**The Black Hand**

Night shows a black hand! The schemers back of this fashion plot are influencing the foremost style arbiters of Paris. The effect is seen in long sleeves at formal evening functions, while power is even exerted over daytime costumes where black suede gauntlets symbolizes chic.

The secret of this revolutionary order is boldly revealed in the sketch above. A black fish net gown with high belted waist line and bolero bodice is adroitly used as a striking foil.

**The Annual Wardrobe Eclipse**

Without the shadow of a doubt the black silhouette is to be cast upon the wardrobe this season. With so many brilliant hues in the fashion spectroscopy it was hard to believe at first that this annual eclipse would take place again this Fall. The event, however, has come to pass and a lucid explanation is found in the black transparent velvet frock shown above.

The model outlines the fashion mode with a belted waist line and a draped circular collar falling from the V-neck line. A low drooping flare set on a deep V-seaming on the skirt at front and back throws further light upon its popularity.

**THE RHYMING OPTIMIST**

By Aline Michaels

**Behind Each Care**

No man has ever done his best In all his days of toil-filled hours. Each feels within him, unexpressed, His noblest deeds, his highest powers. None ever built his staunchest boat, None ever penned his finest line. His deepest thought none ever wrote, Nor ever traced his best design. Some... it seems a cruel thing That such a gulf must lie between The dream and deed, although men bring Their all to bridge those deeps unseen. And so it is none does his best, But ever sees the light, afar, Of some bright goal still unpossessed, That guides him onward like a star.

**Masks**

So many masks there are to wear That cover weariness and care; Indifference sometimes I use And pride's a mask I often choose The face which nature gave me seems To show too plainly hopes and dreams, And sometimes men might mock at these Ill-founded faiths and ecstasies. So I have learned to don at will A look, inscrutable and still, That leaves no slightest mood revealed And leads the watcher far afield. Yet when you come disguises fall, With love I need no mask at all!

**Children's Aid Hold Annual Meeting on Friday, November 15**

All friends of the Children's Aid Society of Temiskaming, the organization that is doing such a great work among the helpless and neglected little ones of the district, are reminded that the annual meeting of the organization will be held tomorrow, Friday, evening in the basement of the United Church. All who have the best interests of the community at heart should make an effort to be present and lend their support to the men and women who give of their time and substance in this great work. The providing for all children of an opportunity to grow up in surroundings conducive to good citizenship is one of the greatest movements for good that has come to the world. The local Society needs the support of every good citizen if its efforts are to be crowned with success and all can help in some way.

The activities of the Society during the past year will be outlined at the meeting, an address will be given by Miss Brookings, of the Alexandria Industrial

**SIXTH YEAR MOLAR**

There is one tooth which is the most important in securing a properly developed jaw with regular teeth. This tooth is the first permanent molar, and it is commonly called the sixth year molar. Its popular name is apt to be misleading, however, because the tooth may appear earlier or later than the sixth birthday. It comes in just behind the temporary or baby teeth; indeed it is often mistaken for one of the baby teeth and, as such, it is neglected, the parent thinking that it will be replaced by a permanent tooth later on.

This important tooth can be easily recognized. In the temporary set, there are ten teeth above and ten below, or, in other words five on each side above and below. If there are more than five, then the sixth tooth which appears is this most important first permanent molar, which must be carefully guarded and preserved because of its being the "keystone of the dental arch". The loss of the first permanent molars means that the jaw will not be properly formed, the other teeth will not be in proper position, and, as a result, there will not be the perfect mastication that there should be.

The importance of the teeth as factors in health is generally known. A clean mouth means healthy teeth and gums. Dental disease is responsible for a great deal of illness and suffering. It is essential that parents and those responsible for children realize that in order to have sound teeth in adult life, an early start must be made. We refer here to this first permanent molar which often appears in the fifth year and which must be preserved if the child is to have sound, healthy teeth. This simply means that dental care cannot be postponed but that it must begin early in life.

Proper diet, cleanliness, regular visits to the dentist are the basis of dental health. If these are begun early and persisted in, satisfactory results will be achieved.

School, and it is safe to say that no person who attends will fail to be impressed with the need of assistance from every available source in the great work. The meeting will open at 7.30 tomorrow evening.

The Macdonald Block on Ferguson Avenue is receiving an outside coat of stucco this week.

**RUDDY CANADIAN APPLES FOR OVERSEAS**

"What shall I send the folks in the Old Country?" is a query heard as the Christmas season approaches, but if the average Canadian realized how much our big, juicy, red apples are appreciated and enjoyed by people overseas, the problem would be immediately solved.

Canada's luscious rosy apples are relished by young and old alike. They symbolize our brilliant sunshine and warm summer days and they do look Christmasy and cheerful. Northern Spies, McIntosh Reds and Baldwins are the best and the most popular to carry your kind thoughts and good wishes across the sea and standard boxes and barrels of choice hand-picked and hand-packed fruit, Government inspected, are procurable at reasonable prices from any grocer, while the matter of shipment is as simple as the mailing of a card.

The Canadian National Express will call for your apples, transport

and deliver them by quick service, to any station in Great Britain, Ireland and most European countries, giving them refrigerator service on fast passenger steamers.

The transportation charge from Montreal and Quebec up to November 28th or from St. John, N.B., and Halifax, N.S., thereafter

by direct steamer to points in Great Britain, Ireland and the Channel Islands is \$3.00 per standard box and \$6.00 per standard barrel, including refrigeration.

For rates to Canadian Ports, through to Continental points and other particulars, consult any Canadian National Express Agent Oc.17. No.14

**AS PURE AS CHILDHOOD**

**Always Sweet  
Always Pure  
Always the Same**

"DOROTHY" BRAND Evaporated Milk keeps as sweet and pure, even in hottest weather, as the day it was filtered, sterilized and prepared for your use. Sealed airtight in the can nothing can spoil it. You don't need to keep it in the refrigerator or bother about it at all until the can is opened for use. When opened treat as you would fresh milk.

You'll like it mixed half and half with water for drinking. It's just like fresh cream in tea and coffee or on cereal. Nothing in it but pure, rich milk from which about 60% of the natural water has been evaporated. Always uniform—always the same. Look for Baby Dorothy on the label—"Our Emblem of Purity".

1/2 cup butter, 1 cup brown sugar, 2 1/2 cups Purity Flour, 1/2 lb. raisins, 1/4 lb. citron, 1 teaspoon cinnamon, 1/2 teaspoon nutmeg, 1/2 teaspoon ginger, 2 eggs, 1/2 cup (scant) molasses, 1/2 cup sour cream or fruit juice, 1/2 teaspoon soda. Flour the fruit. Bake in moderate oven (375°).

**How to get Better Results in Cake and Pastry Baking**

A baking expert says "Purity is a strong, rich flour with great expanding qualities... if your cake recipe calls for ordinary pastry flour use 1 tablespoon less per cup of Purity and if milk is called for use half milk and half water (lukewarm), and your cakes will stay moist longer."

**New Recipe for flaky pie crust—**For two pie shells use 2 cups Purity Flour, 1/2 teaspoon salt, 1/2 cup shortening, 1/4 cup cold water. Mix flour and salt, cutting in the shortening until the mixture is like fine meal. Mix thoroughly with the water. Roll out thin, keeping it thoroughly dry. For extra rich pastry use half butter and half lard.

Being milled only from selected Western hard wheat, Purity Flour has the strength and quality to make it "best for all your baking."
