### To All Cream Producers!

Effective immediately, we have been forced to adopt the following policy with regard to **SECOND GRADE CREAM**, as since the advent of the butter substitutes there is no market for second grade butter.

All cream that will not make first grade butter will be returned to the producer. Truck patrons' cream that does not come up to this specification will be held in the refrigerator until our truck makes its next trip, when it will be returned.

We regret very much the necessity of adopting this policy. However, the amount of second grade cream we receive is small, and the best solution to the problem is to care for the cream in such a way that there will be no second grade.
