Shareholders 54,000 Over 54,000 shareholders own the Bell—and put up much of the money needed to give you telephone service. There are more than twice as many of them as ten years ago. Since the war their accumulated investments in Bell stock have increased by nearly one hundred million dollars. With thousands of applicants still waiting for telephone service, many million dollars more will be needed for new construction. And this money must continue to come from these and other Canadians who are ready to invest their savings in the telephone business.
