

Prospector's Classes Conclude Here Today

Mining School Students Attend Opening But Exams. Prevent Taking Full Course

The classes for prospectors, which have been held in Haileybury during the past week, are drawing to a close today and, as in previous years have been the centre of attraction for many men engaged in the mining industry.

Dr. E. M. Burwash, who conducts the classes and lectures, has given a fund of information on geology and other phases of the work and the results will be an increased interest in the search for and development of the industry throughout the district.

At the opening of the classes here all the students of the Haileybury Mining School were in attendance, bringing the number present up to about 50. The students, however, were not able to attend throughout the course, as their Easter exams, came this week and that took up all their time. Other men interested in mining who were able to spend the time, sat through the whole course and enjoyed and profited by the instruction given. About 20 in all attended steadily from the opening until the end of the classes.

Dr. Burwash and his assistant, Melvin Splane, whose home is in Haileybury, go from here to various other points in the North where similar classes are held each spring.

LOCAL BOWLING CLUB PREPARES FOR SEASON; OFFICERS RE-ELECTED

The local bowling club held its annual meeting in Judge Hartman's chambers at the court house on Saturday afternoon and made plans for the coming season. The greens at the county buildings are now clear of snow, and it is hoped that an early start can be made. The club appointed a committee to look after preparations and look for an active and enjoyable season.

His Honor Judge Hartman was again elected as president, with Mr. Jay Gould as secretary-treasurer. The fees for the season were fixed at \$5.00, with a charge of \$2.00 as an initiation fee for new members. The officers hope that those who wish to join the club this year will make application as soon as possible, in order that a proper schedule may be drawn up for the opening.

Notes of the North

Notes of north. The Shantymen's Christian Association lost a tireless worker on Tuesday of this week, when George H. Kelly, Missionary-at-large for Northern Ontario, passed away at the Lady Minto Hospital, following a stroke. The late Mr. Kelly, who for a number of years has been travelling over the country, visiting lumber camps and pulp camps and all settlers and so on, won the respect of all who knew him by his unselfish labors—Cochrane Northland Post.

Dr. R. H. Armstrong's medical advisers decided last week-end that his health was sufficiently restored to permit his leaving the hospital, where he has spent nearly two months in an heroic fight against an insidious illness, and he was removed to his home on Saturday.—Kirkland Lake Northern News.

Golden Summit Mines, near Sesekinika, for which funds are said to be largely coming from Germany, is now crosscutting at the 125-foot level. This vein should soon be reached. On surface this was narrow, but showed quite a lot of visible gold. Work is being carried on with a gasoline driven plant.—Northern Miner.

The New Liskeard Teachers, who are members of the Teachers' Federation, entertained the teachers of Cobalt and Haileybury, also members of the Federation, and other friends, on Saturday afternoon last. The programme took the form of a supper bridge and was held in the kindergarten room of the Public School.—New Liskeard Speaker.

STILL BIG LEAGUER

Baseball experts, doting the pennant chances of teams in the American League, say Detroit will be in the fight if Alexander, rangy first baseman, formerly of Toronto Leafs, maintains his stride

We understand that the Government have appointed special provincial police officers up in this country this spring to check up all vehicles whilst the frost is coming out of the roads to see that no unnecessary damage is done to the roads.—Englehart Times.

Sportsmen Hear Address by Fish and Game Overseer

(Continued from Page 1)

ing of the water. If there were "fish ladders" provided at the dams and the streams kept clear of rubbish, there would be far greater results obtained than by any plan or re-stocking. He had approached the manager of the Northern Canada Power Corporation last year and had secured his co-operation as to the handling of the power dams, with the result that the fishing had been better in the Montreal River than for several years.

Mr. Armstrong also told the sportsmen present at the meeting that if the suckers in some of the streams could be destroyed it would be additional protection for the game fish. There had been instances of dynamiting in the district, which is a serious offence and brings a heavy fine.

He also advised the Association to consider the question of allotting certain sections to licensed trappers and gave considerable information that helped very greatly in laying out a program for the present year.

At the close of the meeting the officers who had been elected provisionally were confirmed in their positions for this year.

They are: Mr. H. D. Merriman,

president, and Dr. R. P. Smith, secretary-treasurer. The executive is composed of five men of Englehart with the addition of a representative from each of the other towns. These were named as follows: Tom Magladery, New Liskeard; W. A. Gordon, K.C., of Haileybury; A. A. Amos, Cobalt; and M. G. Hunt, Kirkland Lake. The proviso was made that if any of these gentlemen found it impossible to act they might secure a substitute. It is hoped to get the whole executive together at an early date and formulate a detailed plan of activities. The organization had on Monday a paid membership of 122, according to the secretary's report. As only a week or two had passed since it was first started, this was considered encouraging.

It is expected that more and more men from various points in the district will join in the good work and that the result will be more and better outdoor sport, greater attractions for the tourists and a better understanding between the hunter or fisherman and the Department. A letter from Mr. D. McDonald the Deputy Minister, to President Merriman commended the organization and promised the assistance and co-operation of the Department.

En Route to London Town

W. L. "Young" Stribling, heavyweight, and his ever faithful manager and Dad, "Pa" Stribling, as they appeared sailing on the Majestic for "Old London Town," to take on the English heavyweight Champion, Phil. Scott

DOES MAN SETTLE UP OR DOWN?

WHEN man reaches that stage in his existence where the urge for "home" dominates his thoughts he is suffering the first stages of the "settling down" process. He begins planning a house and all that goes with it, and realizes that before he can settle down and become a Solid Citizen he must "settle up."

Now this "settling up" business should be indulged in at regular intervals by most of us. There's always some little account that if not paid promptly when notice is sent, will be allowed to stand indefinitely. One of the most unfortunate in this respect is the subscription to the newspaper. The amount is small and comes due but once a year; so it is easily forgotten. But when a thousand subscribers "forget," the publisher is in a bad way and immediately has to put on pressure to collect the \$2.00 accounts.

There is one sure way of keeping "settled up" with your newspaper—watch the label every week. After your name the date on which your subscription expires is printed plainly. Pay it promptly when it comes due. Make sure of it now.
