The Selfish Handwriting

Dear Mr Armott: I would ap-preciate an analysis of my hand-writing. My friend and I have had some serious quarrels lately, for which he blames my selfishness in most cases. I would like to know if there is evidence of this in my writ-

Your writing is rather indicative of the opposite, as there are signs of willingness to make sacrifices and co-operate with others for the

common good.

Selfish people usually write straight up and down, and not on a slant as shown in your writing. They also repeatedly curl back on their final letters as though turning everything toward themselves for personal benefit. Small hooks at the beginning of their words reveal their real intentions, to get what their real intentions, to get what they can, to hold what they have, and to look for more. Such writing lacks genuine consideration for others and has a flair of vanity as Compare this with your hand writing and you will note that none of the selfi: are present. But you are sensitive to criticism and this may have some bearing on

The three Hebrew children refused to bow to the image. They replied to the king, "If it be so, our God, whom we serve, is able to deliver us from the burning fiery furnace... But if not, be it known unto thee, O king, that we will not serve thy gods."

Cod did miracularly deliver them. God did miraculously deliver them.

Likewise Daniel refused to obey the decree to offer prayer only to the king. He prayed three times a day as formerly, addressing him-self to Almighty God. God pre-vented the hungry lions from harm-ing him. These men were not presumptuous nor discourteous. But God came first in their lives.
