

Open Seasons For Game Fish Are Announced

Different Periods for Various Species Throughout the Whole Province; Changes Few

On Saturday last the open seasons for game fish in Ontario, which will be in force during the year, were announced by the Department, and anglers are advised to clip and save the following outline of the regulations:

Black bass and muskallunge may be caught in the St. Lawrence and Ottawa Rivers from June 16 to October 15, and in other provincial waters from July 1 to October 15. Yellow pickerel (dore) and pike open season is May 16 to March 31; lake trout from November 16 to October 14; speckled trout and brown trout, May 1 to September 14, and rainbow trout, June 2 to September 14. All dates are inclusive.

Regulations as to the limits of catch are: Black bass, not more than six in one day and none under 10 inches in length; muskallunge two in one day regardless of size; yellow pickerel and pike, eight, regardless of size; lake trout, five in one day; rainbow trout and brown trout, not more than five and none under 7 inches in length; speckled trout, not more than 20, nor more than 10 pounds in weight and none under 7 inches, and it is illegal to be in possession of more than two days' legal catch at any time.

Non-residents of the province are required to take out a license of \$5.50.

NO OFFICIAL NOTICE OF NIPISSING CENTRAL CEASING OPERATIONS

There was no official notice that the Nipissing Central Railway would cease operations, received in the three towns up to yesterday, although a report from New Liskeard in the North Bay Nugget on Friday last stated that the railway would go out of business on June 1st, so far as the route between Cobalt and New Liskeard was concerned.

Rumors that the decision has been made to substitute a bus service on the date mentioned are current, and it is thought likely that something of this nature will eventually come to pass. However, there is nothing official, or was not yesterday afternoon.

Changing winds have shifted the ice in Lake Temiskaming around to some extent, but there is still a large quantity to be disposed of before the lake can be said to be open.

Cobalt fire brigade had a run about 2.30 Tuesday afternoon to the home of Stanley Harper, Galena Street. The occasion was a chimney fire, the method of alarm by telephone and the damage none.

Syrups and sugars resembling or imitating the pure maple products present a problem which exacts constant vigilance on the part of the inspectors of the Dominion Fruit Branch in the administration of the Maple Sugar Industry Act.

HAILEYBURIAN RELAY WILL BE HELD ON SATURDAY, JUNE 3rd

The annual race for boys under 19, sponsored by The Haileyburian, will be run this year on Saturday, June 3rd. It is possible that some changes will be made, not in the distance or the ages of the boys, but the place. It is felt that the uphill finish on the present course is hard on the lads, and another section of pavement may be used, if arrangements can be made with the authorities.

But particulars will be sent out to all clubs competing last year, and also published in The Haileyburian as soon as possible.

LOCAL SOFTBALLERS TO HOLD MEETING ON FRIDAY EVENING AT 8

The annual meeting of the Haileybury Softball League will be held in Hotel Haileybury on Friday evening at eight o'clock. Plans for the season will be discussed and officers for 1933 elected to guide the destinies of the League.

Four teams made up the local league last summer, but two of them were on the weak side, and the real contention was between the Lazy Nine and the Aces. It is thought probable that three teams will make up the group this season, with the talent divided to even up matters. However this will be a matter for the annual gathering to decide.

All those interested in softball are requested to be present at Hotel Haileybury on Friday evening at 8 sharp.

THREE-TEAM LEAGUE PLANNED IN COBALT FOR BASEBALL SEASON

Plans of the Cobalt baseball Club for the coming season include a three-team local league and an all-star aggregation to be chosen from the ranks of the trio to contest the district play-downs at the end of the summer.

The intention, it is stated, is to take part in the games which are played for The Journal trophy, emblematic of the championship of the Ottawa Valley and Northern Ontario.

Cobalt, if the program goes through as intended, would stack up with the winners of the Kirkland-Porcupine series played annually.

Games in the town league, which will be arranged later, will be played on the Buffalo slimes, as before, and the relief committee was asked to provide ten men for about three days' work to clean up the grounds.

Officers of the club for 1933 are: President, F. H. Todd; Vice-President, J. A. Robitaille; Secretary-treasurer, Harry Cohen; Executive Committee, A. Brocklebank, K. Mackay, C. P. Cross, A. Fortin and C. Nelson. Honorary Presidents include Mayor Wainwright, A. A. Amos, C. N. Moore and E. J. Holland.

Temiskaming C. C. F. Formed Wednesday Afternoon at Thornloe

The first shot in the next provincial election in the Temiskaming riding was fired yesterday afternoon at Thornloe, when a gathering drawn from many parts of the district and attended by about 50 men and women, decided to form the Temiskaming C.C.F. and to place an Independent Progressive candidate in the field when the present government of Ontario goes to the country.

Walter Hill of Englehart acted as chairman of the meeting, with Frank Lendrum of Cobalt, as secretary. Mr. Hill subsequently was elected chairman of the district organization and Mrs. Edith Smith of Englehart, was chosen as secretary. Eight directors who will have power to add to their number, were elected as follows: James Gillies, Cobalt; Herbert Poppleton, Haileybury; Bert MacPherson, North Cobalt; Reeve W. B. MacFarland, Dymond township; H. M. Edwards, New Liskeard; Robert McGill, Thornloe; Geo. Grundy, Charlton, H. M. Ship, Kerns township.

Efforts will be made to bring in leading members of the C.C.F. for a series of meetings in this district.

Daylight Saving is Discussed by School Boards

Cobalt School Boards Not All In Accord But May Arrange Schedules to Suit

Daylight saving was discussed at the meetings of two sets of trustees in Cobalt on Tuesday evening, with the separate school board opposing it and their high school colleagues going on record as being prepared to conform to whatever arrangements the three towns may arrive at in this respect. The public school board already is on record as opposing it, by a majority.

At the high school meeting, Principal F. A. D. Anderson stated he thought adoption of daylight saving time would not affect the running of the school, provided other towns were also on fast time, while the separate school trustees were told that he principals of both St. Patrick's and St. Therese's schools were against any change in the time.

It is likely that, in the event of the three towns adopting summer time, the public and separate school boards in Cobalt will confer with regard to the hours of opening and closing school, in view of their problem of handling pupils from both Bucke and Coleman townships, which would not be affected by any decision of the town council in Cobalt.

LOCAL GOLF NEWS

The formal opening of the Haileybury Golf Club for 1933 will take place on Wednesday, May 24th.

Weather permitting, the greens will be put into play on Sunday next.

The course has dried out very quickly and is in an advanced state over other years. This will be good news for those who spend the winter in anticipation.

A surprising number of new applications have been received, and with very few resignations the directors are assured a splendid year.

The Northern Ontario Ladies' Golf tournament will be held over the Haileybury course in August, immediately following the men's championships at North Bay.

RELIEF ADMINISTRATOR APPOINTED FOR COBALT

Meeting in special session last night, Cobalt town council adopted new methods of handling the relief problem of the town, the changes made including one appointing Raymond Rogers paid administrator. His salary will be \$75 per month, but the relief he has been receiving hitherto for his work will be withdrawn. At the same time, council decided the whole matter will be handled by the council's own relief committee, with the addition of Capt. Payne, of the Salvation Army.

The province of Ontario shows probably the greatest regional variations in types of farming, ranging from the highly specialized fruit farms of the Niagara peninsula to the pioneer farms on the wooded lands in the Northern part of the province.

Ground Rents in Cobalt Question for Court Action

Controversy Is Renewed With Issuing of Writ by Haileybury Solicitor

The ground rentals controversy in Cobalt, which has been lying dormant for many months after flaring into an active issue last year, was renewed this week with the starting in Division Court at Haileybury of an action on behalf of the Aladdin-Cobalt Mining Co. against Joseph Robitaille, one of its tenants on Lang Street, for the recovery of \$65, alleged to be due for rent on the

lot he occupies there. Joseph A. Legris, Haileybury lawyer, acting for Van der Voort, Galivan and Van der Voort, Toronto solicitors who have represented the Aladdin company (which is an English concern) in Canada issued the writ against Mr. Robitaille, and he said on Tuesday night that, if the suit is successful, similar actions would follow against some other Cobalters who live on the company's holdings at the north end of the town. The action will be contested, with George Mitchell, K.C., appearing for the defendant.

Approximate figures available indicate that the total assessment of the lands of La Rose and Aladdin at the north end of Cobalt is \$34,000. Aladdin is stated to own 189 lots and La Rose 119, not all occupied. The companies, through W. E. McCreedy, argued they were being assessed twice on the same land, and it is this angle that has not been cleared up as yet.

ECZEMA

The Dreaded Skin Disease Now Counteracted By Discovery Made in Northern Ontario, 1933 EVERY PURCHASER HAS HIGHLY RECOMMENDED THIS REMEDY

A Clinic was run in Kirkland Lake with the result that each patient was a testimonial for this great discovery. Turtle For Two.

The turtle was "in clover" when this picture was taken, and "in the soup" shortly after. The background study in black and white is provided by the Misses Marion Webster and Helen of Montreal, on board the Canadian Pacific liner "Empress of Canada", in which they cruised around the world. The turtle, like many other rare and exotic delicacies consumed by four hundred passengers during their 30,000 mile cruise, only went part way.

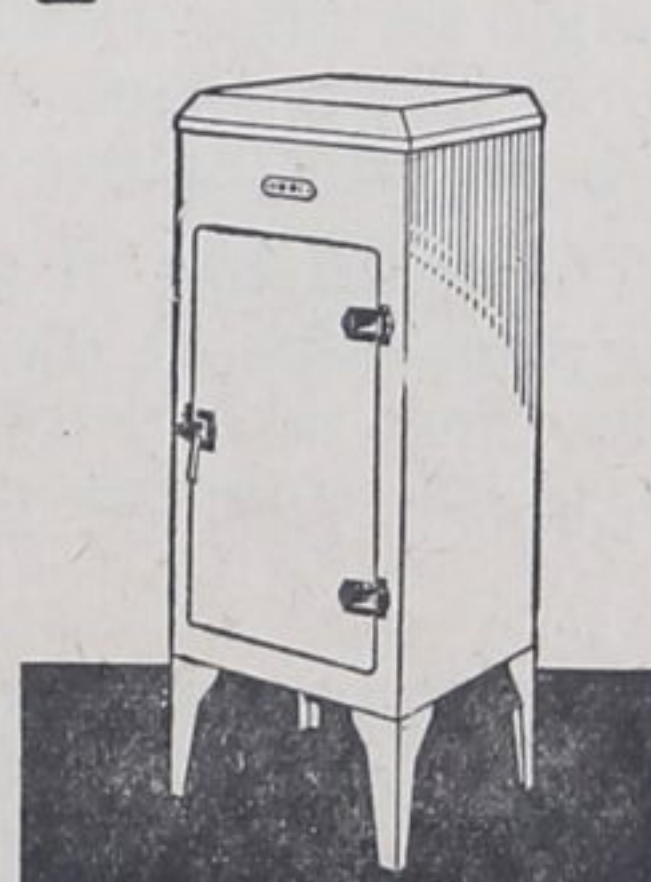

To Serve You Economically GENERAL ELECTRIC Home Appliances

HOTPOINT PERCOLATOR Makes delicious coffee—right at the table—by famous "Hot-drip" method. Many beautiful models.

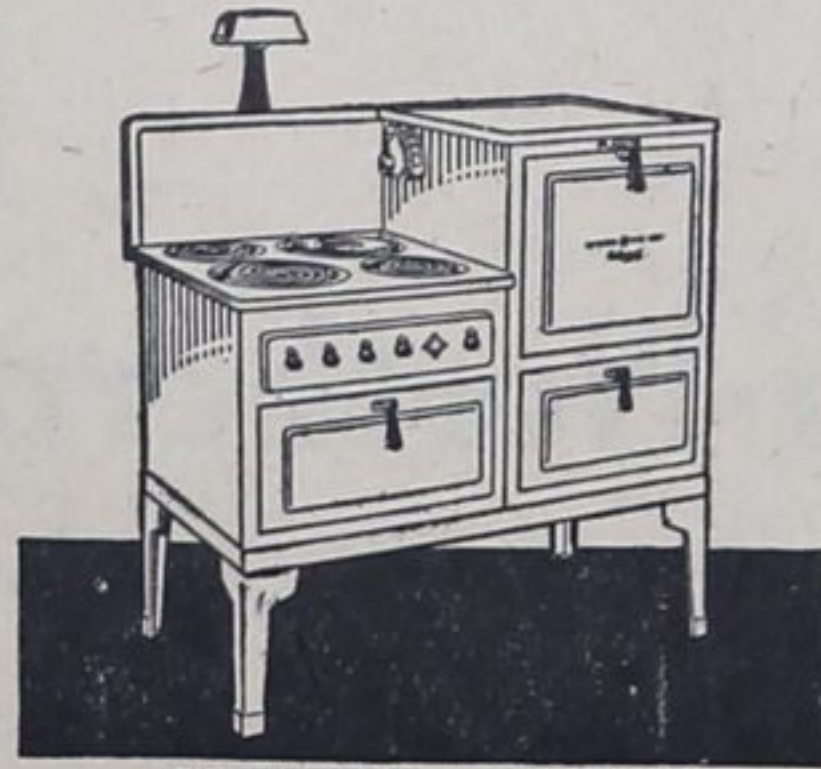

G-E MONITOR-TOP REFRIGERATOR The choice in 1 out of 3 homes with electric refrigeration. Backed by 4-Year Service Plan which guards you against costly repairs. Easy terms.

G-E "JUNIOR" REFRIGERATOR A new and worthy companion to the G-E Monitor-Top Refrigerator. Today's greatest value among low-priced refrigerators. Easy terms.

G-E HOTPOINT IRON Makes ironing easy. Thumb rest and attached heel stand add to your comfort and convenience.

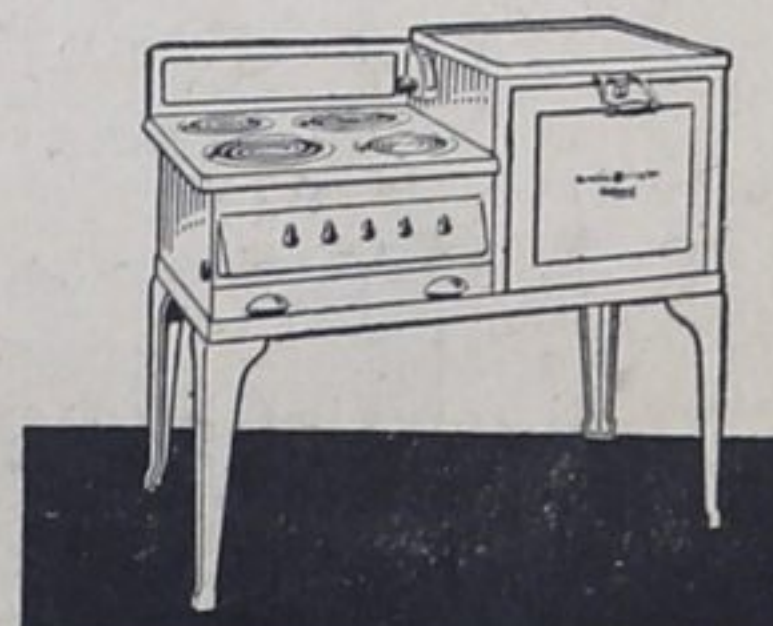

G-E DELUXE HOTPOINT RANGE This beautiful new model offers the extra advantages of Automatic Oven Control, Sliding Shelves, Economy Cooker, Utility Drawer and Illuminated Cooking Top. Convenient terms arranged.

G-E STORAGE TANK WATER HEATER Ensures plenty of hot water for bathing, shaving, dish-washing and laundry. Clean, convenient, thrifty. Deferred payments, if you wish.

G-E WASHER Makes play of wash day! Saves time, work and money. Choose from several models—with exclusive features. Easy terms arranged.

G-E HOTPOINT RANGE Means better flavored meals—cleanliness—coolness. Equipped with Hi-Speed Calrod (fastest electric range element in the world). Priced remarkably low and sold on easy terms.
