Examination Results at Has Judged at Show Haileybury High School

LOWER SCHOOL

Credits for Lower School subjects are in most cases obtained on the recommendations of the teachers. Where a student has failed on his examinations during the year or has for some reason been unable to write those examinations, he has the opportunity of writing the Departmental examinations. The following additional credits were obtained in this latter manner: P. Bagshaw -Grammar, Geography;

R. Binette—Physiography. C. Chenier-Physiography, Arithmetic, Art, Agriculture, Latin.

E. Gamble—Latin. M. Gibson-Grammar, Geogra-

phy, Agriculture. H. Glassford-Latin.

R. Lacarte—History. J. Williamson-Latin.

M. Oliver—Arithmetic.

In Haileybury For Nineteen Years Now

Mr. E. F. Stephenson, editor of The New Liskeard Speaker and pioneer newspaperman, yesterday acted as one of the judges at the annual show of the Haileybury Horticultural Society for the nineteenth time. As the present show is the twentieth in the history of the Society, it will be seen that Mr. Stephenson has only missed one year. That occasion was a long time ago when it was decided to have an expert from one of the Government departments.

In all the years that Mr. Stephenson has had a hand in judging the vegetable and fruit exhibits, he has given the best possible satisfaction and old members of the Society never think of engaging anyone else. All are pleased to see him hale and hearty after his many years residence in the district.

Where Britons Wrote an Epic Page

Here is the spot where Kitchener's "Contemptibles" proved that Britons haven't forgotten how to die. It is the famous Grange Tunnel at Vimy Ridge, where for weeks a bloody and battered army of British and Canadians withstood the flower of the German army. The photo shows a party of veterans visiting the scene of their greatest effort.
