was useless—and worse, a hin-drance. Virginia realized she was a handicap to these men in this gray, danger-filled dawn. She moved to the tent opening. The grayness outside lay thick among the trees and brush and rocks that walled the camp. The soldiers squatted or lay behind their breastworks, their carbines across the wall's top. Jim Randall stood in the center of the circle with Mel Scar-lett and O'Hara. Across the way. O'Grady was holding the bridle reins of two horses—Jim's sorrel and Steve Barron's black.

Virginia saw Steve Barron kneeling behind the boulder a step from her tent. He had a cigarette beevolver in his hand.

Sometimes things happen that are so utterly ill-timed one has to laugh. For instance, the other day I got word from a local mail-order on the ceiling by trying to get too office that an express parcel was there waiting for us. "Express?" I said in surprise. "I don't rememr ordering anything."

"Didn't you order a sun-cot a few weeks ago?" the sales clerk answered. "And didn't they say they were sold out but would fill your order with their next shipment?" A sun-cot? - Why, yes, so I did. . . That was when the thermom-

eter was hovering around the eighty mark. A sun-cot would have been welcome then. But now, with the daytime high not much over fifty, and a cold wind blowing . . . the sun-cot had arrived! So you see why I laughed. However, there is a bear in may get hat and humid a chance it may get hot and humid a chance it may get not and number again, so we accepted delivery of the sun-cot—and it does give one a sort of warm feeling just to look it it and visualize a time when something like that may be very welcome—if only one can find leisure to use it. Inclination will not be hard to find, but leisure — that's we have had several little show-

ers during this last week, but still shere is no growth—except in the grain fields. How the wheat and ats keep growing is a mystery. It won't be long before the wheat is out in head, but the hay and pasture —we are almost afraid to look at them. Partner finally turned the work of the grass in the field where they are pastured. As for the gar-den, everything is standing still and I did want a good garden for the folk we are looking forward to

Speaking of visitors—we were not expecting any more for another two weeks so I was making use of the interval to fix up another bedroom especially as to work was the only way to keep warm - it seemed too warm with the furnace going, and too cold without it. So I was busy at this room. . . . I had got the worst part done and was paint-ing the furniture, and of course the ing—and there on the doorster was Partner's brother from Ot-

Then came Sunday morning—a
taxi; dogs barking; doorbell ringing and there on the doorsten tawa, come to stay until Monday. Later we had another ge visitor, ust for dinner. But 1 didn't mind — when a woman is alone men are much easier to have ust so long as there is enough food in the house to make a few good meals. My brother-in-law wasn't at all bothered because there were boxes, rugs and who knows what piled up in the hall belonging to the room that was in the process of being redecorated.

And by the way, in that same bedroom I was doing some more experimenting with roller painting; and this time I was making a much better job of it. Yes, in spite of the fact that I quit in the middle of things and went to Guelph. Walls will wait but invitations won't! How would you like to know the ingredients of that water paint!
