

### Speaks on Canada at Rotary Club Lunch

R. D. Cameron Gives Address in Which Faith in Dominion is Predominant

A very interesting and instructive address was given to the Haileybury Rotary Club at its luncheon on Monday by Mr. R.D. Cameron, of Lucknow, Ont., who is on a tour of the North Country in the interests of the Retail Merchants' Association.

Mr. Cameron spoke on "Canada" and as he has been across the Dominion from sea to sea, he has a very clear conception of the importance of the country. That he is a strong believer in the future of Canada was made evident in his speech.

Mr. Cameron said that Canada was still in its infancy, having been born only 63 years ago, at time of Confederation. He gave some of the early history of the Dominion, including the choice of its name by Sir Leonard Tilley, who, after reading the 72nd Psalm, suggested that the new country be called the Dominion of Canada and his suggestion was almost unanimously adopted by the conference which was then planning the bringing together of the scattered provinces.

Dwelling on the size of Canada Mr. Cameron said that it covered 3,500 miles from the Atlantic to the Pacific and 1,400 from the U.S. boundary to the north pole. It comprised one-third of the British Empire, was 30 times the size of Great Britain and Ireland

combined and contained 440 million acres of arable land. Only one quarter of this great area was occupied, Mr. Cameron said, and only one-half of that was tilled.

The slow growth of Canada following Confederation had been a disappointment, the speaker said, but at the dawn of the present century the tide had turned and there were coming in some 50,000 people each year. This had gradually increased until at the time the great war broke out, we were receiving three to four hundred thousand annually. This had again dropped on account of the war, but had been increasing during recent years until now it amounted to 159,000 per year. Christianity was great, the speaker said, and the schools and churches were doing a great work in this regard. Perhaps the next important factor in the work of assimilation was the press, Mr. Cameron said.

With Canada's progress along material lines, the speaker said, has gone also great progress along spiritual and social lines. The standards of living are higher than they ever were before, the death rate has declined and in all branches of science that has been for the benefit of mankind she has progressed and kept her place in the forefront.

At the close of his address Mr. Cameron was tendered a hearty vote of thanks on motion of Mr. G. J. Gibbons and Mr. Geo. T. Smith, the latter telling him frankly that it was one of the best addresses that had been given before the Rotary Club, and that it would prove an inspiration to all.

### WOMAN'S BRANCH OF SOCIETY WILL MEET

The Women's Branch of the Haileybury Horticultural Society will hold their annual meeting at the home of Mrs. N. J. McAulay, Probyn Street, on Monday afternoon, at 3 p.m. It is hoped that all members will be present and all others who are interested in the work are cordially invited.

### STEADY PROGRESS REPORTED AT MEET

B. V. Harrison Named Vice-Pres. of Canada Northern Power Corporation

At a meeting of directors of Canada Northern Power Corporation, Limited, held in Montreal, on Tuesday, at the close of the annual general meeting, B. V. Harrison, of New Liskeard, was appointed vice-president and general manager of the Corporation. Mr. Harrison has been connected with power companies serving Northern Ontario for the past 20 years. In July, 1927, he was appointed general manager of Canada Northern Power Corporation and two years later elected to the Board of Directors.

Mr. Harrison was also appointed vice-president and general manager of Northern Ontario Power Company, Limited, and Northern Quebec Power Company, Limited.

At the meeting of shareholders of Canada Northern Power Corporation, Mr. A. J. Nesbitt, the president, reviewed the progress of the company, mentioning the fact that the power load was steadily increasing with a corresponding gain in the number of customers served. He added that practically 10% of the revenue collected from customers is returned in taxes to the public through the various government authorities.

### Notes of the North

At police court this week Emil Jarvie was fined \$20.00 and costs for illegally having moose meat in his possession out of season. The charge was laid by Game Warden R. Eddleston, who went in and found the meat was illicitly held by Jarvie. The man was working for a lumber company and was living in McEvoy township. Game Warden Eddleston is doing his best to curb illegal actions in regard to game.—Porcupine Advance.

A reward of \$25 is offered for information that will convict anyone found tampering with town fire alarms or police signal boxes as advertised in another column of this paper. No frivolity of this kind will be tolerated, whatever the circumstances, and no excuse for the misuse of these essential community protective devices.—Kapuskasing Northern Tribune.

Discovery that a piece of pork, which had been cooked for Sunday's dinner, was full of porcupine quills resulted in Mike Sobransky, residing at the rear of 13 Duncan Avenue, reporting the matter to the police. It is understood that the quills were first noticed when one of the diners had a piece of quill stick in his throat. Inspection of the meat which had been cooked with vegetables, shows numerous black specks, which were found to be more quills about half an inch in length.—Kirkland Lake Northern News.

The Speaker has it on authority from the head office of Pandora Gold Limited that recent developments at Pandora Gold Limited property and the discovery of high grade has greatly enhanced the prospects of that mine and the company has acquired

additional property to the west of the O'Brien-Pandora strike, with the same geological conditions.—New Liskeard Speaker.

John Tyson, of Killarney, met with a peculiar accident when hunting wolves in the woods near his home. His rifle was accidentally discharged, the bullet dislodging a rock, which struck him with great force in the head.—Blind River Leader.

Diamond drilling is to be started shortly on the property of Swastika-Kirkland Mines Limited, three miles from Swastika on the old Matachewan road. Plans have been completed for the campaign of exploration work and a drill has been moved onto the property. The initial contract is for 3,000 feet of drilling. Toronto and Buffalo capital head

the company.—Northern Miner.

Announcement is made by District Engineer D. J. Mill of the Northern Development Branch, that the new entry into Cobalt will be ready for use by tourists this summer. The new approach to the town will eliminate several tortuous turns and hills and will be a decided improvement to the section of the Ferguson Highway through the town.—Cobalt Northern News.

## DOES MAN SETTLE UP OR DOWN?

WHEN man reaches that stage in his existence where the urge for "home" dominates his thoughts he is suffering the first stages of the "settling down" process. He begins planning a house and all that goes with it, and realizes that before he can settle down and become a Solid Citizen he must "settle up."

Now this "settling up" business should be indulged in at regular intervals by most of us. There's always some little account that if not paid promptly when notice is sent, will be allowed to stand indefinitely. One of the most unfortunate in this respect is the subscription to the newspaper. The amount is small and comes due but once a year; so it is easily forgotten. But when a thousand subscribers "forget," the publisher is in a bad way and immediately has to put on pressure to collect the \$2.00 accounts.

There is one sure way of keeping "settled up" with your newspaper—watch the label every week. After your name the date on which your subscription expires is printed plainly. Pay it promptly when it comes due. Make sure of it now.
