

Thank You!

To all those who attended our Frolic and generously patronized our booths—
To all those who assisted at booths and in other ways—
We extend our hearty appreciation and sincere thanks. The success of the carnival was largely due to your efforts.

GREEN WHITE OR AMBER BOTTLES

TRADITIONALLY, Ale has always been distributed in green bottles but, owing to the present shortage of green glass, some Ale is being bottled in white or amber bottles.

This is a temporary measure—and does not in any way affect the quality of the product.

Aladdin was a Lucky Fellow!

Aladdin and the genie of his magic lamp could produce anything desired... no scarcities... no delays. But when it comes to building new Hydro generating plants to supply Ontario's ever-growing demand, lack of building materials is proving a problem for which Hydro has no magic cure.

Demand for electricity is growing faster than new power plants can be built. It takes a staggering amount of concrete, steel, lumber and electrical equipment to build a new power development. It all has to be shipped for, delivered to the job and assembled. A difficult task in these days of short supply.

To provide everyone with all the electricity they might like to use during fall and winter months would require new generating stations equal to about one-fifth of our present total supply of over 2,600,000 horsepower. Construction on these and other Hydro projects has been under way for a long time. Your Hydro is pushing them just as fast as materials can be obtained... aiming to do in 5 years what would normally take 7 years. One will start delivering 70,000 horsepower this fall. Another 81,000 horsepower in 1948. By 1950 the huge Ottawa River development will start to pour its 360,000 horsepower into the Ontario Hydro system.

Few places in the world have as much electricity available per person as Ontario. However, we must conserve our electricity so that new homes, farms and industries will all receive their share so that the wheels of our factories will be kept turning and maximum employment and production maintained... USE HYDRO WISELY and there will be enough for all.

DON'T TAKE Tire Trouble ON Your TRIP...

YOUR GOOD YEAR DEALER IS AT YOUR SERVICE

Ride on Goodyears...
Canada's First Choice Tire!

90% of tire troubles occur in the last 10% of tire life. Why take a chance on thin, worn tires? Play it safe! Let your nearest Goodyear dealer check your tires right away.

If your tires are O.K., your Goodyear dealer will tell you so. If you need new tires he has the tire that's miles ahead! ... GOODYEAR ... by far the most popular choice of Canadian motorists.

When you ride on Goodyears you ride on a cool-running tire. And a cool-running tire is a safer tire... anytime! As a plus you get the extra blowout protection of Goodyear's exclusive, patented super-twist cord construction. Goodyears are a better buy in every way. They stop quicker... last longer... give greater safety. When it comes to lower-cost-per-mile... Goodyears win hands down. That's why for 32 consecutive years this statement has been true—**"More People Ride On Goodyear Tires Than On Any Other Kind."**

GOOD YEAR

MORE PEOPLE RIDE... MORE TONS ARE HAULED... ON GOODYEAR TIRES THAN ON ANY OTHER KIND

BLOWOUTS CAN MAR A HOLIDAY!
Protect Your Car From Blowout Accidents with **GOOD YEAR LIFE GUARD**

SAFETY TUBES
Every motorist should have LifeGuard protection. LifeGuards turn any blowout into a slow leak. They allow ample time for a safe, untroubled stop. They fit any make of tire... are economical, too, for they usually prevent several sets of tires. Install LifeGuards right away! You can't buy better protection to safeguard life!

Personals
