# VIGOROUS AND UNITED EFFORT NEEDED TO COMBAT INFLATION SAYS F. H. MARSH, PRESIDENT, and the United States have made a decided effort to remove from positions of influence those who belong to the extreme left. It is now recognized that Communists are not true Canadians, nor are they a political party, but the agents of a form of government which is entirely foreign to our way of life. Labour and Profit Labour, too, is giving more study to the free enterprise system under which fandar's high standards of life have been built and maintained. Many staunch union men know that labour receives the greatest share of the consumer's dollar, that taxes get the next biggest proportion and that profits come last. Likewise, they know that it is profits which keep equipment up to date, start new companies and create new jobs. The profit incentive, but the agents of a form of government which is entirely foreign to our way of life. Labour and Profit Labour, too, is giving more study to the free enterprise system under which have been built and maintained. Many staunch union men know that labour receives the greatest share of the consumer's dollar, that taxes get the next biggest proportion and that profits to the work before us. This great force—education—is deserving of the all-out support of every individual and institution. Our natural resources are not enough to keep canada high in her world place unless that a remedy for many—perhaps most—of our ills is to be found through education. Out of knowledge comes understanding and a relization that each of us the redization that each of us the re

the heart, but our heads also tell us

Gentlemen:

I feet sure you will agree that the statement presented by the General Manager is excellent. We have had a good year, and the position built up over the past 92 years has been well maintained. The Bank of Toronto has upheld its national reputation as a friendly institution pursuing the highest ideals of good banking. indefinitely while millions outside its

# PLAN WASHDAY ELECTRICITY!

 Never before in their history have Ontario's industries and farms been producing at such a high level. More electricity is needed to serve them. Will you help?

On washday, for instance, it is easy to save electricity. Soak clothes at least 15 minutes before you turn on the machine, to reduce washing time. Use only enough warm water to fill tub to water line. Do not operate longer than necessary. If water is heated by electricity, use warm water in first rinse only.

Watch the electric iron and other appliances. Turn them 'OFF' when not in use. Save electricity in every way you can.
