Should Take Advantage of the Swimming Classes

Every child in Haileybury should take advantage of the swimming classes now being carried on under the auspices of the Rotary Club. A qualified instructor, in the person of Carl Hutt, of Cobalt, opened the classes on Tuesday, under an agreement whereby he devotes two days per week to each of the three towns. The service clubs have combined in this work of instruction for the young and it is safe to say that no better service could be rendered to the communities.

On the intervening days a local man, Russell Poppleton, has been giving the children further instruction and from all appearances the classes are being well patronized. It would appear to be the duty of the parents to make sure that their children attend and receive some training in the art of swimming, diving, etc., which is not only one of the best of exercises but an art that may at any time prove of the greatest value in the saving of lives or the prevention of accidents. Local people are very fortunate in having such an organization as the Rotary Club, which is continually seeking new methods of rendering real service to the community.

A word may well be said also, for the beach, which is fast becoming a favorite spot. The improvements already made and now under way have been a real boon to the town. There is now a fine piece of sand beach of ample size to accommodate all the bathers without crowding, the water is shallow at the shore and grows gradually deeper outside, so that there is plenty of opportunity for the more seasoned swimmers to enjoy themselves, as well as absolute safety for the beginners.

Why Do They Do It?

Commenting on a story in our issue of last week, in which the Public School Board's resolution of regret at the resignation of the school principal after 45 years in the teaching profession was the subject, the Mail and Empire says that the Board's suggestion that he write his memoirs "Goes to show that people will sign a petition for anything." Just why a newspaper of the standing of the Mail and Empire should go out of its way to try and make a sarcastic comment out of a story of purely local interest seems hard to understand. In the story there was not a word about a petition, no suggestion other than words of appreciation of the services of a man who had done his work well, and the tribute of the Board was well deserved. One would surely be justified in expecting the Mail and Empire to use common courtesy in its comments on matters with which it is not at all familiar, or at least to read a story through before attempting to treat it with its so-called sarcasm.

MISTAKEN FOR ANIMAL IS SHOT BY COMPANION WHILE ON HUNTING TRIP

Telesphore Lefevre, settler of the Kapuskasing district, is in hospital in that town with a wound in the hip, the result of having been shot at accidentally by Romeo Parquette, of the same section, according to a telephone message yesterday to Inspector F. B. Creasy, at provincial police district headquarters here.

The Inspector's information indicated that Lefevre and Parquette had been out in the bush, but with different parties, and that the latter, sighting the other man 200 yards away, was misled by Lefevre's dark clothing into the belief he was an animal. He raised his rifle and fired.

During last Tuesday night the post office at Swastika was broken into and \$35 taken, another message to the Inspector stated. The missing money is in the form chiefly of Buffalo nickels and quarters. Provincial officers are investigating, and numerous men stealing rides on north and south-bound freights were held and searched without finding any clue.

SAVE CAR SCHEDULE FROM HAILEYBURIAN FOR FUTURE REFERENCE

Readers of The Haileyburian are advised to clip out and save the new Nipissing Central schedule, which will be found in another column. The new arrangement went into effect on Monday and, as the cars pass through Haileybury at rather odd hours, it is difficult to keep the times in mind. There is a car each way every one and one-half hours, the first one in the morning leaving Cobalt at 5.55, while the first one going to New Liskeard is timed at 6.35. The service continues throughout the day at 90-minute intervals, but the cars do not meet here as they did under the old schedule. One car and two crews handle the traffic throughout the day.

On Sunday the service is shortened in the morning, the first car leaving the barns at North Cobalt at 7.35 for Cobalt, after which the same service continues as on week days.

Bowling Club Schedule Is Now Being Arranged

The greens of the local bowling club at the court house grounds have been put into fine shape and there are plenty of games being played during the afternoons and evenings this week. The club membership is continually growing and a schedule of regular competitions is being arranged. It is expected that play will commence in earnest within a few days now and the various teams will be all lined up.

Several new bowlers have been seen out trying their skill during the past few fine evenings and it is hinted that there will be some surprises when they get properly into their swing. Some visiting gentlemen have enjoyed a few games on the greens and it looks like a very pleasant season for the bowlers.

Woman Judge LL. D.

One of the most notable recipients of an honorary degree at the recent commencement exercises of the New York University is shown above. She is Florence E. Allen, Judge of the Supreme Court of Ohio, pictured in cap and gown after the University had conferred the degree of Doctor of Laws upon her. Judge Allen is the first woman to be thus honored at the New York University.

HEADS MEDICAL COUNCIL

Dr. John L. Chabot, who has been elected president of the council of the Ontario College of Physicians and Surgeons. Dr. Chabot, who practises in Ottawa, is the first French-Canadian to hold the important office.

MAY ATTEND CONFERENCE

Premier Alderdice, of Newfoundland, who may head the Newfoundland delegation to the Imperial Economic Conference which takes place at Ottawa commencing July 20th. Premier Alderdice recently superseded Sir Richard Squires as Prime Minister, following the latter's defeat in the Newfoundland General Elections.

Wed., 13—Prospect's vs. Liskeard.
Fri., 15—Cobalt vs. Black Cats.
Tues., 19—B. Cats vs. Prospect's

WHAT ONE GIRL WORE

By Betty Brownlee.

Those of us who devote most of our summer to indulgence in active sports are particularly happy to welcome the return of the cotton mode. How much cooler and more comfortable it is to spend hours under the hot sun suitably clad in a light frock that doesn't cling to one and get so creased that one is ashamed to be seen in it. Especially good for sportswear are

the cottons woven and finished to look like woollen. Some of the piques appear at a distance to be crepe, so exquisite are they in color and texture. No wonder cottons are taking their place in Summer's fashion parade by the side of crepes and sheer fabrics. Have you seen the cottons in bright tweedy patterns, some gay with small designs?

Cambrics and voiles are being fashioned into simple and two-piece models that are also favored for sports wear.

The striped cambric that we chose for illustration today is especially simple and appropriate for wear on the tennis court. We saw a young friend wear it for two hours of active play, and when she came off the courts she was just as fresh as if she had dressed white.

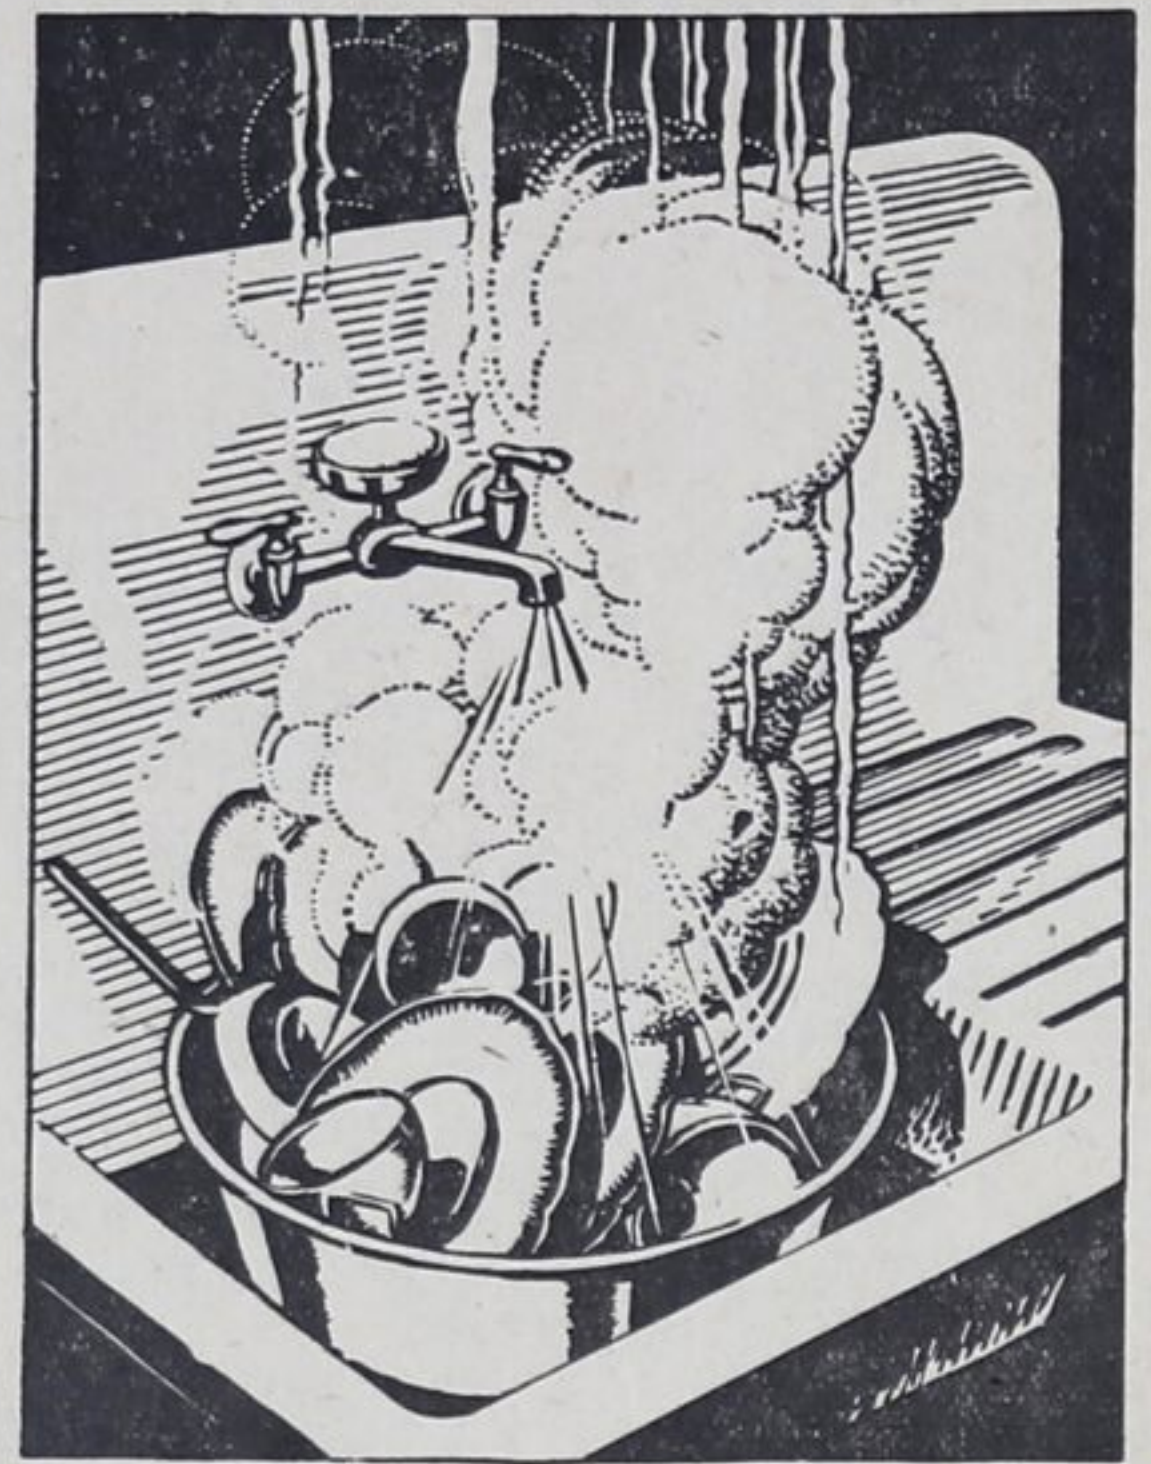

This model in red and white stripes

uses its own material for trimming, letting the stripes run vertically on collar, cuffs and on the slit pockets which decorate the bodice and skirt.

The waistline is marked by a narrow belt finished in front with bone buttons and a butterfly bow of white

Two drivers in Cobalt were given ten days each in the district jail here when they pleaded guilty to charges of operating motor vehicles while intoxicated.

A thief smashed a window of W. T. Montgomery's tailor shop in Timmins last week and made off with a suit and a pair of trousers. Although a nearby resident witnessed the theft and notified the police immediately, he eluded capture.

NEED HOT WATER? Just Turn the Tap

What a comfort and convenience it is to have hot water without fuss or bother. Just turn the tap and it's there for any need... the dishes, bath, washing, or the morning shave. Install an ELECTRIC WATER HEATER in your home this summer. You'll wonder how you ever did without it. Its very modest cost can be spread over several months to suit your budget.
