CHRONICLES

GINGER FARM

Would you like some nice, fresh

string beans straight from the gard-

en? All right then, better drop in

and that is just what you will get.

Come to think of it, you had better let us know over night when you are

coming so I can get a carton from the locker. Yes, I admit that is

where the beans are stored - and

are they ever good! Do you re-member, away back in August, we

were experimenting with green string beans? According to my frozen-food cook book, beans for

the locker should be scalded, bleached and then packed in weak

brine. After doing several cartons

that way someone told me that the

only purpose of the scalding and

brine-packing method was to pre-serve the colour — actually the

beans would keep just as well if put

Well, I am always ready to try at

easier way of doing things, so after

that Gicely and I picked our beans

into small pieces and packed the

cartons just as tight as we could get them. Result — a pint of beans

for two cents — the price of quick freezing. Not only that but they

were produce from the garden tha

would otherwise have been wasted You know how it is with beans —

they are so prolific it's impossible to keep pace with them for the table.

So there you are - just thought

periment as you might like to try

that way yourself sometime. Believe me, it is much easier than fussing

around with boiling water and brin

peas that way but we ate them all

- there were none for the locker.

Here is another experiment - it

handed on to me. A certain party

was given about a bushel of yellow

corn on the cob. Not garden corn-

just straight field corn, like farmers

question cooked a few cobs but it

was so tough her family couldn't ear it. Being a frugal body she hated

hrowing so much good food away

so she tried an experiment too. All she did was slice off the corn into

cartons just as you would for can

and forgot about it. This winter she

took a carton home, cooked th

corn as usual - and it was as nice

and tender as any she had eve

tasted. The only explanation the

could give her at the locker was the process of freezing had probably

broken down the tough fibres o

Maybe I should add, that as far a

our beans were concerned I cooke

them fifteen minutes in my pressure

cooker. Ah, that priceless pressure cooker! I was telling Partner the other day I don't believe I could

ning, sent it down to the locker

meant to have tried fresh green

might be worth passing along to some of you at this time. Ice or snow which plugs the PLUMBING VENT PIPE projecting above the dred farm people what was mostly on their minds. And here are the answers—which are probably much roof of a home can be a real source of peril, and possibly endanger the health of an entire family.

"The plumbing system must be able to breathe," says a spokesman for the Cauadian Institute of Plumbing and Heating. "The vent pipes connect with all the waste lines in a home, letting in fresh air and preventing any accumulation of gas caused by the decay of waste of gas caused by the decay of waste In addition to this, he goes on to

say, these vent pipes also let air into the waste lines to prevent waste water from creating a vacuum as it drains downward and thus siphon-ing your water traps dry. Sufficient water must always remain in the U-bend beneath each plumbing fixture to stop obnoxious gases from backing up into the home.

So, every once in a while, it might put farm management problems in first place. Women were more conbe an idea to pay a few moments attention to that plumbing vent pipe on the roof, and make sure that it snow or some of last autumn's dead they had no problems at all.

Inst what do farm folks worry about most? is the \$64 question this week. Of course, many city people think that those living on farms have practically no worries at all, their idea of rural life being something like that of the little boy who is stick things in the ground, and
