THE RHYMING OPTIMIST

By Aline Michaelis

Extinct Volcano!

The great hills rising, form a circle here,
Green-clad and gently sloping from each crest;
Alike the farthest hill and that most near
In April's vivid loveliness are dressed.
Yet once these slopes were once tall mountain's base,
Far, far above uprose its lofty height,
And deep within, a strange and awful place,
Wild fires raged through timeless starless night.
No man knows when the great eruption came
That tore the breast of Earth asunder wide,
No history records the rocks, smoke, flame,
The lava flow, the gas by which men died.
So well have busy Time and Nature wrought
These hillside farms hold not one tragic thought.

April

April! Have you ever
For an instant seen
Her bright features shining
Through her veils of green?
She is so elusive
That her loveliness,
Wreathed in gay-hued flowers,
We can only guess.
Yet today I saw her,
April, flesh and blood,
Dancing down the roadway
In a merry mood.
Just a glad child running
Straight into the wind,
Tattered garments flying,
Curls blown out behind;
Laughing face uplifted,
Eyes were rapture rife,
April, young and eager,
Arms outstretched to life!

IT REALLY is hard to decide, in this year of originality in color and novelty in accessories, which is of greater style value—either can make or mar a costume. Both are new and different this Spring of 1931. So probably we'll have to watch out closely for what is best along both lines, and blend them in a happy combination.

I noticed in the Paris collections of the couturiers, and more and more as the beautiful weather brings forth smartly gowned women, that the all-important color is white. Not just white alone, however, in any case, but white in combination with some other color. Black, navy blue, bright blue, red, brown, charcoal—these, and many more colors are used with white in all forms of apparel.

Too Much ACID

MANY people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company since 1875.
