum. The surface of the drum is studded with thick, steel bars. The switch is thrown! Round and round spins the drum... grinding with equal force against both tires... pounding, punching, pummeling... 24 hours a day. Simultaneously, both tires are given the same terrific, smashing punishment. Finally, one of them gives way. But one rolls on and on! The winner? Test after test discloses the same result: Goodyear tires are superior in performance to all others! In addition, Goodyear tires are successfully performance-checked against all others on a huge test fleet of cars and trucks. Of course, the final test of Goodyear superiority has been made by millions of motorists like yourself... right on their own cars. The result? For 32 consecutive years, Goodyear has been Canada's first choice tire. You don't stay first unless you're best! Put new Goodyear tires on your car. You'll get more mileage... more safety... more value for your money. NO WONDER—More People Ride On Goodyear Tires Than On Any Other Kind. GOOD YEAR

AN IMPORTANT MESSAGE TO THE MOTORING PUBLIC Re: 1947 Amendments to the Ontario Highway Traffic Act Every motor vehicle owner and driver should become familiar with the new 1947 amendments to the Highway Traffic Act. The purpose of this legislation is to encourage safe driving and to assure the collection of damages awarded by our Courts for personal injuries suffered or property damaged. On and After July 1st, 1947 On and after July 1st, 1947, your driver's license and all motor vehicle permits registered in your name will be suspended if, following an accident in which any person is injured or any property is damaged, you are convicted of: (a) Any violation of a provision of the Highway Traffic Act. or (b) If, upon conviction for a violation of the Act even though no accident occurred, the penalty imposed by the Magistrate includes suspension or revocation of your driver's license or motor vehicle permit. or (c) If you are convicted of a criminal offence involving the use of a motor vehicle. Application of Penalties The penalties for a person operating a motor vehicle while his license is under suspension include a fine up to \$500.00 and imprisonment up to six months, also the impounding of the motor vehicle operated. The penalty for the operation of a motor vehicle, the permit for which is under suspension includes a fine up to \$500.00, imprisonment for six months and the forfeiture of the vehicle to the Crown.
