

COMMUNITY NEWS

Being in possession on Park Street, at a half hour before midnight on Hallowe'en, of 21 pints of beer, and being caught with the liquor by the police, landed Toivo Winonen in Cobalt police court on Saturday last on a charge of being in illegal possession of the stuff. He pleaded guilty and was fined \$100 and costs, or three months in the district jail, Hailybury, at hard labor.

Travelling in a special coach attached to Train No. 47 last Friday morning, ten women and 27 children went through here en route to the Athol area, where they were to join the husbands and fathers, who had preceded them north to open up new homes as settlers. The party came from the Toronto district, and the youngsters were in great good humor as they were borne steadily into unfamiliar surroundings. The families are being located under the Federal Government's back-to-the-land idea.

A Ladies' Auxilliary has been formed in connection with the Y.M.C.A. at Cobalt, and this evening the new organization will give its first function there. A social evening has been planned, with a program arranged, and bridge fiends and cribbage sharks will be catered to also. Officers of the Auxilliary are: Mrs. James Thornham, president; Mrs. D. Andrews, 1st vice-president; Mrs. D. W. McLeod, 2nd vice-president; Mrs. G. A. Cavin, secretary treasurer. Mrs. Finlay Munro is convener of the social committee, and Mrs. Scott Fairley occupies a similar position on the program committee.

The Court of Appeals at Toronto has allowed an appeal taken by the National Sanitarium Association from a decision of Judge Hartman, and relating to the cost of caring for the 18-year-old daughter of the T. & N. O. section foreman at Uno Park in hospital at Gravenhurst. His Honor had held that the municipality was not liable, because the father had made an arrangement with the institution to pay for his daughter's maintenance and was able to pay, and also that she was not admitted as an indigent. The Association appealed from the judgment, and word has been received that this action has succeeded, with costs.

By consent, the action brought against the town of Cobalt by the Toronto Hospital for Consumptives has been dismissed without costs, according to word received by George Mitchell, K.C., who acted for the municipality. The case involved approximately \$900 and this money was the cost, it was stated, of maintaining in Weston Sanitarium two men, named Maruska and Vainio, who had claimed to have been residents of Cobalt. This the town disputed, and Maruska, who was interviewed while in hospital, was shown to have worked at Silver Centre, it is stated. He is still a patient at Weston. Vainio's whereabouts are unknown, it is said in Cobalt.

A quantity of furniture formerly owned by Charles Otton, Cobalt barber, who left recently for Rouyn, allegedly owing the town of Cobalt \$44.63 arrears of taxes for last year, was offered for sale at auction on Saturday in the Cobalt hotel, where it had been stored following its seizure by Alonzo Fortin, tax collector. H. E. Blackwall was auctioneer and about a half dozen people participated in the bidding, although four times that number looked on. Bidding generally was low, and any raises offered never exceeded fifty cents, and at times were as low as five and ten cents. Altogether, the goods realized \$39.85, and a sewing machine, a washing machine, some chairs and other furniture remained in the town's hands for an adjourned sale.

Four chimney fires, all due to overheated stove pipes, within 40 hours last week-end, have prompted Fire Chief William Stinson of Cobalt, to issue a request to citizens of the town to be careful in handling their stoves and furnaces. Much wood is being burned this fall, and some of it gets out of control if not watched, thereby causing unnecessary fire alarms and consequent minor raids on the municipal treasury.

he said. On Saturday morning, the brigade had a call to the home of W. Mackay, on Sunday night the fire was at the home of W. Orr, and on Monday morning the house occupied by Mr. Bador was the scene of the alarm. While at the latter named place, the chief spotted another chimney giving trouble, and he gave that his attention also. No damage was reported at any of the fires, and all alarms went in by telephone.

Acting on behalf of the widow of Einar Niskanen, 32-year-old Finnish resident of Cobalt, who was fatally injured when an automobile ran into a standing freight train at the station crossing at New Liskeard on November 2, 1931, W.R. Ramsay, Cobalt solicitor, has issued a writ for damages against the T. & N.O. Commission. He obtained the necessary fiat, Mr. Ramsay said. The writ is in Supreme Court, but the action will not be ready for trial at the forthcoming sittings of that court in Hailybury next month. Niskanen was one of a party of three men returning to Kerns township from a wedding celebration in Cobalt, and the car in which they were travelling crashed into the train. No. 87, which had stopped for water, blocking the crossing for a time. Niskanen died in hospital the next day, and without regaining consciousness.

A membership drive in connection with the Cobalt Y.M.C.A. is being inaugurated this evening, when the social evening to be given by the newly-formed Ladies' Auxilliary will start a week's campaign. This year, it has been decided to carry on the appeal through a personal canvass of the citizens, with the membership committee, of which S. O. Austin is chairman, in charge of the work. It is pointed out that the Association is dependent more than ever on members for its existence. Contributions have declined with the changing conditions of the Cobalt camp, but the building is being used more than at any time in its history. Gymnasium classes are very large, and the work among boys is being carried on vigorously, but the revenue from this source is comparatively small, and it is necessary, directors state, to appeal to others for their co-operation. They stress the fact that the service to the boys is gladly rendered, but many of those thus helped are not in a position to give much assistance themselves.

Anthony Josefivich, Mike Bodnar and Mike Chayko, all of whom live in Brethour township, appeared in police court at Hailybury last Friday afternoon charged with assault, but Magistrate Atkinson dismissed the cases after listening to the evidence adduced. Chayko, hired man at the farm of Nick Cepesko, had charged Josefivich, Cepesko's neighbor across the road, and Bodnar, and in turn had been accused by Josefivich, the actions arising out of an incident on the road the previous Friday. Both Chayko and Josefivich alleged the other had attacked him without warning, and for no particular cause, although bad feeling was hinted to have existed between them for some time past. Bodnar had intervened, he said himself, while the others were wrestling on the ground, but his efforts had been confined to taking cracks at Chayko with a piece of iron pipe, on his own story. Mrs. Cepesko asserted Josefivich had been the aggressor, she having seen him pick up something from under the house and approach Chayko as he went home with the cows. Both Josefivich and Chayko claimed to have been hurt in the melee, and the witnesses told of having seen and felt the iron pipe used freely, but the bench, in dismissing the charges, said this pipe seemed to him a fiction, and introduced to add local color to the story. The hurts sustained were not consistent with the evidence of the use of the pipe, the magistrate said.

Murray Watts, Cobalt young man who has just returned from a year and a half spent on the east side of Hudson Bay with a prospecting party, was many miles removed from the activities of ordinary Canadian life, but never out of touch with the world, he said on his return a few days ago. Thanks to the

radio, messages giving the news of the day were received regularly, together with personal greetings from his mother and relatives in this district. Mr. Watts said that no difficulty was experienced getting the broadcasts with the short-wave sets employed, and which operated in splendid manner until the supply of batteries gave out near the end of their stay. He stated that although he failed to hear several of the messages from his mother, due to unfavorable conditions, most of them came through very clearly from the Pittsburg station from which they were broadcast. He enjoyed his experiences on the trip, he said. The coldest touch last winter was 38 degrees below zero, while in the summer months the air became quite warm in the interior although the temperature of the Hudson Bay water did not get above six degrees over freezing point. It is not easy to get lost in that territory, he said, owing to the topography of the country, the ranges of hills making good landmarks rising out of the barren plains. In the long daylight of the mild summer season, working parties started at all hours of the day, and it was difficult to tell just what time it was, he found, owing to this condition.

Gross revenues for the Canadian National Railways for the week ending October 14 showed an increase of \$25,894 or 1 per cent. over the revenue for the corresponding period of 1931, according to the weekly statement of revenues issued at headquarters of the National system. For the period ending October 14, 1932, gross revenues were \$3,085,581 as compared with \$3,059,687 for the same period of 1931.

Like Old Man River, the Hen Keeps Rollin' Along

Somebody ought to tell the Canadian hen that there is a depression. The Canadian hen recognizes no bad times, according to the Agricultural Department of the C.N.R. She just goes on laying and her average output of eggs for this year will be 112 per hen. Multiplying this by the number of hens in the country the rather startling total of 286,882,447 dozen eggs is reached. If these were laid end to

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile —Without Calomel

You are "feeling punk" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a liver stimulant. Something that goes further than salts, mineral water, oil, laxative candy or chewing gum or roughage which only move the bowels—ignoring the real cause of trouble, your liver.

Take Carter's Little Liver Pills. Purely vegetable. No harsh calomel (mercury). Safe. Sure. Ask for them by name. Refuse substitutes. 25c. at all druggists.

end and then smashed they would make a lot of omelets.

WARMING NOURISHING ECONOMICAL

delicious in flavour

A hot breakfast of Purity Oats provides quick and lasting nourishment for your family these cold mornings. Money could not buy a more invigorating breakfast, yet each delicious, steaming dish of Purity Oats costs less than one cent—the most economical breakfast you can serve. Cooked in just a few minutes.

A piece of fine china in each "China Package." Ask for it to-day.
