

Middle School Results at Haileybury High School

Many High School Students are successful in Examinations Can Now Make Application For University or Normal School Courses For the Coming Term

The figure following a candidate's name indicates first class proficiency, 75% or over, 2 indicates second class, 66 to 74%, 3 indicates third class, 60 to 65%. Where no number is given, passing standing 50 to 59% is indicated. Students who have failed in any subject may have a statement of marks by applying to Principal W. H. Tuke.

Candidates who wish to attend a University or Normal School should apply for admission to the Registrar of the University or in the case of a Normal School to the Deputy Minister of Education for the necessary application forms.

Lord Birkenhead III

The Earl of Birkenhead, one of the leading figures in British legal and political life, is seriously sick with bronchial pneumonia at his home in London. He is now 58 years old.

IMPERSONATES POLICE AND SEIZES LIQUOR BUT LANDS IN BASTILE

William Okeny, a Russian, is serving a term of one month at hard labor in the district jail here for posing as a provincial police officer at Cochrane and staging a raid on his own at the home of a fellow-countryman there. Okeny, it is said by the regular police, used a forestry badge he claimed to have found on the railway tracks to gain admittance to the place, after which he and two companions seized the liquor they found on the premises and proceeded to consume it there and then. All three were very drunk when Sergeant Frank Gardner, of the provincial police arrived on the scene in answer to a call. He took them all into custody, two of them escaping on ordinary drunk charges.

Highway Across Canada of Great Interest to North

Associated Boards of Trade to Discuss Question at Next Meeting at Cochrane

When the Northern Ontario Associated Boards of Trade hold their next quarterly meeting, which will be about the middle of September in Cochrane, the chief question that will come up for discussion, it is expected, will be the Trans-Canada Highway and its route across the continent. The executive of the Association believes that the time is ripe for bringing the claims of this section of the North Country before the new government at Ottawa, and with this end in view, the member boards have been written to by the president, C. W. Wright of Englehart, urging that they give some time to consideration of the question in the meantime.

In his letter to the member boards, President Wright says in part:

The proposed Highway was the subject of much discussion during the recent election.

The successful party has indicated that some definite steps toward its construction might be expected, and as a special session of Parliament will be called immediately with a view to relieving the unemployment situation is it unreasonable to anticipate that some immediate action might be expected, by the Dominion Government, relative to the Highway?

If so, should we not be prepared to state our case fully, and if necessary, present it directly to Ottawa?

We feel that one of the most important matters before the North at the present time is the question of the Trans-Canada Highway. It must play a tremendous part in our future progress, and it is a matter of prime importance to us that it should go through our Districts and thence West from Cochrane.

In this matter, as in so many matters of a public nature, it is the section or community that consistently advocates its cause that eventually realizes its ambitions, and I feel that this Association should take the lead in this matter, set the example, gather all available data, and if necessary present the case to those who ultimately will have to deal with it.

Will you please do all possible to ensure the success of our Cochrane Meeting, and arouse all possible interest in this matter of the Trans-Canada Highway.

ACCUSE POLICE CHIEF IN TECK TOWNSHIP OF NEGLIGENCE OF DUTY

Chief William Shane, head of the Teck township force, has been suspended by the police committee of the municipal council pending further enquiry into a charge of alleged neglect of duty that formed the basis of the action taken.

It is claimed that the chief, present in the premises of Sam Kalambar when Constables Bird and Hughes went there to arrest the occupant on a charge of assaulting the latter officer, took the warrant from his subordinates, telling them he would attend to the matter, and that nothing further was done.

Provincial Constables Byrne and Durnford subsequently executed the warrant, and Kalambar is to appear in police court on Friday to answer the charge. At the same time two youths, brothers named Tremblay, will come before Magistrate Atkinson charged with destroying property, it being alleged they threw stones through windows at the rear of Kalambar's place and were pursued by Kalambar.

In the subsequent proceedings it is alleged Kalambar struck one of the youths and also beat up Constable Hughes when that officer went to his place to enquire into the trouble. Later, Constable Hughes secured the assistance of his fellow-officer, Constable Bird, and they went back to the Kalambar place, meet-ing the chief there.

Heart Failure Causes Death of Latchford Man

Engineer Succumbs to Heart Failure While Bathing in Lake Alone

After visiting Bay Lake for his daily dip, Harry Mallory, aged 59 was found on Tuesday morning dead from heart failure on some logs on the shore of the lake. He had been employed as engineer at Grant's mill, Latchford, during the summer months and, according to another workman at the mill, Sam Quesnel had been in the habit of going each evening to Bay Lake for a bath after his day's work. Quesnel who found the body on Tuesday morning, stated that he had seen him going to the lake as usual on Monday evening. When Mallory did not turn up for work in the morning, and it was found that he had not returned to his boarding place, a search party was organized and the body found.

Coroner Dr. W. C. Arnold, of Haileybury, was notified and, with provincial police from Cobalt, investigated the circumstances. An examination of the body showed that death was due to heart failure. An inquest was held on Tuesday evening in Cobalt, when a verdict of death from natural causes was returned. When the body was found it was half dressed, but whether the unfortunate man had succumbed before or after entering the water for his dip could not be definitely ascertained, as he had lain on the logs all night.

Mr. Mallory's home was at Field, Ont., and he had been working at Latchford through the summer. He was a widower.

BYE-ELECTIONS WILL BE HELD ON AUGUST 25TH OPPOSITION UNLIKELY

Plans for the bye-elections necessary through members being appointed Ministers of the Crown have been issued and nomination day fixed as August 25th. Mr. H. E. McKee, of Cobalt, Returning Officer for Temiskaming South, has this week issued a proclamation to this effect, fixing September 8th as polling day, if a poll should be necessary.

It is considered extremely unlikely that there will be any opposition offered to Hon. W. A. Gordon, K. C., in the bye-election. Political prophets throughout the country believe that in all cases where the Ministers must by law go again before their constituents, they will be returned unopposed. This would appear likely, as the victory of the Conservative party at the polls last month was decisive and little could be gained by enforcing unnecessary expense by taking a vote.

The Porcupine Advance last week told of the explosion of a spare tire on the back of a standing motor car. The tire was blown to bits and the sound resembled the discharge of a cannon.

First Premier of His Country

Nuri Pasha, new Premier of Iraq, who has been in London to confer with the British authorities concerning the new status of his country now that the British mandate over Iraq no longer exists.

Honorable W. A. Gordon is Tendered Hearty Welcome

Whole Town Turns Out to Meet Returning Minister and Great Reception Tendered; Presented With Gold Watch by Mayor Hamilton on Behalf of Citizens

With the streets and buildings gaily decorated with bunting and banners and with flags flying and almost the whole population of the town on hand, Haileybury on Monday evening welcomed home the Honorable W. A. Gordon, K. C., lately appointed Minister of Immigration and Colonization and Minister of Mines in the new government formed by Hon. R. B. Bennett. Mr. Gordon, who arrived by motor from Ottawa, was given a great reception. Hundreds of citizens met him on the outskirts of Cobalt when he arrived over the Ferguson Highway with J. G. Dickenson, of the O'Brien Mine, who had accompanied him to Ottawa last week, and a great procession of cars, led by the Englehart pipe band, drove slowly through the streets of the silver town and on to Haileybury. At the front of the court house, where the most of the decorating had been done, the people assembled and the new Minister was escorted to the steps, where Mayor Geo. T. Hamilton presided over the ceremonies of welcome. Mrs. Gordon was given a seat of honor beside her husband and Mrs. C. C. Farr, Mr. Tom Magladery, Dr. Joyal and W. Charbonneau were in the party on the platform.

In opening the ceremonies Mayor Hamilton spoke of the pleasure it gave him in thus welcoming home a citizen who had brought honor to Haileybury in this way. It was the first time in his long experience in municipal office, he said, that he had been called on to extend a reception to a Minister of the Crown. The citizens might be of different political faiths and of different religious faiths, but they were one at heart on an occasion of this kind, the mayor said. He told a few anecdotes of Mr. Gordon's career as a lawyer in the North, which gave the crowd a laugh, assured the Honorable gentleman that the people of Haileybury were proud of him and helped to make Mr. Gordon's homecoming a real warm one.

Mayor Hamilton called on Mrs. C. C. Farr, whom he addressed as "Mother" Farr, to add a few words of welcome. Mrs. Farr spoke briefly of the pride she felt in seeing a Haileybury citizen and personal friend elevated to such a high office, which was a deserving honor.

Dr. J. A. H. Joyal, on behalf of the French Canadian people of Haileybury, extended congratulations to Mr. Gordon in an interesting address. The doctor was delighted, he said, at the honor that had been conferred on a Haileybury citizen. He had known that Honorable Mr. Gordon had the prestige and personality for the office, but he "had hardly expected he would go so high so soon." It was a judicious choice, Dr. Joyal said. Mr. Gordon was exactly the man that the mining industry of the North needed, and the fact that he was to administer the department of immigration and Colonization, coming as he did from a cosmopolitan section of the country, would be for the good of the whole country. The doctor spoke of the danger of communism taking root, of the lesser understanding between the two great races which make up the dominion, developed since the war and of the good work a strong man could do towards building up unity of national spirit. Mr. Gordon, he felt sure, would prove a strong factor in this desired development of the national spirit. He was convinced that he would respect the Confederation pact and would treat with justice and equality the two great races, thus earning and receiving the support of all.

Dr. Joyal extended congratulations also to Mrs. Gordon, to whom he declared, Mr. Gordon owed a great deal for her encouragement and help. He was convinced that on numerous occasions her assistance had kept her husband from despairing in the election campaign, and her cheering words of comfort had largely

been responsible for his success. The doctor's speech was a very pleasing one and was delivered very earnestly.

At this stage of the proceedings Mayor Hamilton presented Mr. Gordon with the gold watch, on behalf of the citizens, and two little girls, Mary Miller and Margaret Legris each came forward with bouquets of flowers and were rewarded with a kiss by the Minister.

The mayor explained that the girls were chosen as representing the two principal sections of the townspeople, the one whose parents were Roman Catholic and Liberal and the other of an English speaking Conservative family. This part of the program was greeted with great applause by the assembled citizens.

Mr. Gordon's address was brief, but delivered with an earnestness that showed he takes his new duties very seriously. While he could never be unmindful of the wonderful reception, he said, he was conscious that the honor conferred was not entirely on him personally, but on the district of Temiskaming as a recognition of its great importance in the Dominion. The task ahead would probably prove difficult, but it would be given his very best efforts, he said, and he was sure that the best help of all the people would be his. He realized his lack of experience and would ask the indulgence of even his political foes and if he failed of accomplishment it would not be for the lack of industry and a desire to do what was best for all the people.

Mr. Gordon referred to the recent campaign, saying he had a feeling of happiness to know that no bad friends had been made and no divisions had occurred among the people of Haileybury or district. They had got the best out of the contest through examining the problems that confronted the country and now all could join together, both races and both parties, and try to accomplish some good for all. He made it clear that no special interests would receive special consideration in his administration of the departments allotted to him, but that his best efforts would be exerted for the general good. Referring to Dr. Joyal's address Mr. Gordon said that he trusted that the good feeling between the two great races was being rapidly restored throughout the country, as it was being cemented in Haileybury, and he promised to do all in his power toward that end. "With the two great races marching hand in hand," the speaker said, "Canada need have no fear for the future."

At the conclusion of the Minister's address, hearty cheers were accorded him by the gathering and he was driven to New Liskeard, where a generous welcome was given.

Mr. Gordon has again left for Ottawa, where business in connection with his department awaits him. His plans are indefinite yet, but it will be necessary for him to spend the greater part of his time in the Capital.

The Week's Weather

Week Ending Aug. 13th, 1930	
	Max. Min.
Thursday	76 54
Friday	84 62
Saturday	76 54
Sunday	59 48
Monday	54 46
