Y, ONTARIO, THURSDAY, DECEMBER 30th, 1926

Two chimney fires, in neither of which there was any damage done, served to make the holidays lively for the local fire brigade over the week-end. The first occurred at the home of Mrs. Gregg, Probyn Street, about o'clock on the afternoon of Christmas Day. The brigade was called, but had considerable bad luck in geeting out, so it was fortunate that the fire was easily overcome. One of the horses, which had been secured temporarily pending the purchase of al new one to take the place of one that died a week or two ago, proved of a contrary disposition and refused to pull the sleigh out of the hall. It took some minutes to get him started and in the meantime the fire truck was taken out. Both team and truck failed to reach the scene of the fire; the team upsetting the sleigh with its load of. hose, etc., on Georgina Avenue and the truck cutting down in the snow at the corner of Probyn Street and Rorke Avenue where the road has drifted and built up to a level with the deep snow.

The reason the team became unmanageable was the fact that in the trouble in getting the new horse out of the hall the traces became unhitched and it was im possible for the driver to slow up mittee. T.& N.O. Willer Goes Into Effect of Sunday

On Sunday next January 2nd, 1927, the winter schedule of the T. & N.O. Railway will go into effect. The chief change will be the fact that trains No. 46 and 47 will be taken off the Sunday schedule. This is in accordance with the usual practice for the winter months. The trains will be run again on Sundays through the spring and summer.

It is expected that there will be slight changes in the times of arrival and departtire of trains at the local stations, but these have not been made public yet.
