The Shortest Thing in the World....

No, not a gnat's eyelash nor a mosquito's whisker—PUBLIC MEMORY

You may have been in business for fifty years and the people know about it. But they forget—new customers are being born every minute and they grow up and have to be told.

Give the people the good news of new things at advantageous prices. They look to you for this "store news" and will respond to your messages.

Anything that increases favor, that adds to sales, that multiplies customers, is very properly regarded as a good investment.

ADVERTISING is a Good Investment!!

A Note to Merchants

Unless you keep telling them by Advertising what you have to offer them, the fellow who has only been in business fifty weeks, and who advertises intelligently will prove to you the truth of it.
