### What Do You Know About The Weather?

Nobody does anything about the weather - except talk - but most of us think we are "weather-wise" Here is a Quiz to test your knowledge about weather conditions, and things related to the weather. Cross ont the answer which you think is FALSE before checking yourself with the correct answers, printed upsidedown, beneath.

1. A red sunset usually means stormy weather the following day. Yes; No.

2. Open windows attract lightning. Yes: No.

Farms or gardens lying in hollows usually suffer from frost earlier than those on higher

4. Coldest weather generally comes when days are shortest. Yes: No. 5. A ring around the moon is a

ing. Yes: No. 6. A heavy dew is a sign of clear weather. Yes: No.

7. There is heavier "static" trouble on your radio in summer than

L A change in the phase of the moon usually brings a change in the weather. Yes: No. 9. It is dangerous to seek shelter

ary tree. Yes: No. 10. We get warmer weather in summer because we are nearer the sun than in -inter. Yes; No. ANSWERS:

Corner in soom ism Summo in groups.

10. %o — earth is nearest the sun are struck more often than those 9. Yes - trees that stand alone

8. No - although this is one of the most common beliefs, scientific caused by electrical disturbances is 7. Yes - thunderstorms are more frost, usually is followed by a clear

5. Yes - the halo around the ber 21, 22, 23; coldest weather 4. No - shortest days, Decemcr:cps down into the lowlands. 3, Yes - the heavier cold air 2. No - scientists say there is o basis for this belief.

Iry weather. I. No - generally means clear

### Big Fair to Feature British Made Goods

Opening at Birmingham on May 3, the British Industries Fair will have no less than 26 miles of stands and exhibits, covering over a million square feet of floor space. esigned to display British made goods to trade buyers from all over world, the exhibits will range from bobby pins to the heaviest sort of machinery. Among them will be like a human baby; a portable typewriter only two inches high and weighing only eight pounds; a mach-

over a million variations. The largest uncut diamond in the world will be on show in the jewelery section. This is a 770-carat stone found in Sierra Leone three years ago. Diamonds presented as wedding gifts to Princess Elizabeth will also e on display.

capable of washing a thousand

ecceptance of invitations to attend the Fair have been received from about 50 different world centres. although no reply to an invitation sent to Russia has yet come through. A corps of interpreters, collectively speaking no less than 23 languages, will be on hand. A Board of Trade spokesman says "this Fair takes place at a critical time in Britain's drive for more exports."

### \$40,000 Rolls-Royce Took Year to Make

Striking evidence of the way firm can modify a motor car design which has won world-wide fame tomer was seen a few weeks ago when an unusual-looking car appeared on the streets of London. It is a Rolls-Royfe built to modern design for N. Gulbenkian, oil millionaire, who is honorary commercial attache at the Persian Embassy, London.
In place of the familiar Rolls bonnet and square radiator is a much longer, enclosed alligator-mouth bon-

net with a curved, sloping radiator. Wheels and hidden lamps are set behind a chromium grill and door handles are inset. Inside, the wind-ows go up and down and the upholof an electric switch and the upholstery is built in curves such as no car has had before.

The car, which took a year to cost something approaching £10,000 make, is 18 feet 9 inches long. It

(540,000) and is best described as a dignified relation of one of the familiar mass-produced streamlined cars.

satisfaction and beauty one can get from a tiny plot of flowers. And they will not take much work either. and a few packets needed li on more time it can be enlarged, and as one's interesting annual results of frills can be added.

The quick-growing annuals can be useful, as ground covers in fron of shrubs and around the base of

roses and filies. Some, like ageratum and sweet alyssum, make trim edgings for formal beds. Others, like certain the petunias and the California poppies, give charmingly informal effects. In the perennial borders they

can be used to fill space: left bare sign that rain or snow is comafter spring bulbs, or to provide all summer effects around early bloom-ers such as the Oriental poppy, Not Too Many Colors

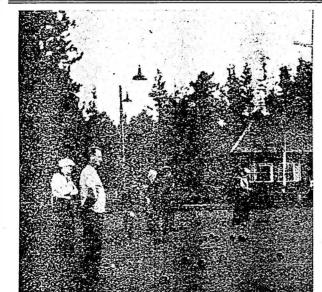

at any other season. Yes: No. If your garden is small, it is best not to have too many colors.
A long border is prettiest if the masses of color shade into one another in drifts. Avoid a spotty

effect. Don't forget the value of from lightning under a solitoccasional white - especially i you enjoy evenings in the garden. f you want to attract hummingbirds and those beautiful great night moths, plant for fragrance as well. Nicotiana will draw them. Cosmos is a favorite with the little

## "After Six O'Clock"

"After Six O'Clock" is the story of a venture started by a young couple in Scotland. They lived in an apartment, and, although they were happy, they had their troubles

Their chief trouble was noisenoise emanating from the next-door apartment of a young trumpet-playing enthusiast, who practised his art both night and day. They attempted to reason with

ded upon, and attained through various promotional stunts. In short order the committee located a suitthe trumpet-fiend, but to no avail. able building. The members clean-"You have your right to silence," he said, in effect, "but I also have ed it up, painted it, and were soon plunged into such activities as sewmy right to make noise with my trumpet." There seemed to be no ing, amateur drama, folk dancing, sketching, children's games—and solution to the problem. trumpet playing.

The young couple pondered the matter, and began to see that both parties had their rights. But where could they practise these rights without bothering their neighbours? Then the idea came to them—an idea which is as applicable in Canada as it is in Scotland. Why not make a community centre, where everybody could make the best

Auction Sale at Dixie-Spring received its official welcome to Dixie at the annual community auction sale. Organized by the farm labor co-operative group, the auction brought out an amazing assortment of articles. Easy chairs waiting to be sold lured buyers into relaxing enjoyment of the sunshine. The wily auctioneer got more action after selling the chairs.

### Teeming Millions Of China and India

We are accustomed to nearing the expression "China's swarming mil-ions," but few Canadians have any ions," but few Canadians have any exact knowledge of what that actual-ly means in numbers. The Chinese national census bureau of the Min-istry of the Interior has computed the total population of the country for the second half of 1947 as 462, 798,093. There is a predominance of females 241,913,638, as against 220,-884,455 males. The total number of families in China is estimated to be 86,637,312. Nanking, the national capital, has a population of 1,034,995, while among the large special municipalities, Shanghai ranks first with 4,300,630.

But India, too, has its "swarming millions," and the 1941 population of that country is given as 388,997,935, with 2,108,891 of them in Calcutta, the largest city. This total population included those of the dominions of India and Pakistan combined.

If the Western world is interested in the political and economic future of these two vast countries, it is tions of them is the stupendous total of 851,796,028.

> "Oh, you do? Well, thanks for lettin me know that, Mr. Boss Hammond. Now I'll tell-you something. Here's your ring back." She jerked the sparkling diamond from her finger and shoved it into the stunned young man's palm, then slammed through the screen door

with a speed that made Unle Jan "Bax why didn't you and Carol g: hitched right after your army

"How could I marry her, then, Jan? I was stone broke and had to start my automobile agency on a flyer. And you know how things went. First, I couldn't get any stock. Then, my garage burned down and I had to start from scratch again. We're through!" Uncle Jan stopped his departure by quickly asking for a match. He had to untangle things someway. marry Bax. Even two years ago she'd come right out and asked if marriage wasn't a partnership where each person shared rain or shine as it came

SHORT STORY Waiting For Something By TED M. RIDER

Uncle Jan twisted in his wicker chair on the front porch when he heard Carol's heels clicking swiitly on the sid-walk. Bax Hammond towered one step behind her a cure. It would be a pretty drasand was pretty mad because the thin scar on his cheek looked twist-. I under the bla.ing light of the

gotten into your niece, Jan? Yes-terday, she insisted on buying her own ticket to the barn dance. Tonight, she paid her own way into the movies. Bridge Must Go One of the few floating bridges still in existence in Canada is about to give way to a more modern struc

Ever since 1870 it has been saving travellers a nine mile detour around lake Chemong, just northwest of Peterborough. The more adventur-ous type of traveller will be sorry to see it go, as negotiating toe mile-long bridge—considered the longest of its type in the world—was often a thrilling experience.

Quite often a motorist, driving

across with windows open, would get a drenching when a wave smashed igainst the car; and passenger could often be seen walking lehind during the crossing, just in case. With an overall width of 20 feet, with an overall width of 20 feet, the bridge had a double-floored centre strip only about 14 feet wide. This wasn't sufficient for 2-way traific so this strip had half a dozen "pullout" places for cars to pass one another. Total load limit was five tone and even when an ordwas five tons, and even when an ord inary passenger car travelled the bridge water would squirt through the floor boards as the bridge sank under the weight. In Fall and Spring the bridge be-

Historic Floating

came a twisted tangle of timber and ice. Winds buffeted the structure and either sank por ions of it under the heavy ice or tore whole sections loose. When this happened, bridge-

Which is the world's largest city? London? In population, right (though New York is a close runnerup). But in area, the correct answer is Kiruna, 24 iron ore town in Swed-ish Lapland, north of the Arctic

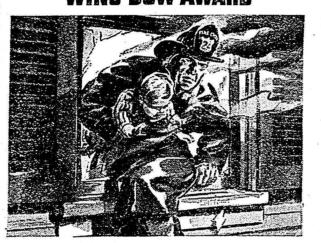

Althorgh this city has only 18,-00° ip ablitants, its area is 18 times that of Greater New York. Despite this distinction, people of far flung Kiruna probably envy New Yorkers one superlative (while it lasts) — the world's longest subway ride for a nickel.

# **Fire Chief Rescues** Eleven Month old Baby **WINS DOW AWARD**

of Pembroke, Ont. performs gailent deed alikough

It wasn't the sight of angry ft wasn't the sight of angry flames enveloping her two-storey home that filled Mrs. Anderson's heart with terror. It was the thought of her 11-month-old baby boy—trapped alone in that blazing inferno! For a second or two she stood rooted to the ground . . and then a scream from inside the house brought her back to reality. Three times, her back to reality. Three times, in spite of neighbours' protests, she tried to reach her baby. But she had to give up . . . her face and hair singed by the flames.

DEY ENTERS THROUGH WINDOW By this time firemen were batt-ling the blaze and Chief Robert Dey was attempting to force his way into the house. Finally he smashed a window and crawled through. Although both his wrists had been cut by the broken glass he fought his way into the blazing living room and managed to find the little boy. Then, choking from the dense smoke

SORE FEET
THIS WAY

choking from the dense smoke and terrific hear, he made his way back to the window and soon had the youngster safe in his mother's arms. We are proud to recognize publicly the gallantry and out-standing bravery of Fire Chief Robert Dey of Pembroke, On-

tario, through the presentation of The Dow Award.

Desperately, Mrs Anderson tried to

enter the burning house. After three

Revolutionary Phonograph Plays Records Vertically-It is claimed that this newly developed phonograph pictured above will completely revolutionize the playing of recorded music. Its most novel feature is that records are played in a vertical position. They are never turned or dropped. In addition, it holds 200 selections ready for instant playing and will automatically find any record in the library, plays either one or both sides and return it to storage without anyone's touching any of the recordings, pick-up arm or mechanism. The machine furnishes more than 14 hours of continuous music without ever repeating a single selection. A timer starts it playing at any time desired and ends the program at a predetermined time.
