#### POOR SAP RUN

It takes a gradual melting of the snow to make for good syrup making weather, and this year was no exception. With the snow disappearing very rapidly farmers in this district report a poor year with syrup pro-duction in some cases only about ten per cent. With a shortage of help and warm weather predictions some farmers didn't bother to tap at all.
The quality of the syrup is up to standard, and it has been selling for \$3.50 to \$4.50 a gallon.

#### **Good Seed Pays** Good Dividends

Every bushel of seed that is put into the soil may be considered as an investment. The crop returns will determine the soundness of such an investment. The use of good seed is a factor entirely in the hands of the farmer and as strong vigorous plants are naturally better able to withstand the possibility of a poor season, the use of any seed but the best is a gamble.

With modern seed cleaning equip-ment there is little excuse for using seed that is ungraded or contains weed seeds. Seed that does not germinate well may also be considered a hazard in crop production and should be

looked upon with suspicion.

The choice of a variety that is well suited to soil, climate, and is disease-resistant, is a very important factor in obtaining maximum yields. New varieties often make it difficult to de-cide which is best for specific condi-tions. Before changing to a new var-iety it is usually better to try it out on a small acreage where a direct com-parison can be made with the variety being grown. Information regarding new varieties is available at all times at experimental farms and helpful

The four boys who represented Markitale school at Guelph last week, guests of Guelph Curling Club, report a most enjoyable time. The rink, including Jim Perkins, Gordon Cherry, Ray Hunt and Wayne Kidd, were billeted to sleep in homes in Guelph, in and at the Curling rink they were royally treated by their Guelph hosts. Besides three games of Curling, which if provided good sport, refreshments were available to the boys without charge, and they met "a swell bunch if of fellows" from other schools in the province. While the prize ribbons were won by rinks from larger centres which no doubt have had more practice at throwing rocks, Markdale school boys entered into competition purely for sport and they enjoyed their experience. school boys entered into competition purely for sport and they enjoyed their experience. Considering they had never handled a curling stone until a month ago, they made a fair showing, even through they were outsoored in turn by rinks from Dunsford, Guelph and Port Egin. They've heard Markdale is a good town and there is no mistake about that. Describing it to a prospective resident you might say that Markdale is a progressive village quite above many of its size and opportunities. Its merchants are, for the most part, comparatively young men with considerable business aggression. The town is well organized with its own water supply and a number of recreational interests. [Markdale is a pleasant place to live. place to live.

It is anticipated that previous to the County Council sessions a meeting of the appointed representatives from each of the municipalities interested will be arranged. At this meeting, in addition to matters of proce dure, some concrete financial plan wil be developed. With this plan, which or course, will necessarily be quite flexible—it is hoped the committee will be able to submit the same for

it was meant to test the efficiency of
the fire-fighting equipment, and "no the fire-fighting equipment, and "no fire", so they ceased operations until they investigated. Later when they got orders first-hand from the fire chief who wondered at the delay, the town truck, pulling the hose reels,

rove up.
After that the check-up consisted of checking the hydrants for pressure, as well as the water supply and the town buildings. We notice there is no means of carrying ladders to the scene of a fire since the old hook and ladder ragon has been discarded, although it didn't take long for the brigade to put in an appearance. A report of the inspection will be forwarded in due time to the town officials.
