

which they had no control, were unable to provide many of the things that go with the festive season, suffered disappointment.

The men at the head of the movement, which was planned to avoid any unnecessary overlapping, were Mayor Hamilton and Mr. Geo. T. Smith, president of the Board of Trade, and to them is due the credit for its successful consummation. They were given hearty support by various organizations and societies and by individuals who contributed to and helped in the work, and to all these they wish to extend their hearty thanks. It is quite clear that their system of making the one united effort was the best that could have been inaugurated and that there was neither neglect of any deserving cases or overlapping.

Former Haileyburians Figure in Unique Curling Event in West

Mr. and Mrs. Harry Walsh, former residents of Haileybury, figured in a unique curling event at the novelty bonspiel of the Fort Rouge Curling Club in Winnipeg this month. With their daughter, Veronica, and their son, Harry, they formed a family rink and won the chief event of the 'spiel. This was Mr. Walsh's first year as a skip, and the first year that the family had curled together. Mrs. Walsh is president of the Fort Rouge Ladies Curling Association.

Mr. and Mrs. Walsh and family, who were well known and popular in Haileybury at one time, have lived in the western city for some years. Their photos in curling costume and armed with brooms, appeared in the Winnipeg Free Press, a copy of which was brought to this office by Mr. W. S. Blackwall. Many of the older residents of Haileybury will remember the Walsh family and be interested in their success in the world of sport.

"Thunder", the Marvel Dog In "His Master's Voice"

"The greatest dog ever made," that is the title made for the latest Gotham production "His Master's Voice" which with Thunder, the Marvel Dog as its star, comes to the Broadway Theatre next Wednesday and Thursday.

In addition to this wonderful canine actor there is a stellar cast of human actors with Mary Carr, Marjorie Daw and George Hackathorne at head of a long list of well known favorites.

The story tells of a young man whose upbringing has resulted in his being a physical coward through no fault of his own. He is suddenly taken from the comfort of his own home and placed in the front line trenches during the great war. Here his regeneration takes place aided by the silent and faithful efforts of his dog pal.

gratefully acknowledged. Let's get behind the boys and boost!

HOPE TO HAVE ICE IN NEW SKATING RINK FOR NEW YEAR'S HOLIDAY

If the present cold weather holds, for a couple of days longer there will in all probability be skating on the new rink in the arena building on Saturday, January 1st. Every effort has been made during the last week to get ice in, but the mild weather made it impossible to get a proper surface built up. With the frost on Tuesday night, a fresh start was made yesterday morning and unless another soft spell sets in tomorrow, there is little doubt but that there will be skating for the New Year's holiday.

There is a large ice surface being prepared, which will allow of hockey games being played, and there is little doubt that the local team will have an opportunity to get some practice before their first game on January 7th. The first game billed for Haileybury at home is January 11th, when the Cobalt team will meet the locals here.

FIRST COMPETITION, PRESIDENT AND VICE, OPENS CURLING SEASON

The first competition at the local curling rink, between the president and vice-president of the club, opened the curling season on Monday. The ice is in good shape and there are two or three games being played each night, which will finish the competition this week-end. The ice was tried out by a few enthusiasts on Christmas Day and on Monday it was in readiness for the opening.

When this competition is finished a good line will be had on those who intend to indulge in the game this winter and the larger competitions will be started next week. A meeting is called for Saturday night, January 1st, when the draw will be made for the Grover Shield Competition and play will commence early in the week.

Present indications are that there will be as large, if not a larger membership than there was last year.

JUNIOR HOCKEYISTS NOW PREPARING FOR THE SEASON'S OPENING

A dozen or more of the aspirants for places on the local Junior hockey team are going to Cobalt this evening, if arrangements can be made, for their first practice. The ice is not quite ready in the local arena yet, and it was felt by the Executive that they should get into action as soon as possible in preparation for their opening game which takes place at New Liskeard on Friday, January 7th.

The equipment, including goal nets, uniforms, sticks, etc., have been ordered and will probably be here the beginning of next week.

Among the boys trying out for the team are: Stanley Lemon, J. P. Dolan, Jimmy Pritchard, Percy White, Pat Philbin, Jack Fitzmaurice, Francis Joy, Garnet and Allan Murray, Gorman Burns, Earl Sutherland, Wilf. Moriarity, Joe Philbin, A. Belanger, Frank Gregg, Joe Lacarte, Rene Guertin, J. McCracken, Allen Ferguson, Archie Williamson.

All boys of Junior age will be

pressed this month in the interior of the province, exploring and taking motion pictures, including some of caribou on the trek.

Two brothers, George and Edward Hume, of Manor, Saskatchewan, carried off the Canadian Pacific Railway and the Dominion Livestock Board awards in the recent pig clubs competition conducted by the Extension Department of the University of Saskatchewan at Saskatoon. Teams from all parts of Saskatchewan competed.

Fredericton, New Brunswick.—A moose with antlers spreading 64 inches was shot in the New Brunswick woods by William Proudfoot of Dobbs' Ferry, New York, while a companion of his, F. C. Chesbrough, of New York City, brought down a lordly animal with an antler spread of 57 inches. Mr. Proudfoot's trophy creates a record for the season.

Vice-Admiral Sir Walter Cowan, K.C.B., of two visiting British cruisers to Philadelphia Navy Yards recently, was one of the most enthusiastic passengers on the Canadian Pacific's miniature train at Treasure Island, the C.P.R.'s exhibit at the Sesqui-Centennial Exposition in Philadelphia. The Admiral thoroughly enjoyed the ten-minute "Transcontinental" journey from Quebec to Vancouver.

In an effort to increase the number of ducks and muskrats in the northern part of the Province of Manitoba, by providing additional sustenance, the Provincial Department of Agriculture has sent north sacks of wild rice to be sown by aeroplane over the vast duck marsh known as Moose and Cedar Lakes. This constitutes an area 20 miles wide and 90 miles long, and is the largest duck marsh and muskrat harborage on the continent.

An attempt is being made by the Canadian railroad companies to have the construction of baggage receptacles standardized in order to facilitate its handling. A meeting between representatives of the railroad companies and of Canadian baggage manufacturers was called recently in Toronto by W. E. Allison, general baggage agent of the Canadian Pacific Railway, and it was generally conceded that minimum specifications for baggage construction should be adopted.

Reports of recklessness on the part of motorists continue to be received at the headquarters of the Canadian Pacific Railway. In the majority of cases the accidents are reported to have been the result of negligence on the part of the car owners. Two accidents at public crossings were reported recently: one near Wingham when a Ford coupe ran into the side of a train which was proceeding slowly over a crossing. The second accident occurred when a truck was driven in front of a C.P.R. train at a crossing near Chatham. The train was backing over the crossing at three miles an hour. In each case crossing and engine signals were given.

St. Paul's A. Y. P. A. will meet in the Parish House on Monday, at 8 p.m. All members are urgently requested to be present.

welcomed for a try-out, as soon as ice is available, as it is hoped to have them placed with Town League teams if they do not get on the Junior squad.

five lines a Lutheran farmer and four the purchase price being \$28,800. According to Dr. A. T. Connell, the farm is well equipped with stock and buildings.

Sheep from the Prince of Wales' Alberta ranch, south-west of Calgary, are superfine, according to Walter Charles Priddy, of the Corriedale Sheep Co., Gridley, California. He has just purchased forty head of imported Shropshires from the Royal ranch, as well as fifteen from other flocks in the district.

Asbestos waste as a soil strengthener is the latest in the line of by-products. Early this year the Development Branch of the Canadian Pacific Railway undertook an investigation and inaugurated a series of experiments in the use of this material. Macdonald College actively co-operated and results so far show that this material has a real value when applied to certain soils.
