Some Basic Rules Of Good Manners

If we are to have a Basic English, to make communication easier, why should we not have Basic Good Manners, to make human inter-course easier still? asks the Peter-borough Examiner. This idea was suggested to us by a list of the to our notice recently. Mrs. Post's

(1) Public Lovers: "The hallmark of so-called 'vulgar' people is unrestricted display of uncontroll-ed emotions."

(2) Public Squabblers: "You knocking down the walls of our house when you expose your orivate affairs in public." (3) Bouncing Brats: "Children an hardly be too young to be in-tructed in the rudiments of etiuette and charm..." (4) Exterior Decorators: "There

are few things so distasteful as seeing a woman use a restaurant as a (5) Twitter Bugs: "Blame for bad public behaviour of our 'teen-agers should be placed where it be-

longs—on the home". "To eat quietly, neatly, with dispatch ... of others is essential . . (7) Motor Maniacs: "An examnation in driving courtesy should be required. Bad manners on the

highway are murder."

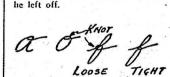

A code of Basic Good Manners would undoubtedly forbid the seven offences, listed. Fashions in manners change, but dirty eating, road hogging, public pawing and public brawling have been condemned in all ages. We do not nowadays throw lit when we meet a lady of our ac-Remembrance .of .Things .Past. seniors enter the room. We do not produce visiting cards when we go calling. Modern Etiquette By Roberta Lee

O Should a woman always re move her hat in a theater?

A. Yes. It is considered bad form to keep the hat on, no mat-tter how small it is—and in the case of some hats it is very incon-siderate of those seated in back of you if the hat is kept on. Q. Is it obligatory to answer

notes of sympathy that are written to an invalid? A. Yes; if the invalid is too III to answer them, some other member of the family should do it.

Q. In whose name should wedding announcements or invita be sent if the parents of the bride are both dead and her only relative is an older brother? A. Have the invitations or an-

nouncement sent out in the name of the brother. Q. Is it obligatory to send a gift when one is notified of the birth of a baby?

A. It is not obligatory, but it is customary to do so. Q. Is it all right for a man to wear colored socks with full dress A. No; black hose only should be worn.

Down the Hatch.- Just as we eat hot dogs and ice cream cone at curbside stands, Hollanders eat raw herring, product of the catch that makes the little nation world's third biggest fish producer. Here Dutch women, faces skyward; enjoy a finny snack—10 cents a fish, and they sometimes eat five at a session—at Scheveningen Harbor, near The Hague, where 60 fishing boats haul in the day's eatch.

The Problem of Suffering Job 1:8; 2:7-10; 19:7-10; 42: 1-5; James 5:11.

GOLDEN TEXT .- Endure hardmess, as a good soldier of Jesus Christ.—2 Timothy 2:3.

and will—that is the essence of independent of trust in God.

The Bible teaches consistently that the good and upright are secure in God's keeping, no matter what may befall them, but it does not teach that they are immune from trouble. The prophets held their faith, and were true to their mission, through At the outset of Job's suffering a were true to their mission, through deep persecution and suffering. But when Paul had listed all the character appears other than the three principal speakers, Eliphaz, Bildad, and Zophar. It is Job's wife, and her words are in verses 9 and 10 of the second chapter. him (Romans 8) his conclusion was Many wives have been a support to husbands in distress, at least that nothing could separate him from the love of God. That is the New

giving helpful sympathy, and many husbands in a similar situation have been of great help to their wives. But Job's wife was no helpfact she seems to have added to his the energy value found in a quart nagging attitude. . . . IT RINGS THE BELL when

Apparently without any vital faith herself she virtually taunted Jo with his own faith, saying to him, is effect, "Now, where's your God? What's the use of your faith, when you're covered with boils from head to foot? You'd better curse God and Job surely was justified in losing

some of his patience, and telling her that she was speaking like a fool: "Thou speaketh as one of the foolish There were times when Job's faith and patient endurance were not so strong, when his suffering seeme greater than he could bear, and when he felt as Jesus was to feel on the Cross, as if God had forsaken him.

ereek coiling hay. He started the far end of the field so that he didn't finish he would not hav tually brought him to the bank of the creek, on the other side of which the cattle were grazing. He hea a heifer bawling and went to in-vestigate. The heifer was all right but further up the creek he saw one of the cows lying in rather suspicious way right on the edge of a deep water-hole. Hurrying Partner saw that she alread had a new-born calf. As he ar proached the calf was struggling to get to its feet but was unsuccess ful and was gradually slipping clos er to the edge of the water-hole inside of a few minutes it would surely have fallen in and been drowned. Of course Partner rescued the poor little thing and car-ried it to a safer place. But it was not only the calf's life that had been in danger, there was also the possibility, had the call drowned, calved might have been overlooked

The Art of Serving Hot Meals on Planes

in which case the cow wouldn'

When one buys a railway ticket it does not include meals on the trains
-they're paid for separately just as are berths. When one buys a ticket for a ship journey the cost of the meals is included. That is the policy adopted by the airlines also. Serving meals on train or ship may

be tricky but fairly simple because there's room for storage and a kit-chen. But on a plan, which is limited in carrying capacity and space,, serving meals is very difficult, and especially serving hot meals, says the Lethbridge Herald. However, it is being done, and will be done more

and more as time goes on.

Strange to say, serving hot meals on a plane has developed into an art which brings modern science into play. First the meals are prepared, then they are frozen. When time comes to serve the hot dishes the frozen meals are popped into an oven on the plane and there electricity thaws them out, heats them to the right temperature and the passenger regales himself on the best in

enger plane food service on the wing is a new culinary art. But it seems to be paying dividends in satisfied

disgusting in our estimation." Virginia Creeper Protected by DDT

edies-so watch yourself and take

We've Done It Again

he necessary precautions.

Until the introduction of DDT, the control of the grape leafhopper was usually a difficult matter. This leathopper is a small insect which lives by sucking the sap from the under-surface of Virginia Creeper, grape, and occasionally other plants. As a result of this insect's attacks Virginia Creeper becomes dry and listless and a questionable decoration of the walls and porches of many homes, while at the same time an undesirable nuisance may be created by the swarms of tiny whitish in sects greeting anyone who unwit-tingly walks too close to the vines.

However, DDT has solved the problem. Most gardeners are satisfied with dusts containing 5 per cent. or 10 per cent. DDT, but three per cent. dusts as well as sprays give good control results when properly pplied. The sprays may be made by mixing two pounds of 50 per cent. wettable DDT with 100 gallons of water.

The dust or spray, advises R.H. Handford, Dominion Entomological Laboratory, Kamloops, B.C., should be applied thoroughly so as to cover completely the under-surface of the leaves. The first application should be directed against the adults and to do this it should be made when the leaves are about half grown. At this time, control methods may not appear warranted b cause few adults are evident, but if their small numbers are enot reduced then, their progeny is Jimy to cause serious injury and annoyance later

A second application of DDT hould be made two weeks after the leaves should be examined every few days to look out for the appear ance of the minute, whitish, wing-less leafhopper.
