BIRD HOUSE BUILDERS ASKED TO REPORT WHEN HOUSES ARE OCCUPIED

In connection with the recent bird-house contest, sponsored by the Haileybury Rotary Club, the builders are asked to report when the houses are occupied during the spring and summer. Boys and girls should place the houses in suitable locations in their gardens or yards to get the best results and, when any of the feathered songsters take up their residence, report the fact, stating the species of birds, to The Haileyburian. We will be glad to pass on the information to the Rotary Club.

Those who are taking this means of making the town more attractive should bear in mind the depredations of cats among the feathered friends and try to place the houses where the marauders cannot reach them. It might even be possible to teach a pet cat to leave the birds alone, but this is difficult. Each bird lover will no doubt use the best means in his or her power to prevent damage from this source.
