

## May Have By-Law Forcing Testing of Dairy Herds

Medical Officer of Health Recommends Drastic Changes in the Regulations Governing Supply of Milk; Council Will Hold Special Session to Consider Amendments

Considerably more rigid regulations governing the sale of milk in Haileybury will be put into force this year, if recommendations made by Dr. W. C. Arnold, Medical Health Officer, to the town council on Tuesday night are accepted by that body. Dr. Arnold had made an inspection of most of the dairies supplying milk in town and in his report stated that he had found them all in good condition, with Huard's and Larocque's classed as excellent. He told the council that, as the dairies had not yet received their licenses for this year, it would be in the public interest if a new by-law was framed, making it compulsory that the dairy men produce certificates, first that their stables and facilities for handling the milk were up to the health standards, and second that their herds had been tested by a qualified veterinary surgeon and were free from any tubercular infections. The cost of this inspection, the doctor said, would be \$2 for each cow and he did not think it would be an unjust regulation on the dairymen. He recommended that the by-law be made to apply in all cases where more than one cow was kept.

The members of the council were inclined to agree with Dr. Arnold that the regulation should go into effect. It was pointed out that it would be difficult to check up on the smaller sellers of milk, but that it could be done and would prove a benefit to the regular dairies, the owners of which have on occasion complained that they had to compete with the seller of milk in small quantities who had no strict regulations to comply with.

After the question was discussed from all angles, and the council had listened to Jos. Huard explain the matter from his standpoint, it was decided to hold a special meeting later in the month to deal with the whole milk situation. Mr. Huard said that he was buying and selling cows at intervals and that it was going to be something of a hardship if each one had to be tested before he could sell the milk. The selling of cream on the market was also cited as a difficult proposition, but from the discussion it was plain that the council was on the whole favorable to the idea.

The Medical Health Officer agreed to secure a complete list of all those selling milk in town and present it at the special meeting, when the question will be settled.

Dr. Arnold touched on two or three other phases of the public health situation in his report. There had been no infectious diseases in town for a considerable period until recently there had come to his notice a few cases of mumps which had not been reported and he asked that the

clerk write each doctor in town calling their attention to the fact that all such cases must be reported and quarantine imposed.

A stable west of the T. & N.O. Railway that had been found to be causing a nuisance, contrary to the regulations; an indigent woman had not been receiving some of the things he had recommended, and in one case he advised that a tent be secured for a man suffering from tuberculosis, to keep him isolated from his children. These matters are receiving attention.

### EMPTY SHACK BURNED AS GRASS FIRE GETS BEYOND CONTROL

The fire brigade got a call on Saturday at 10.30 a.m. to the western section of the town, where a grass fire had got out of control and ignited an empty shack. The building was burned down and the firemen had something of a battle to keep the flames from spreading to other buildings, as there is no water available at that point. Nearly an hour was spent before the place was safe and the men returned to the scene in the afternoon and burned off the dry grass there and in other sections to prevent danger from fires.

### Rivers Take Toll of Two Lives in North Country

Monteith Student and Foreigner of Porcupine Are First Victims in Section

The first of the season in the North Country reported this week, one Hoin Monteith and another from Hoyle, on the Porcupine branch of the T. & N.O. The first victim was a student at the Monteith Academy, Rogers Robert, of Cochrane, aged 17, who lost his life while swimming with a party of fellow students in the Driftwood river, close to the lumber mill. A fellow student made a gallant, but unavailing attempt to save him, according to the report. The body has been recovered.

The other victim was a foreigner, whose name had not been learned. With a number of other men he had gone fishing in the Porcupine river and with one companion had gone out in an old boat, which filled with water.

The accident happened in the darkness on Saturday night, one of the men reaching shore safely and the other being carried through a gate in a dam and under the logs with which the river was filled for a considerable distance. Other members of the group could render no help.

### MALCOLM LANG WILL AGAIN BE IN FIELD IN FEDERAL ELECTION

Col. Malcolm Lang, M.P., of Haileybury, states this week that he will again be in the running when the Federal election takes place this summer, as announced last week by the Prime Minister, Rt. Hon. W. L. Mackenzie King. It is expected that a meeting of the Liberal organization of the riding will be held early next week, when the date of the convention will be set and other plans made for the campaign.

Col. Lang was home over the week-end and returned on Monday to Ottawa for the balance of the session. It seems entirely improbable that there will be any other nominees when the convention takes place, as very general satisfaction exists in the party with the representation of the riding at Ottawa during the time he has been there.

### Complete Sixty Years of Happy Married Life

Mr. and Mrs. Stephenson, New Liskeard, Celebrate Their Diamond Anniversary

The Haileyburian extends congratulations this week to Mr. E. F. Stephenson, editor of The New Liskeard Speaker and pioneer newspaper man of the North, who with Mrs. Stephenson, celebrated their diamond wedding anniversary on Friday last at their home on Farah Avenue, New Liskeard. Both are in good health, although Mr. Stephenson will be 85 next month and Mrs. Stephenson celebrated her 79th birthday on the anniversary of her wedding.

Mr. and Mrs. Stephenson were married in Penetang at the home of the latter, who was Miss Emma Wright, on May 9th, 1870. At that time Mr. Stephenson owned a newspaper at Aurora, but shortly afterwards went to Bracebridge and established the Bracebridge Gazette. In 1903 they came to the North Country and founded the New Liskeard Speaker, which, in partnership with his son, Mr. A. E. Stephenson, he still carries on.

Mr. Stephenson is well known and well liked and respected, not only by the newspaper fraternity, but by many friends throughout the district. He has always been one of the North's greatest boosters, and has perhaps done as much as many men for the development and opening up of Temiskaming and the advancement of his home town.

During the 11 years that the writer has known Mr. Stephenson he has been looked upon as a personal friend and a man particularly kind of disposition and sterling worth. We are perfectly sincere when we express the hope that he may long be spared to take a hand in the further advancement of the North Country, and that his life may continue in the happy environment that finds him on his anniversary.

### WORKMAN KILLED AT GOWARD WHEN FALLING POLE CRUSHES HEAD

The falling of a "gin pole" which was being erected at Goward on Thursday last in connection with the lumbering operations there, caused the death of Louis St. Sauveur, aged about 45, a workman employed on the job, when he was struck on the head and his skull crushed.

He lived only about 15 minutes after the accident and did not regain consciousness.

Efforts made to locate Sauveur's relatives were partly successful. A brother lives in Riviere du Loup, Que., where the deceased, who was a veteran of the great war, is believed to have had his home before coming to Goward on April 19th last.

An investigation by Coroner Dr. W.C. Arnold was held following the fatality, but it was decided that an inquest was unnecessary. The funeral was held yesterday morning, interment being in the Roman Catholic Cemetery.

### George Cole Will Command 97th In Training Camp

Colonel Lang Resigns After His Three-Year Term; Camp to Be Held at Beach

Col. Malcolm Lang, M.P., for South Temiskaming, and officer commanding the 97th Regiment, Algonquin Rifles, for the past three years, is resigning his command within the next few days, and he will be succeeded by Maj. George Cole, second-in-command of the regiment, who will be in charge when the Algonquins attend camp at Liskeard Beach in July.

Maj. Don Cameron, of Sudbury is the likely successor to Major Cole as second-in-command. Col. Lang stated on his return at the week-end from attending a brigade conference at Orillia. Col. Lang left his parliamentary duties at Ottawa to be present at the military meeting, and paid a brief visit to his home here before going back to Ottawa.

Col. Lang said that, following the usual custom, he was resigning his command at the end of his term of three years. Major Cole's successor, is now Chief Mining Inspector for Manitoba, with headquarters in Winnipeg, but he is coming east for the annual camp. He was formerly Mining Inspector for Porcupine, and has for many years been associated with the Algonquins.

### Tennis Club Elects Officers for Season

The Haileybury Tennis Club has commenced its activities for the summer and at a meeting this week officers were elected and arrangements made to put two of the courts at Lakeview Park into shape for play. The officers and executive are now signing up new members and a good season is expected. The officers are: President—F. N. McNally. Vice-Pres.—Charles Gordon. Secretary—V. Chevette. Treasurer—M. S. Boyd.

## Problems of Citizens are Dealt With by Town Council

Streets, Waterworks, Garages and Other Matters Make a Busy Session at Regular Meeting; Part of Business Held Over for Meeting Later in Month

All members of the town council, with the exception of Councilor Knechtel, who is ill in Toronto, were present for the regular meeting on Tuesday evening.

Several citizens attended the meeting with problems bearing on municipal matters, and all were given a hearing. N. Abraham asked about his business assessment, which, he said, was \$60 this year and had never before been more than \$25. This was explained to him on the ground that since the assessment for 1929 he had purchased another store and, while the council felt that it

was a little high, nothing could be done before the next Court of Revision.

J. Hurteau made an offer of \$300 for eight lots belonging to the estate of the late Theo. Schmeier, agreeing to pay in addition a proportion of this year's taxes and the full amount of taxes in succeeding years. The council agreed to sell him the town's rights in the property, which will be included in this year's tax sale.

E. J. Lyttle told the council that he believed there was a break in the water main at the corner of Meridian and Albert Street, and that the water came up there every little while during the past four or five years. This will be looked into.

B. Sulphur asked permission to repair and build an addition to the garage at the corner of Rorke and Russell Street, and the matter was left in the hands of the fire chief, as building inspector.

A request from Mrs. J. H. McKinlay for permission to install gasoline pumps and tanks at the corner of Rorke and Main was granted. It was pointed out that the pumps would not be on the street and a service station being erected is set well back on the property. The council did not see its way clear to furnishing pipe for a crossing from the street to the property, however.

There were complaints of alleged exorbitant charges by the garbage collector and it was pointed out that a regular schedule of charges was fixed by by-law. A summary of these will be published and the collector will be asked to come to the next meeting and explain his side. The license fee for transient traders was raised from \$100 to \$150.

A complaint from J. A. Chevette of the condition of the east end of Albert Street will be investigated by the committee and the purchase of a new dump wagon, at a cost of \$302, was authorized. Work will be proceeded with at once on the installation of a four-inch water line into the new hospital.

The Haileyburian was given permission to use a portion of the Lake Shore Road for the annual relay race, to be held on May 31, and a request from the I.O.D.E. to hold their street fair on June 25, instead of June 11, was granted. The balance of the accumulated business was held over for a special meeting and the council adjourned at 10.30.

### JAS. PALMER SERIOUSLY INJURED AS WAGON PASSES OVER BODY

Mr. James Palmer, living on Fourth Street here, was seriously injured Tuesday afternoon when his team ran away and drew the wagon over his prostrate body. It was believed that his spine was injured and he was found to be partly paralyzed when taken to the hospital for treatment.

Yesterday morning, on the advice of physicians, the patient was taken to the Mines Hospital, Cobalt, to have the injuries x-rayed and it was thought wise to keep him there for a time.

Mr. Palmer is well advanced in years and it was reported that he was very ill yesterday.

### Conservatives To Meet June 4th to Name Candidate

Two Names Being Prominently Mentioned to Carry the Opposition Banner

Liberal-Conservatives of this riding will foregather at Englehart on Wednesday, June 4th, to choose a standard bearer for the coming Federal election, according to an agreement arrived at yesterday afternoon in a meeting of the party held at New Liskeard. There were representatives present from several points in the riding, including Cobalt and Haileybury, and there was a spirit of optimism apparent throughout the gathering.

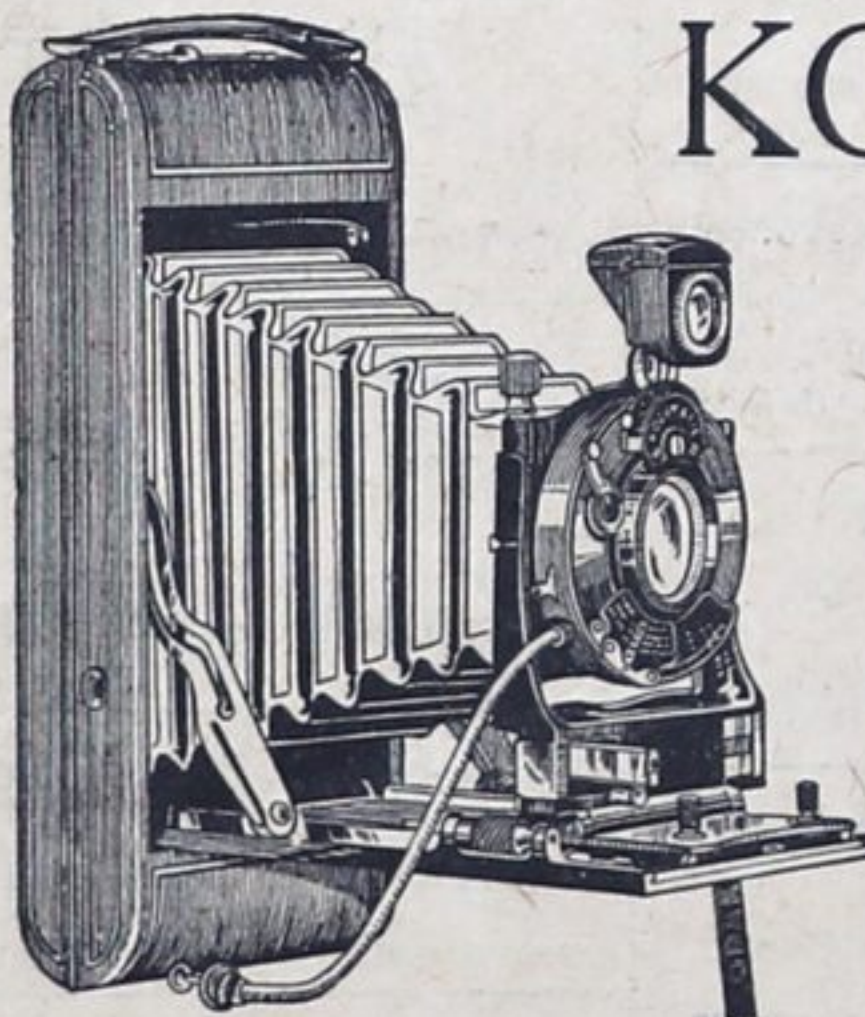

While the final choice remains for the convention, there are two names being prominently mentioned for the nomination, those of W. A. Gordon, K.C., of Haileybury, and Captain Tom Magladery of New Liskeard, and a former M.L.A. for the riding.

Whether both these gentlemen will allow their names to go before the convention is not definitely known, but it is understood that Mr. Magladery, at least, would accept the nomination.

Mr. Gordon would be the choice of the local members of the party and he has been offered the nomination on various occasions in the past.

### The Week's Weather

|                   | Max.        | Min. |
|-------------------|-------------|------|
| Thurs., May 8th   | 62          | 45   |
| Fri., May 9th     | 71          | 39   |
| Sat., May 10      | 72          | 42   |
| Sun., May 11      | 75          | 40   |
| Mon., May 12      | 82          | 50   |
| Tues., May 13     | 74          | 48   |
| Wed., May 14      | 65          | 42   |
| Rainfall for week | .06 inches. |      |
