## District Court to Have Busy Session Next Week

Five Criminal Cases and Three Non-Jury Civil Cases on List for General Sessions Which Will Open on Tuesday Next Before His Honor Judge Hartman

Five criminal cases to be heard before a jury, and three non-jury civil cases have been set down for hearing at the District Court and General Sessions, which will open at the court house here on Tuesday, June 3rd, with His Honor Judge Hartman presiding.

The first of the criminal cases listed is that of Charles Chow, of Kirkland Lake, charged with assault on W. B. Nicholson. This is not likely to be heard, as the accused is said to be out of the country.

W. B. Nicholson, charged with theft of the proceeds of the sale of steamship and railway tickets, will come up for trial. The accused was tried here last December, when the jury disagreed. Nicholson is the victim of the assault charged against Chow.

Norman Bell, of North Cobalt, will face a charge of wilful damage to property. He is accused of allowing the cellar of a house belonging to A. J. McRae to become filled with water from a cistern while the drain was blocked.

Mrs. Teresa Brazonni, the Kirkland Lake woman accused last fall of performing an illegal operation, will be tried on the charge, and the fifth case is that of Kosten Moldovan, who was arrested last week at Kirkland Lake following the explosion of a quantity of dynamite under the home of F. Spotei there.

The first of the non-jury cases is a claim by the Oliver Blais Co. against Mrs. N. Budarick for repairs to a motor car. In the second action Thos. Barasky, of Bucke Township, is suing Benjamin Goldstein, of Charlton, for \$367.60, alleged to be due as a balance of wages. There is a counter claim of \$400 entered as damages for alleged assault, the defendant claiming that he was unable to work for four months as a result.

H. C. Dunbar has an action against the P. Payette Co., of Penetang claiming \$348 as a payment made on a lumber power pointer, with \$66.20 for freight and damages to the amount of \$3,291.80 for loss of time, etc., through the alleged failure of the boat to tow logs to the mill as guaranteed. The defendant company has a counter claim for \$1,191.18 as the balance of purchase price, expenses in connection with the replacement of the engine and travelling expenses. It is claimed that the engine was not handled right and that this caused the trouble met with in the operation of the boat.

Friends of Mrs. Jerry Abrams received word yesterday that she has recently undergone a very serious operation at the Royal Victoria Hospital, Montreal, and is getting along as well as could be expected.

## To Direct Historic Celebration

Justice A. C. LeBlanc of the Supreme Court of New Brunswick, who will direct the mammoth historical celebration to be held at Moncton, N.B., on August 20th. Special trains will convey delegations from Montreal, the United States and all Maritime points to take part in the celebration.

## Jap. Gibbons Opens New Men's Store on Ferguson Avenue

Jap. Gibbons Men's Wear, which has been located at the corner of Ferguson Avenue and Browning Street for several years past, is now in new quarters on the east side of Ferguson Avenue, in the next block south, where Jap. opened for business this week.

The new store has been thoroughly redecorated, fitted up with beautiful display fixtures and is one of the pleasantest shops to be found outside of the cities. The same special line of men's goods the same courteous and prompt service and the same cheerful welcome that has made the proprietor famous in the North Country await the visitor to the new place of business.

## Six Acres Burned in Small Forest Fire

A small forest fire near Goward on Saturday last was responsible for the burning over of an area estimated at six acres, before it was finally overcome at the edge of a swamp. It is not known just how the blaze started but it was caught before it had gained great headway. Train, snow and cold weather since that time has pretty well made the forests safe for the time in this vicinity and it appears that the greatest of the spring danger is now past.

## Foresters Have Three Mile Chase For Errant Canoe

Craft Blown From Float as Men Watch from Hotel Makes Fast Time Down Lake

J. J. Bowland and Wm. Holley, of North Bay, members of the Ontario Forestry Department, were in Haileybury early this week on their way to McLaren's Bay, where their headquarters will be established for the summer. A new gasoline boat, which will be used for patrolling during their operations, was launched here, fitted up with an engine and driven down the lake to the scene of the camp.

The Forestry men had something of an adventure during their stay in town. In addition to the gasoline boat they had a canoe along, which they placed on the float at the foot of Broadway Street between the wharf and the market building while they were fitting up the larger craft. The day was exceptionally cold and two men went up to the Matabanick Hotel to get warmed up a bit and, happening to look out of the window, they saw their canoe rolling off the float into the lake. The wind had been responsible for its launching and was so strong that the light craft was wafted out well beyond reach before they could reach the shore. It went down the lake at such a rate that by the time a motor boat was secured a trip of some three miles was necessary to catch the runaway.

Messrs. Bowland and Holley left for McLaren's Bay on Tuesday.

## New Library Has Seven Hundred Books Donated

Expect Early Opening of Public Institution Which has Been Badly Missed

The secretary of the Public Library Board, Mr. R. H. Unwin, reports the receipt since last week of 57 books which have been donated to the new library. This brings the total up to 711 volumes, which will make a good selection when the library is opened early in June. Donations are still being thankfully received and anyone who has a book or two that are not needed should notify the secretary or any member of the Board. Volumes will be called for.

The list of those who have contributed books since the last report follows:

- Dept. of Education ----- 10
- Leslie McFarlane ----- 27
- Miss A. Leishman ----- 7
- R. H. Unwin ----- 7
- Adam Keddie ----- 6
- Prev. acknowledged ----- 654
- 711

The girls of the Home Makers' Class at the Haileybury High School will give an exhibition of sewing and will serve afternoon tea on Thursday, June 5th, from 3.30 to 5.30 in the High School.

## Bazaar in Aid of New Hospital to Open Tomorrow

Need Extra Day for Big Event to Conclude All Activities; Opens at 2.30 p.m.

Plans are almost complete for the big bazaar to be held at the end of the month in aid of the new hospital. This week it has been decided to open the event one day earlier, so that it will commence on Friday afternoon, instead of Saturday. The bazaar will continue through Monday and Tuesday afternoons and evenings as planned, the number of special features which have been arranged necessitating another day. The opening time each day will be 2.30 p.m.

On Saturday, May 31st, a big community dinner will be served at the popular price of 50 cents, from 5.30 to 7.30 p.m. It is expected that no business man will go home for his evening meal. He can get more to eat at the bazaar. The ladies will serve tea during the afternoons of Saturday, Monday and Tuesday, there will be booths of all kinds, fun for the kiddies, games, contests, etc., that will provide entertainment for all. Then there will be the drawings for the big prizes, a collection of which may be seen in the window of the Power Corporation's store on Ferguson Avenue. Everyone should visit the bazaar at the Haileybury Arena; it is a community event.

## Sends Seeds of Norway Maple to Plant in North

Ottawa Friend Believes Species Will Thrive Here and Tests to be Made

Mrs. C. E. Living, of Ottawa, has very kindly sent to the editor of The Haileyburian a parcel containing a good supply of seed of the Norway maple, a tree that grows profusely in the Ottawa Valley and one that is extremely hardy. Mrs. Living suggests that these seeds might be planted in Northern Ontario, either in waste spaces or in gardens where they should in time make good shade trees.

As there is a fairly large supply of the seed, if there is anyone who wishes to make the experiment of introducing the Norway maple into Haileybury, we will be glad to divide it up. It would be more satisfactory, perhaps, if the seeds were planted in different kinds of soil, in order that the best results may be obtained.

The Haileyburian wishes to extend thanks to Mrs. Living for her kindly interest in the North Country. She has been a visitor here on one or two occasions and has several friends among local people.

Dr. and Mrs. C. W. Haentschel left yesterday on a trip to Europe during which they will witness the production of the Passion Play at Oberammergau.

## Northern Towns Benefit From Estimates Passed

Haileybury, New Liskeard and Timmins Each Will Have Money Spent on Public Buildings During the Year; Supplementary Estimates Passed in House

### Goes to Conference

J. H. Roaf, who has been appointed employers' delegate for Canada at the 14th annual session of the International Labor Conference at Geneva.

### Dynamite Used for Avenging Grievance At Kirkland Lake

Charged with exploding a quantity of dynamite under the home of Mr. and Mrs. F. Spotei, at Kirkland Lake, Kosten Moldovan will come up for trial at the District Court here on Tuesday next. He was arrested last Tuesday night following the explosion which did considerable damage to the house, but did not cause any injury to the occupants. It is reported that he had been a former boarder at the Spotei home and had a grievance against them.

A report from Kirkland this week is to the effect that on Monday night a charge of dynamite was exploded underneath a motor car, which was parked before the owner's house. The name of the owner of the car was not known here, nor any further particulars of the affair.

Several Northern towns are to benefit through Government expenditures this year, according to supplementary estimates of the Department of Public Works, passed in the House of Commons on Monday of this week.

Among them is listed the sum of \$2,500 as a further amount required for the Federal building at Haileybury. This will be devoted towards the completion of the new building at the arena, in which is contained four commodious offices on the ground floor and a community hall on the first floor. The building, which was commenced last year, is almost finished and the grounds are receiving some attention this year. With the arena it takes the place of the armory building, which was destroyed in the big fire of 1922.

In addition to the amount voted for the expenditure here, there is \$15,000 for a public building at New Liskeard, \$7,000 as a further amount required for the new post office at Timmins and \$15,000 for a public building at Copper Cliff.

Other amounts passed on Monday include \$17,000 as the government's share of local improvements in the capital, \$12,000 for water service there and \$18,000 for additional telephone service. There is also an item of \$16,000 for accommodation for a custom-excise laboratory at Ottawa.

Provision is made for a pension of \$480 to the widow of Duncan McCoshen, former game warden and fire ranger at Petawawa.
