GIRLS AT HIGH SCHOOL ENTERTAIN FRIENDS AT HOME MAKERS DISPLAY

The girls of the Home Makers Department at the Haileybury High School held a fine display of work and a demonstration of cheese dishes on Tuesday afternoon, when a large number of friends of the pupils at the school were present. Tea was served to all who attended and there were many complimentary remarks made on the clever work of the students, both in the demonstration of the cooking and the display of sewing and other work which is taught in the department. The event was arranged by Miss J. Campbell, who is in charge of the Home Makers Department, and the enthusiasm of the students, the presence of all the other members of the staff and a large number of visitors all helped to provide a very pleasant afternoon.

COURT OFFICIALS ARE PUZZLED OVER RIDER IN VERDICT OF JURY

Court officials here are puzzled over a rider added to the verdict of a jury yesterday, when they found Matti Kongas and Tievi Tuomoinen not guilty of a charge of shooting with intent. The two men, Finns from the Round Lake district, are at present serving a two months' sentence in the district jail following their conviction on a charge of having fire-arms in their possession without a permit. The verdict follows: Haileybury, June 3rd, 1931.

"We, the jurors, find the prisoners at the bar not guilty with intent to maim and etc.

The jury wishes to add the rider that a stricter enforcement of the law with regard to the possession of arms should be carried out.

LOGS IN RIVER STOP FLYING FROM ELK LAKE INTO MATACHEWAN

The presence of logs in the Montreal river at Elk Lake is responsible for a temporary cessation of air traffic between that centre and the Matchewan gold field. With the annual spring drives under way, the river is blocked at that point, and planes operating over the route are flying to and from Haileybury for the present. This condition will continue for some days, it is stated here. A similar state of affairs exists in some of the mining fields of Quebec.

New Town of Haileybury is Puzzling to an Old Timer

Friends of Mr. J. J. Butler, once a well known resident of Haileybury and here this week, with Mrs. Butler on a visit, are chuckling over the fact that he has been lost two or three times since his arrival at the week-end. Mr. Butler left Haileybury some few months after the big fire of 1922 and was not here during the period of rebuilding. Now he finds the town somewhat strange and in his walks around he evidently got mixed up in the streets. We have been told that on one occasion the help of members of the fire brigade was sought to locate him, and that the Mayor and councillors took a hand in the search. As Mr. and Mrs. Butler are going to remain in town for a week or two, it is likely that they will soon become thoroughly acquainted with the layout of the town and be able to enjoy their visit without fear of getting lost.

Mob Burning Jesuit Home

In this startlingly graphic picture, the first received in this country, a mob of anti-religious rioters is shown attacking and burning a residence of Jesuits in Madrid, capital of Spain. Violence in the streets of the city and against all that stood for the Church, was raging at its height as this picture was taken. Part of the frenzied mob is watching the Jesuit home on the left as it is consumed by flames, while others of their fellows are carrying on the work of destruction more actively.

Secure Big Contract For Canadian National Buildings

G. S. Allard, Northern Ontario representative of Beatty Bros., a purely Canadian manufacturing company, tells us this week that his firm has secured one of the biggest contracts in connection with the new buildings being erected this year for the Canadian National Exhibition at Toronto. This contract consists of fittings for the new stables and amounts to well over \$100,000. Mr. Allard says that one of the conditions of the contract is that all material must be Canadian products, so far as it is possible, and that all work is done by Canadians. Through the depression of the past months not a single employee of Beatty Bros. has been laid off and the big contract will mean considerable overtime.
