IN MEMORIAM

ENGLAND—In loving memory of a dear brother, Jas. E. England, who died one year ago, October 22nd, 1947.

Peacefully sleeping, resting at last. His weary trials and troubles are past; In silence he suffered, in patience he bore.
Till God called him home to suffer no more.
—Sister Agnes, Art. and Miss Black.

TO ALL MOTORISTS
Here's something for you to think about! There are about twenty makes of automobiles on the market today. Each one has about forty points that need to be lubricated. That's 800 points.....and when you include older model cars, it runs into thousands of lubrication points. That's too much for any lubrication man to remember. And that's why your Sunoco A to Z lubrication dealer uses special charts of different makes and models of cars. His chart of your car shows him EVERY POINT that needs lubrication—and shows the correct Sunoco lubricant for each point. That's why his Sunoco A to Z lubrication helps stop trouble before it starts. Visit your neighbourhood Sunoco dealer and get a Sunoco A to Z lubrication.....the complete lubrication for your car. Sold by: A. O. Gillespie.

HANDS AT WORK... for ONTARIO

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security . . . and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by Ontario industry. They receive ON THE JOB training under expert instructors in our Ontario factories.
This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans on the road to skilled craftsmanship. Taught to use their hands in such jobs as routing, etching, stripping, burnishing and finishing, they will eventually become photo engraving craftsmen. Because of the increasing importance of this trade, every effort of these newly-skilled workers helps to make Ontario a finer place in which to live and contributes to the welfare and happiness of all her citizens.

LEARNING PHOTO ENGRAVING
R. C. Smith, 22, of Toronto, an R.C.A.F. veteran, is shown routing a plate in a large Toronto photo engraving plant. During their training, veterans are shifted from one job to another to familiarize them with all phases of photo engraving. Many veterans subsequently obtain full time employment in the factories where they receive training.
