

## Lieut.-Governor is a Booster of Northland

"It is the duty of every person in Ontario to do his utmost to develop the great untapped riches of Northern Ontario. It is one of the richest heritages in the world and will, when developed, make this province one of the most prosperous in the Dominion," declared his honor, the Lieutenant-Governor, in an address to the members of the Canadian Club. The address was compounded of personal observations during the recent trip to Moose Factory, and backing his conclusions with many statistics, he expressed unbounded faith in the North Country.

In relating his trip down the Abitibi, the Lieutenant-Governor said that one of the most impressive sights he had ever witnessed was when he was taken to a high rock on the banks of the Abitibi at Oil Can Portage. At this point the rocky banks tower up to a height of 150 feet on either side and the great river can be viewed for a great distance. He said that within a radius of 25 miles of this point of observation there is water power to the extent of 500,000 h.p. running to waste. There were 200 rivers in the northland and ten of them were greater than the St. Lawrence.

"When it is recalled that Moose Factory was first settled in 1668 and that it has been one of the most successful trading centres in the Dominion of Canada it will readily be realized that there are untold possibilities in the North," said Col. Cockshutt. "Last year the little town of 400 Indians and 30 white people paid more than \$30,000 in customs to the government. The town has no post office, no doctors, no dentist and no bank and yet the people are progressing. The day we arrived at the town our doctor pulled fifty teeth and so there is a wonderful opportunity for a dentist. The Indians have more than \$10,000 to deposit and therefore there is an opportunity for a bank."

"Along the Abitibi the one thing that struck me was the resourcefulness of the man of the woods. The Indians never experienced any difficulty whatever and seemed to be ready in every emergency to give the greatest efficient service possible. Surely we can make the northern country a great enterprise. We will have a railway running there before long, but at present it is impossible to give any date. There are great timber limits and when the timber has been cut and turned into capital there is more than 2,000,000 square miles of land that will give some of the finest crops ever grown. It is for us as Canadians and people of Ontario in particular to maintain this great heritage for the benefit of the Province. The prosperity of Ontario depends on new lands and the new trade centres. The old lands and the trade centres have already been established and now it is an opportune time to develop the new lands."

Much of the nervous disorder of the present day is due to the disappearance in the home of sane religious teaching. Canon Street-er.

## NAVIGABLE WATERS PROTECTION ACT

The Quinze Power Company, Limited, hereby gives notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry District of the County of Temiscaming, a description of the site and the plans of the dams and other works proposed to be built at or in the vicinity of Ka-Ka-Ke Falls on the Quinze River and in front of or in the vicinity of Lots 64, 65 and 66, Range 2, Township of Baby, County of Temiscaming, Province of Quebec.

And take notice that after the expiration of one month from the date of the first publication of this notice, The Quinze Power Company, Limited, will under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said dams and other works.

DATED at Toronto, this 3rd day of October, 1923.

The Quinze Power Company, Limited,  
36 Toronto Street, Toronto  
26-4-c

## Biggest Masonic Event Ever Held in the North

(Continued from Page 1)  
grets that he could not be present for the dedication ceremonies. He warmly congratulated the lodge on its success in erecting such a splendid Temple, and expressed his great love and admiration for the North Country.

The next toast was to "the candidate", Mr. Henry Pudden, who had that night been initiated. This was proposed by W. Bro. H. Lockington, who welcomed Bro. Pudden to the brotherhood. The latter replied briefly, stating that he was proud to be a member of the craft.

The toast to "The Builders" was proposed by the D.D.G.M., and coupled with this were the names of R.W. Bro. Haentschel and Bro. Jos. Isherwood. The latter was called on first to respond, and in a short address he disclaimed any great credit for his work on the building. He declared that no one man should be singled out, but to all who had a hand in the work belonged the credit for the success of the undertaking. As a builder, he had done his work to the best of his ability and that was only the proper course of all Masons and all good men. Notwithstanding his modesty, Bro. Isherwood is given great praise by all for his part in the splendid new Temple.

R. W. Bro. Haentschel, in his address said that one of his greatest ambitions was now fulfilled by the fact that Haileybury Lodge was now settled in a permanent and substantial Temple. He had himself instituted the lodge in 1907 and had labored ever since with that end in view. He wished to acknowledge the faithful assistance which the committee in charge of the building had received from members of the lodge and he read a list of those who had made donations to the furnishing of the building. Among these was a unique gift from Bro. J. E. McCuaig. This consisted of a set of ballot boxes made from a portion of an oak tree planted some centuries ago in Windsor Forest by William the Conqueror. Bro. Haentschel told in an amusing manner just how Bro. McCuaig had managed to secure the portion of the tree from which the boxes were made. The splendid generosity of the brothers, both of Haileybury lodge and other lodges of the district has supplied a large part of the furnishings free of expense and thanks were particularly tender-

ed to Silver Lodge, Cobalt, for their share in the donation. The toast to "The Visitors" was proposed by R. W. Bro. N. J. McAulay, and responded to by various brothers from the different

lodes in the district. R. W. Bro. Campbell, of Cobalt, proposed the toast to Haileybury Lodge. This was responded to by the W. M., Bro. Day.

An orchestra from New Liskeard enlivened the proceedings while the banquet was being served, and songs, monologues and musical selections interspersed the speeches. This program was under the direction of Bro. Geo. White. Those who contributed were Bros. J. Morrison, Frank Waite, D. Hennison, Geo. White, J. Anderson, T. Adshad and others.

The celebration was brought to a close about 2 a.m. and all present were fervent in their declaration that it was the biggest and best event ever held in Masonic circles in the North Country.

The number who attended the evening meeting was 278.

The brethren of Haileybury Lodge are justly proud of their splendid new Temple and the success of the opening ceremonies.

## To Survey Railway Into South Lorrain

In view of the efforts of the town of Cobalt to have a branch of the T. & N. O. built into the Lorrain mining area, the following article from the Mail and Empire shows that the government has the matter under consideration at least.

The Ontario government has instructed that a survey be made of the cost of extending the Temiskaming and Northern Ontario Railway so as to serve the Lorrain mineral-producing area. Commissioner George Lee of the T. and N. O. has been ordered to make a thorough investigation of the engineering features of such a project and of its cost, and to report the results to Premier Ferguson.

The instructions to Commissioner Lee constitute the first consideration which has been given by the Ontario government for some years to the transportation and shipping needs of a part of Northern Ontario which has already substantially proven the wealth which it contains. The Keeley and Frontier mines, which are two of the notable ore-producers of the north, are situated in this district and have been urging for some time past that adequate shipping facilities be provided to develop the territory.

The extension which Premier Ferguson is having surveyed involves a line 25 miles in length.

Effective September 30th, the Timmins - Montreal Standard Sleeper, and the North Bay-Ottawa Standard Sleeper will be carried on Canadian Pacific trains 17 and 18 to and from North Bay.

"We must get out into the free thinking world and show that religion is the most mind stirring thing to which men can turn,"—Dr. C. H. Laws.

"You're good for something in this world—for service of some kind to your fellowman—or you're good for nothing."—Dr. Reiser.

ed to Silver Lodge, Cobalt, for their share in the donation. The toast to "The Visitors" was proposed by R. W. Bro. N. J. McAulay, and responded to by various brothers from the different

## Convinced By Help It Gave His Friends

Testimonials from people he knew convinced Sergeant Elvin, of the Salvation Army, that Dreco was well worth trying. Results have delighted him.

Mr. J. R. Elvin, of 177 Mulock Street, Toronto, who for twenty years has been a Sergeant in the Salvation Army, is outspoken in his praise of Dreco, the new herbal remedy. Suffering himself, he read of Dreco's wonderful work, heard it spoken of in tones of the deepest gratitude by people he knew well. What more natural than that he should decide to try it himself?

"Although I have only taken a bottle and a half of Dreco, it has done me a world of good already," states Mr. Elvin. "Last winter I had an attack of lumbago which left my system in a very badly run-down condition. Pains shot across my back over the kidneys. My stomach would not digest my food properly, causing gas to rise after each meal, and I often had bilious attacks."

"After reading of the help people I knew were receiving from Dreco, I thought it might also benefit me and I have not been disappointed in any way. The pains in my back have greatly improved, my stomach is much better and I have had no gastric or bilious spells since I started taking this medicine.

"My bowels are regular; I get up feeling fine and refreshed in the mornings and my day's work is done much easier. I have recommended Dreco to many already and never hesitate to praise it."

Dreco's claims can be readily substantiated. Reliable people who have tried it are loud in their praises of this fine herbal remedy. They have found that it actually does tone and regulate the system and improve the general health. Dreco is made from herbs, roots, barks and leaves and contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Haileybury by The Noice Drug Co. Limited and is sold by a good druggist everywhere.

R. W. Bro. Campbell, of Cobalt, proposed the toast to Haileybury Lodge. This was responded to by the W. M., Bro. Day.

An orchestra from New Liskeard enlivened the proceedings while the banquet was being served, and songs, monologues and musical selections interspersed the speeches. This program was under the direction of Bro. Geo. White. Those who contributed were Bros. J. Morrison, Frank Waite, D. Hennison, Geo. White, J. Anderson, T. Adshad and others.

The celebration was brought to a close about 2 a.m. and all present were fervent in their declaration that it was the biggest and best event ever held in Masonic circles in the North Country.

The number who attended the evening meeting was 278.

The brethren of Haileybury Lodge are justly proud of their splendid new Temple and the success of the opening ceremonies.
